of the Space Age
USDA Approved
BIODEGRADABLE
Concentrated
Multipurpose
Cleaner

**TITAN
GREEN™**
SUPER STRENGTH

CLEANER and DEGREASER

Cleans Everything Washable

Titan Green Multipurpose Cleaner comes to you as a super-concentrate. You simply mix it with water to make a cleaning solution ideal for your intended task. It replaces hundreds of specialized cleaners.

Titan Green Multipurpose Cleaner is a super-strength concentrate with exceptional cleaning and degreasing ability. It has been proven by millions of sales to commercial, industrial, institutional and residential customers.

These customers include some of the largest organizations—from the U.S. Navy, to leading manufacturers in the aircraft, chemical, petroleum and hospitality industries. Plus thousands of smaller companies — such as machine shops, stores, construction contractors, offices, contract cleaners, automobile and truck detailers, schools, institutions and homes.

Why do so many customers choose Titan Green? **EFFECTIVENESS, CONVENIENCE, VERSATILITY, SAFETY and ENVIRONMENTALLY FRIENDLY.** You simply dilute this powerful concentrate with water to create your own special-purpose cleaners. The utmost in convenience and economy. Titan Green simplifies life and reduces labor.

Besides terrific cleaning performance and convenience, this super-concentrate is also environmentally friendly—by using it you significantly reduce packaging trash and the pollution caused by transporting unnecessary water.

Titan Green is biodegradable and USDA approved. It produces spectacular results. Dirt, grease, oil, soot, vegetation and food stains, to name a few, quickly yield to this high-tech cleaner. You can use it on all washable surfaces, including painted parts, walls, floors, machinery, carpets, equipment, vehicles, upholstery, clothing, counters, appliances, walkways, masonry, windows, etc. Titan Green leaves a pleasant fragrance. It rinses extremely clean.

Every business, store, factory or home can benefit from it.

Available in
quarts,
gallons,
5-gallon pails
and 55-gallon
drums

TRIGGER SPRAY BOTTLE.

Provides clear identification of contents and dilution ratio. Non-tip 24-oz. bottle. Professional quality. Refillable, with ounce calibration scale. Adjustable spray pattern. Meets OSHA requirements for secondary containers. Spraying is the ideal application method for most uses – like a water pistol, fast and fun to use. Keep several spray bottles handy where you need them.

- **A SUPER CONCENTRATE.** You create needed cleaning strength by adding water.
- **BIODEGRADABLE, USDA APPROVED.**
- **OUTSTANDING RESULTS.** Works where other cleaners have failed.
- **SIMPLIFIED DILUTION RATIOS.** Four recommended ratios: Light, Medium, Medium-Heavy or Heavy Duty strengths.
- **NO VOC.** No Volatile Organic Compounds. Does not affect air quality.
- **WATER BASED.** Oftentimes replaces cleaners containing solvents, caustics or acids.
- **NO FLASHPOINT.** Non-combustible.
- **ENVIRONMENTALLY FRIENDLY.** Very concentrated for minimum packaging. Biodegradable, USDA Approved. Contains no chlorinated solvents, phosphates, CFC's, alcohol, ammonia, acids or abrasives.
- **PLEASANT FRAGRANCE.** Cleans and deodorizes. Mild fresh-outdoor fragrance.
- **VERSATILE.** Apply with sprayer, brush, rag, immersion soak, power scrubber, pressure washer or in an ultrasonic cleaner. Hundreds of uses throughout any facility or home.

Industry

Air Filters, Benches, Boiler Fronts, Catch Trays of Stoves and Range Hoods, Chrome, Coffee Oils, Conveyors, Degreasing, Display Cabinets, Dried Lubricants, Lubrication Pits, Floors, Lunchrooms, Machinery, Machines, Markerboards, Masonry, Metal Fabrication, Oxidation, Paint Brushes, Parking Areas, Parts, Plastics, Preshipping Cleanup, Presses, Quick Lubes, Restrooms, Sinks, Tools, Walls (Interior and Exterior), Workclothes, Worktops, Urinals.

