### **KIZONE Information Inc. TAIWAN**

*Sole Distributor & Strategic Alliance for Bangladesh Market*

### **Product Line: Web Based Time Attendance & Access Control System**

Kizone Information Inc. has its R&D background sourced back to year 1990 when it started the business of Laptop Computer design and production in Taipei, Taiwan. Then merger with Avant-Datatek Co., Hong Kong that Kizone began its another route involved in Auto ID and Security industry. As efficient management of life & property security and enterprise attendance data processing have successfully developed Access Control, Time & Attendance, Security Patrol and School Attendance system and are stepping into a broader application which includes Library Management, Asset Tracking, Health Care, etc.

**KIZONE provides Biometrics and Contactless Smart Card Web-based Access Control / Time and Attendance solution for businesses.** Applying Web-embedded technology it allows a system manager to communicate with any terminal connected to an internal LAN or the Internet simply through a common Web Browser such as Microsoft Internet Explorer & Netscape Navigator bypassing a PC-based access & time control software.

**Comparing to its competitors in the market, Kizone Inc.** appears to be relatively newer in product concept and design and more innovative in applying modern IT technologies in this conservative industry. For fulfilling large enterprises' growing need for a more efficient system for managing and maintaining employee attendance and door access control at their branch business units located in different sites, **Kizone Inc.** has been devoting time and efforts in developing a series of web-based hardware terminals and central management application software since year 2009, and this energy of innovation will never stop.

While enterprises' business branches, as well as the communication network, is sprawling the whole world, they need more time & money for creating more business chances. **Kizone AD series give a helpful hand to system providers who assist them achieve that goal!** AD & IDF Series won several awards following success for RFID and Biometric (finger print) models: **AD-50, AD-350W-EM, AD-350W-FP, IDF-200** more product info: [www.numericsolution.net](http://www.numericsolution.net) / [www.kizone.com](http://www.kizone.com)
