Product designed by Sottsass Associati

THE EPITOME OF LUXURY

Innovative, eco-friendly technologies and high-tech manufacturing methods allow our designers to set new state of the art standards. In the world's biggest enamelling furnaces, Kaldewei produces a special enamel that is so exquisite and long-lasting that is guaranteed to remain durable for at least 30 years.

The secret to true craftsmanship lies in the art of paying attention to the smallest of details. With this meticulous love of detail we have become a global bathroom pioneer and contemporary style icon. We hope you share this passion and feel our dedication while looking through this catalogue.

■■■ **ADVANTAGE**

Classic designs made of Kaldewei steel enamel 3.5 mm with a 30-year guarantee

PIONEERS

PIONEERS MADE IN GERMANY

The basis for any success is product excellence. Kaldewei has continually created product milestones and revolutionized the market. In 1934 we introduced the first freestanding bath in Germany. In 1957 the first “seamless” baths made from a single sheet of steel were launched. With this technology Kaldewei became the market leader in Germany. Previous to this cast iron had been dominant. In 1989 Kaldewei introduced TURBO WHIRL, the first “pipe-free” Whirlsystem. In 2009 CONOFLAT celebrated a premiere as the world’s first absolutely floor-level shower tray with an enamelled waste cover. The company was named “Brand of the Century” in Germany in 2010, honouring almost a century of pioneering achievements.

STYLE ICONS

CREATIVITY AND STYLE

Kaldewei bathtubs and shower trays are meticulously crafted with steel enamel 3.5 mm. They are masterpieces of bathroom design: extravagant, exquisite and elegant. Designed as prestige items they can transform every bathroom into a shrine of aesthetic sensuousness. Today, Kaldewei is one of the world's most prestigious bath manufacturers – with approximately 60 awards to prove it. The products, created with internationally renowned designers including Sottsass Associati, Milan, and Phoenix Design of Stuttgart and Tokyo since 1975, range from traditional bathtubs to avant-garde floor-level shower trays and are acknowledged by experts throughout the world as contemporary works of modern bath culture.

iF design award China, awarded by the Industrie Forum Hannover. Gute Gestaltung, awarded by the "Deutscher Designer club e.V. (DDC)". Good Design, awarded by The Chicago Athenaeum, Museum for Architecture and Design. The International Design Prize, Baden-Württemberg, IF Product Design Award, awarded by the Industrie Forum Hannover. "universal" design award. "reddot" award for high design quality, awarded by the Design Zentrum North-Rhine Westfalia, Essen. Nominated for the Design Prize conferred by the Federal Republic of Germany. DP3D - The German prize for 3 dimensionality. Interior Innovation Award, awarded by Rat für Formgebung. Design Plus Sanitär Heizung Klima, awarded by Messe Frankfurt GmbH.

KALDEWEI STEEL ENAMEL 3.5 MM

Putting so much effort and pioneering spirit into our designs, we are certainly not going to cut corners in our choice of materials. Kaldewei works exclusively with premium steel enamel 3.5 mm, manufactured in our own enamelling ovens in Germany.

Discover the highest quality standards and inherent characteristics of Kaldewei steel enamel 3.5 mm – made in Germany. It is a surface that guarantees many distinct advantages.

HYGIENIC

Bacteria don't have a chance to settle on the smooth, glass-hard surface.

ACID AND CHEMICAL RESISTANT

The surface is resistant to nail varnish, perfumes and hair tinting lotions.

IMPACT RESISTANT

The 3.5 mm thickness of the material is unbeatably resistant to knocks.

STEEL ENAMEL

HEAT RESISTANT

Burning and glowing objects like cigarettes or candles do not leave marks on the surface.

COLOURFAST AND LIGHTFAST

Enamel is resistant to UV light and does not fade, even after 30 years' of usage.

ABRASION PROOF

If metal rubs on enamel, the metal rubs off; the enamel is unaffected.

ECOLOGICAL SUSTAINABILITY – THE CONCEPT OF THE FUTURE

Kaldewei has followed the path of ecological sustainability for over 90 years. Systematic implementation of this material philosophy means that all bathtubs and shower trays made of Kaldewei steel enamel 3.5 mm can be completely recycled at the end of their lifetime. Thanks to the eco-friendly processes used in manufacture, packaging, transportation and disposal, Kaldewei is the first German bathroom fitter to be certified as sustainable in accordance with ISO 14025 by the German Institute of Building and the Environment.

Institut Bauen
und Umwelt e.V.

