cheques, coins and more

CA CUMMINS
ALLISON

WHO WE ARE

Cummins Allison is a global leader in the design, development and manufacture of the world's most innovative, accurate and reliable solutions for:

- note counting and imaging
- coin counting and sorting
- cheque processing and electronic depositing
- casino ticket processing

INDUSTRIES WE SERVE

With a 125-year heritage of leadership in technology and product innovation, Cummins Allison serves every major financial institution worldwide, as well as leading organisations in retail, gaming, law enforcement and government. We are committed to improving your business and welcome customer input at all stages, from concept and design through to sales, service and support. This helps us to provide the very best user-friendly solutions which in turn help your operations work more effectively.

SERVICE YOU CAN COUNT ON

Service is the hallmark of our business. We employ more than 400 skilled local professionals in more than 50 offices across North America and Europe. We respond to calls in eight business hours on average and our branch warehouses and service vehicles are equipped with the parts necessary to complete 95% of repairs on the first visit. World-class service and support combined with a strong local presence ensure Cummins Allison value today and in the years to come.

Whatever your note, coin, cheque or ticket handling needs, Cummins Allison has a fast, accurate, reliable and user-friendly solution for you.

A partner you can trust

97% of our customers recommend us to others

JetScan iFX® i100 and JetScan iFX® i200

The fastest, most accurate cheque, ticket and currency scanners on the market, saving customers time and money and processing items all on a single device.

JetScan iFX® i400

The most compact, flexible and cost-effective multi-pocket solution available, the i400 processes higher cash volumes in vaults with very limited operating space.

JetScan® MPS 4200

Meets high-volume, multi-pocket cash and ticket processing or imaging needs where tighter spaces or budgets limit equipment options.

Money Machine™

Generating revenue, recycling coins and drawing in new customers, Money Machine™ is the fastest, most accurate and most reliable self-service coin counter.

JetSort® Coin Sorters

Sorting up to 10,000 coins or tokens per minute with 99.995% accuracy, JetSort® is the most reliable high-speed sorter for coin-intensive businesses. Available in compact tabletop and high volume models.

Retail Back-Office Solutions

Automate cash-drawer processing and deposit drops; gather data, transfer to accounting software and carry out reporting functions; and connect to host networks.

GENERATIONS OF VISION AND EXCELLENCE

More organisations trust Cummins Allison to provide unmatched speed, precision and efficiency, the most advanced counterfeit detection in the industry, and quality that is second to none - for overall value they can always count on.

Cummins Allison solutions enable you to lower your cost of operations by reducing transaction times and maximising productivity. By setting worldwide standards for accuracy, dependability, ease-of-use and flexibility, we resolve your processing challenges so you can work more effectively.
