R5

[www.zallys.com](http://www.zallys.com)

The R5 is an electric trolley with a loading capacity up to 750 kg on flat ground, equipped with an hydraulic tilting system that is activated directly from the tiller head.

The machine is equipped with a standard load box being 1800x800x600 mm with 4 sides. Two of them are removable and openable.

The swivel tiller head is supplied with a safety sensor which allows to work only in the presence of assigned personnel.

The motor is equipped with an electromagnetic brake that block off the R5.

Our electric vehicles are not only CE certified but, more than 80% of the range is covered by the UL certification, which guarantees its suitability to the standards applicable in relation to potential risk of fire, electric shock and mechanical hazards.