Kaldewei steel enamel 3.5 mm is certified for sustainable and ecofriendly building in accordance with ISO 14025.

SUSTAINABILITY

GUARANTEE

30-YEAR GUARANTEE

Kaldewei has always understood how to create products with lasting value – through its spirit of permanent innovation and through the use of long-lasting, durable enamel. Kaldewei steel enamel 3.5 mm guarantees the stability, solidity and durability of all bathtubs and shower trays. Extensive tests have shown that the thickness of the enamel layers and their composition guarantee highest impact resistance. In everyday use, this means that there is no need to worry if something falls into the bath. Even playing and splashing children can bathe without a care. Guaranteed for 30 years.

ASYMMETRIC DUO

The ASYMMETRIC DUO is the bath with a multi-functional comfort zone. The extended rim surface is not only a masterpiece of bathroom design it also has many aesthetic advantages. You can use the rim to sit or lean on. It also provides space for bath accessories and it is ideal for the individual placement of fixtures. The clear and precise contours of the outer bath provide an attractive contrast to the ergonomic and flowing shape of the bath within. The integrated waste with enamelled waste cover on the bottom surface of the bath is a further geometric highlight.

BASSINO with moulded panel.
(Model-Nr. 144 -7)

BASSINO

Enjoy a totally new bathing experience with the BASSINO shower pool. With its spacious 2 x 1 m interior, BASSINO invites bathers to float weightlessly in the water. For an optimal floating effect, it comes with a cushion to be placed under the neck, supporting the head. Floating encourages quiet, even breathing and loosens up the muscles. A trance-like state of tranquillity is achieved, with an unparalleled deep relaxation effect. With its ample proportions, BASSINO offers also great freedom of movement when showering. BASSINO can be installed freestanding, panelled at a wall, or in a corner.

CENTRO DUO OVAL

Pure and elegant. The basic oval shape, the extra depth of 47 cm as well as identical backrests and centrally placed waste, make it the ideal bath for bathing together.

CENTRO DUO 2

The CENTRO DUO 2 with two rounded corners looks elegant on any wall.

CENTRO DUO 1 right and left

The CENTRO DUO 1 has a rounded corner at either the right or left for a variety of installation options, for example as a corner bath.

CENTRO DUO

The CENTRO DUO is the classically elegant rectangular version.

CENTRO DUO 6

The CENTRO DUO 6 captivates with its successful interplay between oval inner form and hexagonal outline.

CONODUO

CONODUO unites independent design and excellent bathing comfort with a sense of peace and clarity. Architectonic and geometric elements merge to create a distinctive form. Other special features include the concealed waste with enamelled waste cover and an enamelled knob for outflow control.

DUO POOL

Deep inside, curvy outside. At 50.5 cm depth, the DUO POOL is a bath for true indulgence. The pool's balanced dimensions offer optimum volume and freedom of movement. Thanks to its unusually compact length and generous width, the DUO POOL's spaciousness can be yours in virtually any size of bathroom.

ELLIPSO DUO OVAL

The soft, elliptical inner contour of ELLIPSO DUO OVAL offers a new sense of comfort. The rounded shoulder section and calibrated side walls create a generous space so that you can lean back and relax, either alone or with a partner.

for ELLIPSO DUO OVAL
with moulded panel

ELLIPSO DUO

The ellipse is geometrical, while the edges show a refined and eloquent finish. The voluminous appearance is the perfect symbiosis between luxury and design and the ideal bath to relax alone or with a partner.

KUSATSU POOL

With the KUSATSU POOL, based on Japanese bathing culture, revitalising energy comes from the deep. Thanks to its unusual depth of 81 cm, you can submerge your entire upper body under the water in this luxurious pool.

DESIGN PLUS

MEGA DUO OVAL

With two identically formed backrests, a central waste and broad armrests on both sides, the MEGA DUO OVAL offers the ultimate in bathing comfort for two. It is also available with an optional one-piece moulded panel.

for MEGA DUO OVAL with moulded panel

MEGA DUO

The MEGA DUO is too good not to share. Thanks to its classic rectangular form and generous volume, bathing together is always a pleasure.

MEGA DUO 6

For those who are looking for a corner solution but don't want to do without the striking design offered by this model range, we've developed the hexagonal MEGA DUO 6.

PUNTA DUO 3

As a creative corner solution, the PUNTA DUO 3 offers a generous interior equipped with an armrest that doubles as a seat, as well as a shelf placed on the side to allow for versatile bathing positions.