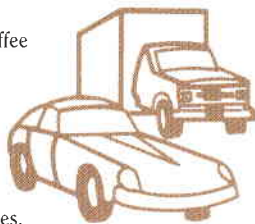

Office

Carpets, Concrete, Copiers, Counters, Carbon Paper Stains, Desks, Doors, Equipment, Floors, Furniture, Glass, Metal Surfaces, Office Machines, Painted Surfaces, Stainless Steel, Toner Stains, Windows, Work Surfaces.

Vehicles

Agricultural Spray Equipment, Batteries, Bugs from Windshields and Fenders, Chrome, Cigarette Haze on Windows, Coffee Haze on Glass, Convertible Tops, Diesel Fuel Tanks, Driveways, Engines, Exhaust Stacks, Exterior Washing, Haze on Windshields, Headliners, Motors, Oil Stains, Oxidation, Plastics, Sleeper Cabs, Tractors, Truck Steps, Trucks, Upholstery, Vinyl, Wheels, White-Wall Tires, Windows, Windshield Washer Tanks.

Home

Bathrooms, Carpets, Cat Litter Boxes, Ceiling Fans, Chrome, Cigarette Haze, Driveways, Fiberglass, Fireplace Screens, Floors, Glass, Hair Brushes, High Chairs, Laundry, Linoleum, Mildew, Mirrors, Painting Preparation, Pet Stains and Odors, Oil Stains, Plastic, Porcelain, Sinks, Showers, Swimming Pools, Tile, Tools, Upholstery, Urine (neutralizes and deodorizes), Urine Stains, Venetian Blinds, Vinyl, Walls, Windows, Woodwork.

Boats and Ships

Bilges, Chrome, Davits, Decks, Engines, Fiberglass, Fish Lockers, Galleys, Ladders, Lines, Rub Marks, Safety Equipment, Sails, Stainless Steel, Upholstery, Vinyl Seats, Windscreens.

OTHER

Campers, Camping Gear, Chain Saws, Fire Damage, 4WD's, Gravestones, Motorcycles, Planes, Power Equipment, RV's, Smokehouses, Sports Equipment, Wind Generators, and more.

CAUTIONS: Read product label before using. MSDS available. Keep all cleaning materials out of reach of children.

LIMITED WARRANTY: This product will be replaced if defective in manufacture, labeling or packaging for a period of one year following purchase. Because of the variations in materials to be cleaned and application techniques employed, which are beyond the control of the manufacturer or seller, except for such replacement, the sale is without warranty or liability even though damage or loss is caused by negligence or other fault.

Directions

When mixing Titan Green with water, always put the water in the container first. Then add the Titan Green concentrate. The four recommended dilution ratios shown below, and full strength, will cover virtually every cleaning situation.

The ready-to-use cleaning solution can be applied by spraying (trigger spray bottle or garden sprayer), wiping on with a rag or sponge, brushing, or immersing in a soak tank, tray or can. Other methods of application include as a prespray or in a pressure washer. Also in an ultrasonic cleaning tank.

Wait a minute or so before rinsing or wiping to allow a dwell time for the Titan Green to work. Warm surfaces clean easier of grease or oil (Do not heat any liquid or part above 110°F). Other tips are shown below.

LIGHT DUTY MIX 1:63

LD

MIXING INSTRUCTIONS: For one pint of cleaning solution, add 1/4 oz. (1/2 Tablespoonful) Titan Green concentrate to 16 oz. water. For one gallon (128 oz.), add 1 to 2 oz. Titan Green concentrate to 126 oz. water.

Use on hard surfaces as spray and wipe for windows and mirrors (squeegee recommended), stainless steel, formica, chalk and marker board, desks, countertops, automobiles, wet-mop floors etc.

