## EtiCAD-6

Label Design, Printing & Management Software

*Labelling Software for Business*

A powerful, fully-featured, yet easy-to-use package for designing label templates, creating barcodes & printing labels. Allows inclusion & control of variable data such as; product codes, batch/lot numbers, barcodes, expiry dates, serial numbers & graphics

**Features:**

- **Design** with Microsoft Office style tools
- **Create GS1** compliant barcodes with confidence
- **Add QR codes** with a few simple mouse clicks
- **Integrate** with other data sources easily
- **RFID** writing to programmable smart labels
- **Dedicated Printer Drivers** - 500+ built-in printer drivers for the most common industrial label printers and Print & Apply label applicators available (old & new).

# EtiCAD-6 Features

There are 3 versions of EtiCAD-6 to choose from, depending on your requirements:

**EtiCAD-6 Standard Edition** - An easy to use application that runs on Microsoft platforms. EtiCAD-6 Standard Edition allows a single user to design & create labels using a basic set of variable data. Dedicated, high-speed drivers within the software ensure high speed data transfer to a wide range of coding devices, including thermal transfer printers, print & apply labelling systems & RFID encoders. EtiCAD-6 Standard Edition is ideal for single workstation operations in small to medium sized enterprises & has the ability to drive up to 5 devices..

**EtiCAD-6 Professional Edition** - Delivers all the features of the Standard Edition product but with a list of additional features which make it ideal for larger enterprises & multi-user environments. EtiCAD-6 Professional Edition provides higher levels of security, connectivity & reporting. It can drive up to 10 printers concurrently & can be upgraded to an unlimited number which means that EtiCAD-6 can grow as your business grows.

**EtiCAD-6 Print Only Edition** - A simplified version of the product that has all of the design features removed. It's intuitive menu guide non-experienced print operators to achieve maximum performance whilst ensuring that the more sensitive label design capabilities are restricted to power users.

**Network Site Licences** - 5-user, 10-user and 20-user site licences available, to provide a networked solution.
