VIRTUAL GALLERY

David Clouting have become one of the first companies to have an online virtual exhibition stand.

You can walk 360° around our stand, view our products and even request literature -it's like visiting an exhibition from the comfort of your office!

You can view our stand at:
<http://exhibition.lightingandinteriorsonline.com/interior-design-hall/>

Welcome to On The Surface

Welcome to the 13th edition of our Newsletter. Christmas is nearly here again and we hope it has been a successful year for our customers - we thank you for your business.

In 2016 we hope to be able to introduce some more exciting new products in addition to the just launched B9 and hard coat PET Décofoil range - maintaining David Clouting's position as the UK's leading surface material provider.

Everyone at David Clouting wishes you a Happy Christmas and a Prosperous New Year.

To keep up to date with all our news please check our website www.davidclouting.co.uk

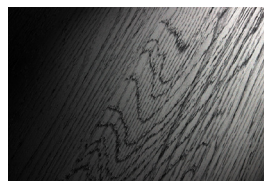

The David Clouting sales team were in action when we exhibited at Takeaway Expo at the ExCel Centre London and UK Construction Week at the NEC Birmingham. Our products attracted considerable interest with a number of quality sales leads to follow up. Next year we will be at W16 the leading joinery and furniture manufacturing show 2nd - 5th October NEC, Birmingham see you there?

NEW! - REALISTIC OAK WOODGRAINS AND HARD COAT PET DÉCOFOILS

New from David Clouting - B9 a natural-looking painted wood Décofoil range from LG Hausys that is suitable for vinyl wrapped doors, five-piece doors and laminated flat panels for cutting and edging.

The oak woodgrain texture unlike many textured finishes has such a distinctive grain effect that it can clearly be seen from several feet away.

Available in Porcelain White, Ivory (Alabaster), Mussel, Cashmere, Stone Grey, Light Grey and Graphite Grey, B9 can be supplied ex-stock in rolls 1450mm wide x 200m long (0.4mm thickness).

Alternatively, you can choose your own colour with our 'Make to Order' service, (for orders with a minimum length of

2,000 linear metres). Ideal for both membrane pressing and flat lamination. B9 is fully FIRA certified.

If it's plain gloss or supermatt finish you require LG Hausys Hard Coat PET Décofoils according to David Clouting Sales Director Edward Quant are "similar to an acrylic panel in gloss and super matt but more cost-effective".

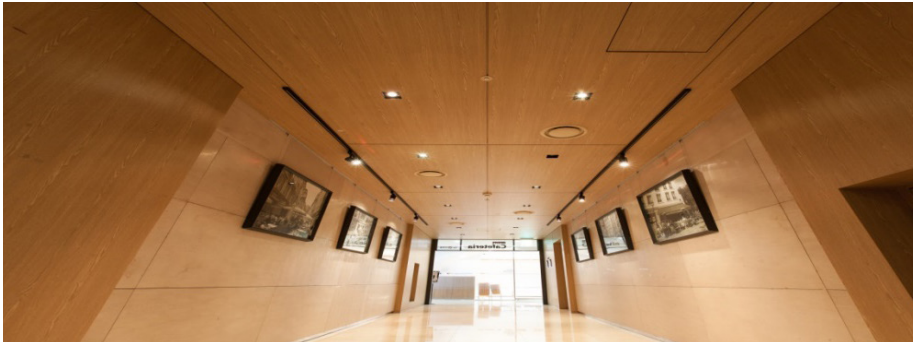

Stock colours include White, Ivory, Alabaster, Mussel, Light Grey and Graphite Grey.

Hard Coat PET Décofoils are available in 300 linear metre single roll quantities or through our 'Make to Order' service from 3,000 linear metres (which can be a mixture of super matt and gloss).

Hard Coat PET is also FIRA certified.

For a sample or further information please email: marketing@davidclouting.co.uk

INTERIOR FILM - THE ART OF REFURBISHMENT

Interior Film is a self-adhesive film that can be applied to almost any surface including: wood, metal, plaster board, plastics and melamine. This enables walls, doors, furniture, skirting and architrave to be quickly transformed with minimum disruption and at low cost.

FEATURES & BENEFITS

AVAILABLE ON BIMSTORE

Building Information Modelling (BIM) involves creating a virtual model of a project before its physical construction.

For the professionals involved in a project, BIM enables a virtual information model to be handed from the designer to the main/sub-contractor and then on to the owner/operator; each professional adds discipline-specific product information to the single shared model.

This includes features such as colour, designs, materials etc which can be organised in one place rather than through many separate drawings.

Interior Film from David Clouting is included in the manufactures section of the BIMSTORE website and can be viewed at www.bimstore.co.uk

bimstore.co.uk

David Clouting
David Clouting distributes interior surface materials that inspire innovation, lead the market and set international precedents. We aim to provide a complete life cycle solution, with smart responses that provide long functionality, being designed in-house and in design.
