

## **IOSH Working Safely**

Everyone at work should have an understanding of why they must 'work safely'.

Working safely is a one-day course for people at any level, in any sector, needing a grounding in health and safety. It focuses on why health and safety is important, and on best practice rather than legislation.

The course is a 100% match to the Health and Safety Executive's 'Passport' syllabus.

Working safely is recognised as an equivalent to a Level 1 award in health and safety in a construction environment.

### **Course overview**

Introducing working safely

Defining hazard and risk

Identifying common hazards

Improving safety performance

Protecting our environment

### **Assessment:**

Candidates complete 3 hazard spotting exercises and a short multiple choice question paper.
