

HEALTHCARE

We understand that the healthcare industry is dependent upon patient needs and trends, insurance regulations and policies, and government mandates and funding. Working with an accounting firm that has considerable resources and unparalleled experience is vital to the success of your practice. Our healthcare and medical accounting experience include the following:

Physician Practice Groups:

- Physician group clients include: OB/Gynecologists, Surgeons, Anesthesiologists, Periodontists, Dentists, ER doctors, Podiatrists, Allergy & Asthma Specialists, Rheumatologists, and Ophthalmologists.
- Provide tax planning & compliance and perform financial statement audits for a variety of physician groups.
- Perform monthly (or more frequent) accounting services and issue compilations for several groups.
- Performed business advisory services to an ophthalmology group practice and its physicians, including assistance in developing a cash flow planning model.

Home Healthcare Agencies:

- Perform financial statement audits for a home health care agency.
- Provide tax planning and compliance for a home health care agency.
- Provided tax planning and compliance for owners of a home health care agency upon its sale.

General & Specialty Hospitals and Surgery Centers:

- Supervise monthly compilation for a women's specialty surgery center.
- Provide tax planning and compliance to specialty surgery center.
- Assisted in merging a community hospital into a regional healthcare system.
- Performed business advisory services to an ophthalmology surgery center, including assistance in developing a cash flow planning model.
- Provided special outlier payment research for a rehabilitation center.
- Assisted with the \$25 million sale of two hospitals in 2012.
