Welcome to Ashworth

Ashworth is recognised as one of the leading distributors to the Mechanical Services and Process Industries markets, providing market-leading products from a network of strategically located branches serving all the major conurbations and surrounding territories.

Ashworth continually adapts to changing market conditions and prides itself on developing innovative, problem solving products and services to meet our customers needs, as well as continuing to supply many proven products in our traditional Pipeline, Valves and Fittings portfolio.

This guide features the range of products we can offer from our strategic locations. The range of products is continually growing, if you do not see what you want or have a specific requirement, please call in to your nearest Ashworth branch or call **0800 783 7680** and we will be happy to help.

Service

We pride ourselves on supplying an unrivalled range of products and services from recognised market leading manufacturers. These products are stocked in depth at all our sites which are linked via a sophisticated IT network to facilitate the sourcing of additional products in rapid time, thus improving on-site deliveries.

We service the UK from our network of strategically placed branches, all of which employ teams of knowledgeable staff equipped to answer the needs of our customers enquiries.

They are all trained to problem solve received enquiries, whether that be sourcing a new range of products or simply providing service on our stocked ranges.

We strive to be at the forefront of innovations and will introduce new product ranges and services on a regular basis, thus providing our customers with the opportunity to differentiate their own service to their clients.

Our objectives in service are to provide:

- A friendly and helpful service to all our customers
- A quick and efficient response to all enquiries
- A core range of products to satisfy immediate customer requirements
- Innovative and efficient solutions to customer needs
