Features

Polycarbonate vandal-proof face

Tough machined aluminium housing

Weatherproof to IP68

The Polyflood 12 is a very high-powered single-colour LED floodlight for its size, using 12 high-power Luxeon Rebel LEDs. The Polyflood 12 is IP68 rated and so is at home in any indoor or outdoor application.

The fully adjustable and lockable bracket ensures easy mounting on most surfaces and an optional ground spike is available for installations in soft ground.

Available in various colour combinations the Polyflood 12 can create any mood or effect that you desire.

The Polyflood 12 has on-board driver technology and so can be connected directly to a 12-30V DC power source, whilst thermal feedback circuitry ensures that the LEDs do not overheat due to adverse ambient temperatures.
