

Our IMPACT Toolkit™ contains World Class Methodologies recognised for their effectiveness in a very broad range of industries and essential for achieving Operational Excellence

Lean RCM™ is a bespoke, tried and tested methodology for improving process reliability. It is based on best practice within the aircraft industry blended with Lean Manufacturing, from industries such as the automotive sector, and our own, vast, proven experience within diverse industrial sectors. This on-site, hosted, 4 Day workshop provides the competence and confidence to facilitate teams through a vast range of best practice improvement tools and techniques and is the next step in achieving the industry standard for Reliability Professionals; Lean RCM™ Facilitator

*"After 25 years in engineering and operations management, I thought I knew about preventative maintenance. How wrong I was! I now have an understanding of Lean RCM™ and its principles which will help me to run our business so much more effectively and efficiently."* **Richard Moore, General Manager, Cepac**

## Who should attend

- Continuous Improvement Consultants and Leaders
- Lean Coaches and Facilitators
- Those already trained in Lean RCM™, Lean or 6-Sigma
- Maintenance or Operations Technicians looking to further their career

CPD - Delegates have opportunity to go on to achieve certification in Lean RCM™ Level 3 Qualification "Lean RCM™ Facilitator" accredited by SQA and equivalent to 49 Credits at Ordinary Degree

## Why attend

To develop key facilitation skills for leading an IMPACT Masterclass™ Lean RCM™ Programme

To gain an appreciation of the business transformation process which accompanies the implementation of a Lean RCM™ strategy

To gain a broad understanding of Lean and Reliability tools and techniques and of the culture, management and team behaviours required for these tools and techniques to be integrated into day-to-day business

To maintain the high quality of this workshop, numbers are limited to 6 people

- Facilitator Training & Presentation Skills

## Day 2 – Lean RCM™ Facilitation skills in practice

- Lean RCM™ Facilitation skills in practice – 1 Go-Look-See
- Lean RCM™ Facilitation skills in practice – 2 Process Mapping
- Lean RCM™ Facilitation skills in practice – 3 Functions & Functional Failures
- Lean RCM™ Facilitation skills in practice – 4 Risk Register
- Lean RCM™ Facilitation Skills in practice – 5 FMEA

You may also be interested in... Our 15 day **IMPACT Masterclass™ programme on Lean RCM™** is implemented on site involving a multi-functional team learning the tools and techniques and delivering tangible improvements in three months. The IMPACT Masterclass™ approach gives people in the organisation the opportunity to develop knowledge and competence in Lean RCM™ and to learn how to use the techniques by taking part in a programme facilitated by an expert consultant from EMS Cognito.

EMS Cognito offers a range of **IMPACT Toolkit™ workshops on-site & off-site** covering tools and techniques in Reliability, Process Improvement, Change Management and Lean. Please visit our website for more details and to see the list of dates and locations.

### What's Included

Delegates are provided with training materials & templates

Workshops include lunch and refreshments throughout the workshop days.

### Terms & Conditions

Please visit our web-site [www.emscognito.co.uk](http://www.emscognito.co.uk) for full details of booking terms and conditions

## Day 3 – Lean RCM™ Supplementary theory

- Lean RCM™ Facilitation skills in practice – 6 Criticality
- Lean RCM™ Facilitation skills in practice – 7 Lean RCM™ Analysis
- Supplementary theory-for Lean RCM™ Facilitators - MTBF
- Supplementary theory-for Lean RCM™ Facilitators – Task Viability
- Supplementary theory-for Lean RCM™ Facilitators - Failure Finding

## Day 4 – Facilitation of an IMPACT Masterclass™ Lean RCM™ Programme

- Facilitator Training & Presentation Skills – Part 2
- Managing Daily Performance
- Designing & Creating MDP systems
- IMPACT Masterclass™ Lean RCM™ Managing Transformation
- Completing the Lean RCM™ Units 4&5 Facilitator Assessment workbook
