

Bathroom Cabinetry Guide

CHOICE
Cabinet

IT'S AN EASY CHOICE

If you are looking to complement your new kitchen or just simply update a bathroom, we offer bathroom cabinetry and vanities in most of our door styles. Our bathroom cabinetry is available in numerous size options with optimal storage configurations that allow you to obtain whatever look you may desire.

STANDARD FEATURES

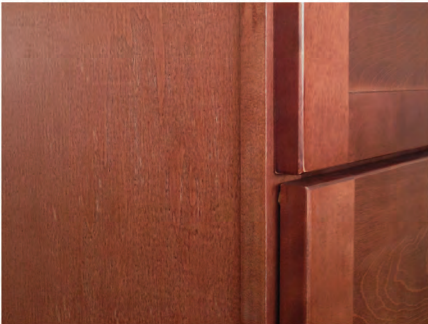

We take a lot of pride in the quality construction and various features that you will find in our cabinetry. Choice cabinets are the perfect blend of strength and beauty. They are built from the finest materials and then hand assembled, because we know that your cabinetry needs to stand the test of time.

Show of strength. Dovetailed joinery is one of the strongest joints used in cabinet construction. It is also the most decorative form of joinery.

It all hinges on this. Our 6-way adjustable, concealed hinges offer a clean appearance and precision door adjustment.

A good finish. End panel and toe kick exteriors are finished to match which results in keeping materials and costs to a minimum.

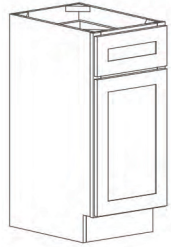

A solid foundation. 1/2" thick veneered plywood end and back panels plus 3/4" solid wood corner braces result in a solid cabinet box.

Quality, functionality, and convenience are the most important aspects of bathroom cabinetry. All of these high-end features come standard:

- ✓ 3/4" Thick Solid Maple Face Frame
- ✓ 1/2" Thick All Plywood Box Construction
- ✓ CAM Lock Construction
- ✓ Full Extension Side-Mount Glides
- ✓ Plywood Dovetail Drawer Box
- ✓ 3/8" Plywood Drawer Box Bottom
- ✓ Natural Birch Wood Veneered Interior is a Natural Finish
- ✓ Natural Birch Wood Veneered Exterior is Finished to Match Door
- ✓ Solid Wood Corner Braces

CONFIGURATION & DOOR STYLE OPTIONS

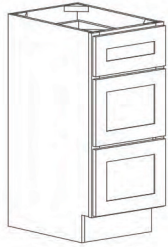

Design a dream Master Suite, Hallway Bathroom, or Powder Room that truly reflects your personality. With Choice Cabinet's configuration and door style options, you can achieve convenience and organization while also saving space. Create a custom bathroom by incorporating different cabinet combinations with thoughtful touches. The possibilities are endless.
