

Borehole Pumping Equipment

Carter Pumps have been drilling boreholes and installing pumping equipment since we started in 1984. With good levels of stock and an experienced team you can be sure we are in a position to help.

Pressure vessels, pressure switches and pressure gauges

Single and three phase drop cable usually available from stock.

Single and three phase motors usually available from stock.

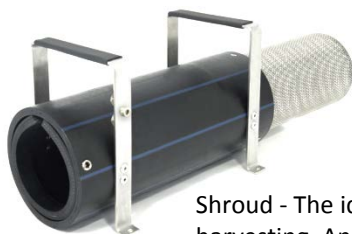

Water meters

Control-Box – Range of single and three phase control boxes. Bespoke configurations such as time on / pressure off available on request.

Heat shrink cable connection kits

Shroud - The ideal solution for rainwater harvesting. An "easy-fix" for horizontal installations of submersible pumps. It ensures the proper cooling of the motor and it comes with an oversized filter to avoid blockage by leaves or small stones. Can be mounted to a surface and has convenient handles for easy carrying.

Carter Pumps can also help with . . .

Borehole drilling.

Geologic prognosis report.

Water analysis.

Ground works. Undertaking all types of ground works including trenching of pipes and cables.

Electrical works. We are an NICEIC approved electrical contractor.

Water treatment. Including nitrate removal, softening, particulate filtration, UV sterilisation and sodium hypochlorite dosing.

Reservoirs.

Break tanks

Booster sets
