# The VERTICAL Garden

# Vertiss

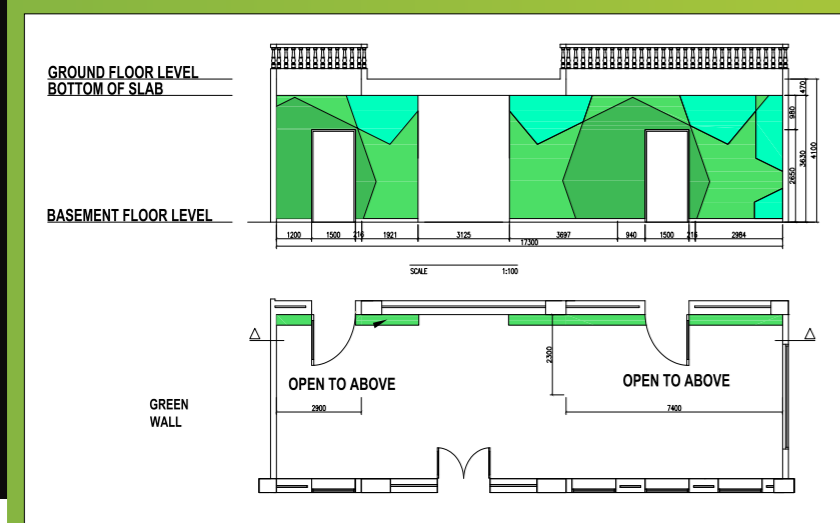

The vertical garden Vertiss conveys a feeling of well-being thanks to its flourishing green and modern design. This outstanding green wall brings life to vertical areas until now unoccupied. The Vertiss + concept is the result of years of research and tests in the field of vertical growing, carried out by a professional and experienced team. This is why the Vertiss system meets even the highest demands in terms of vertical gardens, also on unexpected and astonishing surfaces. Vertiss stands for long-lasting, high quality materials and easy installation.
