Technical Information

Product Code D004

## **DESCALER AND CONCRETE REMOVER**

DESCALER AND CONCRETE REMOVER is a powerful acidic product, used for cleaning and descaling builders equipment, concrete mixers, form-work, tools, water heating tanks, heat exchangers, pipe-work, etc. The product dissolves and removes cement, mortar, concrete, lime-scale, hard water deposits, etc from metal and other surfaces.

DESCALER AND CONCRETE REMOVER may be used for removing cement marks and rust stains from the surface of brickwork and concrete, and also for de-rusting and pickling ferrous metals..

When suitably diluted with water DESCALER AND CONCRETE REMOVER may be used for cleaning concrete slabs, decorative patio paving, bricks, blocks and paviors, artificial and natural stones, etc.

**DISOLVES CEMENT DEPOSITS**

**REMOVES RUST STAINS AND LIME SCALE**

**FAST ACTING - TIME SAVING**

**CAN BE DILUTED WITH WATER**

### **DIRECTIONS FOR USE**

DESCALER AND CONCRETE REMOVER may be used as supplied, or diluted with up to 8 parts water. The solution may be applied to surfaces with a brush and agitated until effervescence ceases. Tools and small metal items may be immersed in the solution until the deposits are removed.

All surfaces, or treated tools, etc. should be washed with clean water to remove the acid, and metal items should be treated with a suitable rust preventative or inhibitor to prevent rusting of the cleaned surface.
