Waste to Wonder

wagstaff interiors group in partnership  
with waste to wonder - today and tomorrow

**Wagstaff**

# wagstaff interiors group in partnership with waste to wonder today and tomorrow

Wagstaff Interiors Group have partnered with the Waste to Wonder™ organisation to provide an environmental and corporate responsible solution for the management of redundant office furniture.

All customers of Wagstaff Interiors Group now have the opportunity to support charities

and schools worldwide as well as protect their local environment.

Wagstaff Interiors Group and the Waste to Wonder™ organisation invite your company to step into a simple, seamless and secure process currently endorsed by over 145 blue chip companies.

## it's a win-win-win solution

Waste to Wonder™ was formed in the United Kingdom in 2002 with a defined purpose to, 'change the perception of waste.'

Every year thousands of tonnes of perfectly good furniture and equipment is either put to landfill or simply recycled. Waste to Wonder™ provides a unique service for managing your redundant asset disposal in the most socially and environmentally responsible way.

We manage the removal of redundant office furniture and IT equipment to genuinely improve someone else's quality of life - whether by building a health centre in the Gambia, an orphanage in Cameroon, or by supporting schools and charities in your local community.

Our trademarked Environmental Management Process (EMP) is employed to redistribute and report on your redundant assets.

Our aim is to redistribute these items into national and international programs, helping schools, charities and environmental organisations. At the end of each project a comprehensive report is provided back to you.

EMP provides your company with:

- Comprehensive data capture
- Significant cost savings
- Multi-sited uniformity
- Secure and risk-free process
- Global redistribution to support charities
- Increased environmental performance
- Carbon measurement report and savings

Providing people in need with your redundant assets could substantially improve the quality of their lives. 'What may be a waste to one person could be a precious resource to another'. Charities find our programmes extremely valuable as funds that would be used to furnish their buildings are redirected back into their budget and straight to the people that need it most.

Waste to Wonder™ support a wide range of respected and established charitable organisations including the UNEP, UNESCO, World ORT, Shelter, Mercy in Action and The Terrence Higgins Trust.

There are a number of benefits of using the Waste to Wonder EMP for your business. Here are just a few:

**REDUCING COSTS:** Wagstaff customers can make an immediate saving through the Waste to Wonder EMP process. Unlike recycling which can be charged around £135 per tonne, through Waste to Wonder™ we can redistribute your items at **NO WEIGHT CHARGE**. For example if 18 tonnes of product is redistributed through Waste to Wonder™ your company will potentially save a massive £ 2,430

**SIMPLE, SEAMLESS:** This is a process that can be introduced by the Wagstaff customer merely by redirecting useable product away from recycling and into redistribution. The process is seamless and can work over all departments or sites. The real advantage here is getting uniform reports on your corporate responsible process.

**SECURE:** If a company chooses to redistribute redundant product direct to charities or schools there can be issues over security and responsibility. However Wagstaff customers can feel secure that a transfer of title is in place which indemnifies them from donations of items made by Waste to Wonder™ .

**FULL REPORT:** This is a report that does more than tick a box; this report demonstrates your best practice. All major companies are obliged to adhere to corporate responsibility. Wagstaff customers can now really show what that means. The report provides project detail, distribution details, support detail and our new addition of carbon saving.

**ENVIRONMENTAL:** Carbon is a big issue with all major companies and Wagstaff customers

can now receive a carbon report and saving figure, for items redistributed, post project. The EMP process follows the government mantra in order of Reduce- Reuse - Recycle.

**CORPORATE RESPONSIBLE:** The umbrella of corporate responsibility covers a myriad of subjects; Waste to Wonder™ addresses several of these on behalf of Wagstaff customers. The advantage of having the EMP process in place ensures corporate responsibility becomes a way of working in a responsible manner.

**PR & BRAND SUPPORT:** This is such a valuable benefit and through our dedicated communications team we can support the positive PR coming from the redistribution of useable product. This PR can come in the form of case studies, press releases, or simply telling your staff through the intranet what wonderful things your company is accomplishing. In today's economic climate a company's brand is often the positive differentiator, this is an opportunity to strengthen and support the company brand.

**HIGH PROFILE CHARITABLE PROJECT:** By deciding to dispose of redundant items through the Wagstaff and Waste to Wonder™ partnership, your company will enjoy access to high profile international bodies such as UNESCO, UNEP and will be directly supporting major charities and NGO's such as World ORT, Born Free and Shelter.

BIG Bright Future is our charitable programme which sees us working with respected and accredited NGOs ,schools and charities around the world, making a real difference to the lives of people in need.

We have worked in many countries providing much needed equipment to the classroom environment, enabling school children to both learn and feel proud about their surroundings. Our projects have also involved health centres, orphanages and wildlife centres allowing these organisations to flourish and deliver their invaluable work.

Through the Waste to Wonder EMP process, BIG Bright future can select and donate redundant corporate equipment such as IT and furniture to help even more projects.

At last companies have a real opportunity to demonstrate their core environmental values thereby improving the lives of our global community.

### GETTING STARTED

Getting started couldn't be easier! Simply contact your Wagstaff Account Manager who can give you some more information on the Waste to Wonder EMP.

The Account Manager will then introduce you to a Waste to Wonder™ representative who can answer any further questions and arrange a free survey.

Feel free to contact your Waste to Wonder representative on 020 8432 1000 where a

By working with Waste to Wonder™ you can be a part of helping others have a bigger and brighter future.

member of staff would be happy to assist you, or for further information visit our website at [www.wagstaffgroup.co.uk](http://www.wagstaffgroup.co.uk).
