dueto

This collection of chair, armchair and bar stool is a design exercise, with visual play between two elements that represent great strength, the “X” and the wood. This visual game on the back of each piece and the infinite combinations between wood stains and fabrics will allow you to create spaces with elegance and character.

bette

The Bette Chair is a sophisticated take on Nordic design and its timeless form. With a sturdy beech wood or ash frame and ingenious curved backrest that stretches into armrests, Bette is appealing on its own as a statement chair or as a set in a contract or home project.

mikado

The Mikado Chair was designed by the Italian design studio Area 44 with the objective of creating a chair collection that would result into a strong iconic design. The sinuous shapes evolve into a soft and enveloping chair, with a great character and distinctiveness, a superb design suitable for contract and home use.

nuzzle

Aitor Garcia de Vicuña designed the Nuzzle collection having in mind the balance between comfort and design. The result is a chair collection that pleases the eye of the user and evokes beauty and style. Nuzzle is the perfect choice for those who desire to bring charm into any contract, home or even office design.
