

Tipping Skip Range

ENGINEERING SOLUTIONS FOR THE WASTE & RECYCLING INDUSTRIES

FEATURES

Gradeall Tipping Skips are manufactured for easy transportation of waste and recyclables in a wide variety of working environments

The Tipping Skip attaches to any conventional forklift making it easy to load waste into compacting equipment with a suitable hopper. An easy to use spring loaded handle holds the tipping skip in the upright position until released by the user, at which point the contents are easily emptied.

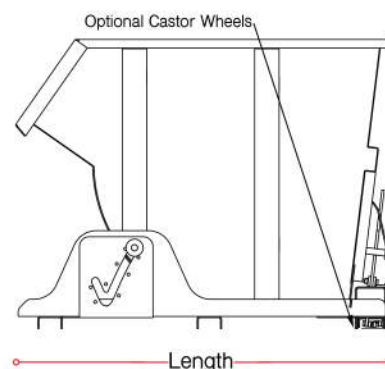

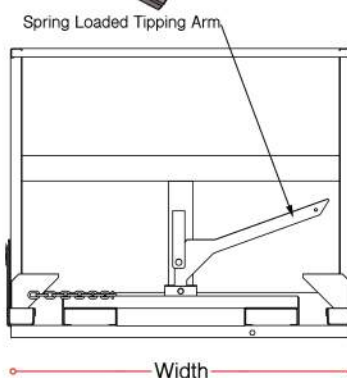

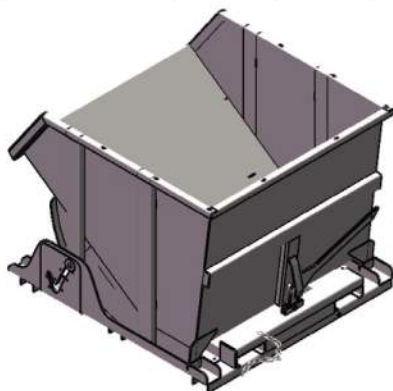

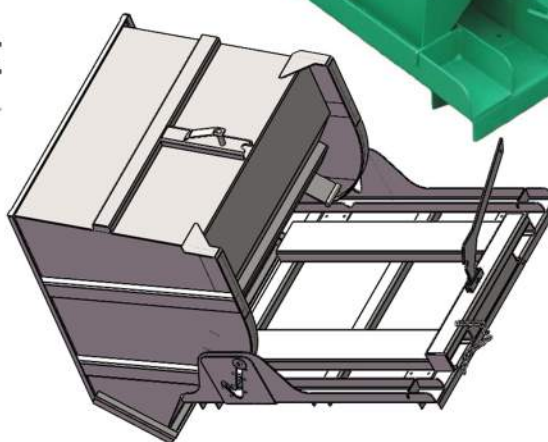

- Robust Manufacture
- Optional Castor Wheels
- Fully Galvanised Chains
- Designed to suit all Standard Forklifts

Custom Options Available
