About design plus

 design plus is our revolutionary new cloud-based tool which enables easy text editing of INDD files via any web browser – without the need for InDesign.

Reviewers – who need no knowledge of InDesign and do not need InDesign to be installed on their systems – can see a live preview, edit text so it is exactly how they want it, and save their changes so that the InDesign file is updated. With the automatic red-box marking offered by design plus, they can even see if text changes will result in overflow beyond the bounds of a text frame, and make changes accordingly. The images and formatting can't be altered, so you can rest assured that any design work will stay exactly as it is.

- **No need to buy expensive InDesign licenses when the focus is text editing.**
- **Use design plus from anywhere with an Internet connection – even on an iPad.**
- **Assign multiple users with varying levels of access and full encryption.**
- **Export files to multiple formats (INDD, IDML, PDF, SWF, etc.) for maximum flexibility.**
