

1Parts announces first global supplier agreements.

Paris – Equip'Auto, October XX, 2015

Hosted by Autodistribution France at the Equip'Auto (Paris, 13-17 October), 1Parts and ADI announce the first global supplier agreements.

Autodistribution (France) exposed at the Equip'Auto on a 600 m² stand where during 5 days, from 13/10 till 17/10, hundreds of professionals including the Autodistribution wholesalers, were introduced by the Autodistribution team to the extensive portfolio of aftermarket concepts and services, such as AD Garage Expert (high level multibrand repair network), AD Carrosserie (multibrand network for body repair), Isotech (private brand for parts and equipment), Autossimo (electronic catalogue and technical support), iDGARAGES (online booking of repair and maintenance), Assistance Diag24 (diagnostic and technical hotline solution), ...

Both AD International and 1Parts, the global organization for aftermarket services founded by ADI and Pronto (US) in September last year, were hosted on the first floor of the Autodistribution stand in Hall 5.

During the fair, the 1Parts management team - Omer Wesemael and Nico Muyldermans on the ADI side and Bill Maggs and Mike Mohler on the Pronto side – met with various parts manufacturers to discuss and finalize global supplier agreements. 1Parts and ADI marked the occasion by proudly presenting their first five 1Parts global supplier agreements with:

Philips, KYB, TRW, Schaeffler (LUK, INA, FAG), Mann Filter.

Through their global approach, the 1Parts agreements will allow both the 1Parts associates (ADI, Pronto, Federated) and their new contract partners from the automotive parts industry to consolidate and increase their aftermarket businesses on both sides of the ocean.

More announcements concerning further 1Parts agreements may be expected during the AAPEX Show (Las Vegas, US) on 3-5 November.

About 1Parts

1Parts is the global organization founded by the Europe based AD International (with headquarters in Kortenberg, Belgium) and the Grapevine (TX) US based National Pronto Association. 1Parts aims to raise benefits for all 1Parts stakeholders on both the trade and industry side in key domains such as supplier management and brand strategy, marketing support, data sharing and technical support to installers. 1Parts today counts 3 members - ADI, Pronto and (since March 2015) Federated - extending their global footprint in Europe, US, Canada, Mexico and Puerto Rico.
