

Twiggy LED F

Description –

Floor lamp with direct and indirect light. Diffuser and rod made of fibreglass – based composite material and liquid coated. Translucent polycarbonate upper diffuser disc, PMMA lower diffuser disc with polyprismatic internal surface. Epoxy powder coated metal round base. Supplied with 4 counter – weights to be inserted in the purpose-provided seat above the diffuser to adjust its height. For LED Version the circuit boards were purpose – designed by Foscarini, to achieve a superior level of colour rendering (cri) and retaining the same colour temperature as a halogen light source (kelvin). The two LED circuit boards are installed on an aluminium disc that acts as a dissipator, and the upper board is protected by a small PMMA disc. Additional arc-extending rods available upon request; the black cable is fitted with a dimmer which can be used both to adjust the level of luminous intensity gradually or as the ON/OFF switch.

General –

Designer:	Marc Sadler
Material:	Coated Fibreglass-based composite material / PMMA / Polycarbonate / Coated metal and aluminium
Finish:	Red / White / Grey / Blue / Black
Height:	215mm
Base Width:	170mm
