14.5 METRES

MINISIRIO, IDEAL FOR LOFTS AND ATTICS, RELIABLE AND SAFE EVEN OUTDOORS

MiniSIRIO is a vertical passenger platform lift, ideal for providing unrestricted access within homes built on more than one floor. Its open cab with special low walls (height just 1.2 m) solves the space problems generally found in lofts and attics. MiniSIRIO can be installed either on a supporting wall, by means of special wall-mounted supports, or using the "self-supporting" version, allowing the unit to be installed anywhere in the home. Comfortable and very quiet, MiniSIRIO adds to your home's value and prestige. With maximum travel of 14.5 metres, MiniSIRIO offers the user an excellent service in absolute safety and without interfering with the architecture of its installation

area. MiniSIRIO's electricity consumption is impressively low, similar to that of an ordinary household appliance. Special care is taken over details and finishing, which combine with the vast range of optional and colours available to allow the lift to be personalised to the customer's specific taste and requirements. Its reliability in any weather conditions means that MiniSIRIO can be installed on the inside or outside of buildings.

MINIMUM HEADROOM
1,600 MM

Maximum load capacity	315 kg
Maximum travel	14,5 m
Stops	6 max
Speed	0,15 m/s
Headroom	1600 mm min
Top floor perimeter enclosures	for rises < 3,000 mm: min. height 1,200 mm for rises < 3,000 mm: min. height 2,000 mm or up to ceiling
Controls	Automatic at floors/Run to hold in cabin
Power supply	230 V - 50 Hz
Electrical consumption	1,5 kW
Pit	120 mm min
Installation	indoor/outdoor

CREATING MOTION

Designing and building equipment that overcomes the architectural barriers and obstacles that prevent people with reduced mobility from moving around freely: this is our corporate mission.

The aim is to create “total quality” in all contexts, from the home to public buildings, whether space is limited or in plentiful supply.

All our products are based on painstaking design work, to guarantee the customer the best solution to access problems in every context, especially where space is at a premium.

We build superior-quality inclined and vertical platform lifts with the aid of outstanding technological know-how and a modern, dynamic vision of the market. Our company consists of a young, highly motivated team that takes the satisfaction of people's needs as its first and only objective.