HINTS: For washing cars, pour an ounce or so into a bucket of water. Work in the shade. Hose off the car first working from the bottom up. Work in sections. Wash with Titan Green mixture using a sponge or mitt. Hose off. Squeegee or buff the windows. Great results. For windows and mirrors, first spray on Light Duty Mix. Lightly scrub glass with a cloth, sponge, or stripwasher. Squeegee, or wipe dry with a cloth. Buff the glass with a dry cloth and see how it sparkles! Add a few capfuls to your windshield wiper spray reservoir. Keep a spray bottle of Titan Green Light Duty Mix, an auto squeegee, and a rag in your car; a clean windshield is important for safety. Use also for catching spills on upholstery, gas overflow on paint, dirty hands, etc.

MEDIUM DUTY MIX 1:15

MD

MIXING INSTRUCTIONS: For one pint of cleaning solution, add 1 oz. Titan Green concentrate to 15 oz. water. For one gallon (128 oz.), add 8 oz. Titan Green concentrate to 120 oz. water.

Use for general cleaning as a "spray and wipe" for walls, work counters, carpets, upholstery, car interiors, paint oxidation removal, microwave ovens, venetian blinds, sinks, food stains, industrial work surfaces, airplanes, motorcycles, trucks, fork lifts, spray ants, etc. Gets off red clay dust and dirt no other cleaner will remove.

HINTS: This is your most common mixture. Leave the Medium Duty Mix in place for a few minutes to aid in cleaning. A white or green nylon scrub pad often helps. Add Titan Green to water in a burnt pot, bring to a boil, let soak. Then scrub clean. On carpets and fabrics, let stand a few minutes, then place a clean terry cloth over the stain and tamp with your fist or heel to blot up the stain without spreading it. Rub from the outside of the stain towards the center. Dissolve acid powder from car battery terminals. Spray dishes when hand washing or prespray dishes sitting in dishwasher. Restore grip on tennis rackets and golf clubs. Steam out certain "impossible" carpet stains from the dye in Kool-Aid or in pet foods. Spray Titan Green MD on the dye stain. Cover with a clean white terry cloth. Run a hot iron, polyester setting, over the terry cloth to steam out the stain and capture it. Keep the iron moving and the carpet wet with cleaner to prevent scorching.

MEDIUM-HEAVY DUTY MIX 1:9

MHD

MIXING INSTRUCTIONS: In a bucket, add one part of Titan Green Concentrate to 9 parts of water. About 13 oz. Titan Green to a gallon of water. Or one cup (8 oz.) to 9 cups (2-1/4 qts.) water. One gallon (or quart) of concentrate makes 10 gallons (or quarts) of ready-to-use cleaner. Mix only enough to use at once; discard unused mixed liquid or label clearly if stored briefly.

Use for cleaning decks, awnings, oil-stains from asphalt, driveways, walkways. Rinse with water afterwards. Cleans decks of dirt, soot, grime, food and vegetation stains, restores the appearance.

HINTS: For cleaning decks, mix enough to wet the entire deck surface. Flood the deck, agitate with a stiff bristled push broom. Rinse with a garden hose. Apply to oil stains on asphalt. You can agitate with a broom for better results. Wait a minute or two and rinse with a stream from a garden hose or pressure washer.

HEAVY DUTY MIX 1:3

HD

MIXING INSTRUCTIONS: For one pint of cleaning solution, add 4 oz Titan Green concentrate to 12 oz water. For one gallon, add 32 oz Titan Green (one quart) to 3/4 gallon water (3 quarts).

Use for degreasing car engines, airplanes, motorcycles, on whitewall tires and alloy wheels, grill hoods, concrete and asphalt, light wax stripping, grout, fire and smoke damage. Ideal for laundry presoak. Increase strength to 1:1 or full strength for heavy duty degreasing, wax stripping, ovens, grills, crayon and heel marks. Rinse grills and food surfaces with clear water.

HINTS: Warm ovens are easier to clean. (Be sure oven is turned off first.) Leave the Heavy Duty Mix in place for a few minutes before scrubbing. For wax stripping let stand a few minutes. Keep a spray bottle of Heavy Duty Mix on your washing machine. Spray on collars, cuffs and stains before washing. Brush collars with a nail brush, dish brush or toothbrush.