STUDIO STAR right and left

The STUDIO/STUDIO STAR brings atmosphere to the bathroom. This stylish bath is all about comfort and design. Inside, a generously proportioned backrest area and integrated armrests. Outside, a harmonious asymmetrical shape. Available in both right and left-handed models and with panel.

TWIN POOL

The compact outer dimensions of TWIN POOL and its six corners offer plenty of installation options. But don't let the small exterior fool you: inside, this bath is very spacious.

DYNA STAR

The basic form of the DYNA/DYNA STAR with its broad backrest gives you plenty of space for relaxed bathing, while the tapered shape means lower water consumption.

DYNA DUO

In the DYNA DUO two comfortable sloping backrests and a central waste create a bath to be shared. The high position of the overflow allows for higher water levels, letting you really immerse yourself in the water.

DYNA SET STAR

The DYNA SET/DYNA SET STAR is a bath that's ideal for both bathing and showering. A broad, level standing area for plenty of freedom of movement belies the compact outer dimensions of this bath.

NOVOLA DUO OVAL STAR

The NOVOLA DUO OVAL/NOVOLA DUO OVAL STAR is destined to become an eye-catcher in any bathroom with its oval exterior form.

NOVOLA STAR

The generous scalloped inner contours of the NOVOLA/NOVOLA STAR offer the option of several different sitting and reclining positions.

NOVOLA DUO STAR

Thanks to the two sloping backrests and central waste, the NOVOLA DUO/NOVOLA DUO STAR is a comfortable place to relax with a partner.

NOVOLA SET STAR

The one-person NOVOLA SET/NOVOLA SET STAR is a master of diversity: it's not only a comfortable bath where you can recline, it also has a level floor for secure footing and freedom of movement when showering.

NOVOLA DUO 6 STAR

This bath is just made to pamper you from head to toe. The hexagonal external contours of the NOVOLA DUO 6/NOVOLA DUO 6 STAR allow for installation in a variety of positions.

PURO

Reducing all elements to their essence is a guiding principle of modern architecture and interior design. The same applies to the PURO. It has a generous interior length for ultimate bathing comfort.

PURO with side overflow

This PURO has a generous interior length with the overflow positioned at the side. There is nothing to get in the way of a comfortable bath.

RONDO STAR

The gentle interior curves of the RONDO/RONDO STAR offer plenty of space for a bather to rest against. And the broad armrests ensure additional comfort.

RONDO 6 STAR

The hexagonal RONDO 6/RONDO 6 STAR offers added flexibility to fit all mounting solutions.

RONDO 8 STAR

The cleverly orchestrated inner curves of the RONDO 8/RONDO 8 STAR create space for the ultimate in relaxed reclining. And thanks to its octagonal outer form, this bath can be integrated into virtually any bathroom floor plan.

MINI STAR right and left

With its special shape, the MINI/MINI STAR offers a spacious bath even in the smallest bathroom. This one-person bath with side waste is available as either a right or left-handed model.

SANIFORM PLUS

The one-person SANIFORM baths with the waste positioned at the foot end, look good in any bathroom. The broad back area and the ergonomic form mean you can bathe in perfect comfort.

SANIFORM PLUS STAR

Just like the SANIFORM PLUS, the SANIFORM PLUS STAR lets you recline in perfect comfort, while the handles provide added safety.

SANIFORM MEDIUM STAR

The low 31.5 cm height of the SANIFORM MEDIUM not only significantly reduces water consumption, the low edge also makes getting in and out especially easy.

SANIFORM V1-4 STAR, VARIANTE V3

To ideally use the space of a smaller room, the models V1-V4 are cut on one edge. Which one, you can decide on your own – the model is available in four versions.

SANILUX STAR

The elegant SANILUX is a rectangular bath marked by a clear flow of line. The softly curving, fluid inner form gives this one-person bath its character.

DUSCHPLAN XXL

To free your head, you first need more freedom of movement for your body. Of course, that also goes for showering with a partner. Thanks to its exceptional length and width, the DUSCHPLAN XXL offers more than enough room to fulfil a variety of needs.

FONTANA

The FONTANA not only fits perfectly in any corner, its semicircular outer contour also saves space while providing a lovely design highlight. A generous standing area offers great freedom of movement when showering. The FONTANA is also available with apron.

SANIDUSCH, depth 14 cm

With their modern, clean lines, the SANIDUSCH shower trays are bathroom classics. The SANIDUSCH is not only available in two different depths, but also in variable widths and lengths in either rectangular or square shapes.

SANIDUSCH, depth 25 cm

This SANIDUSCH combines the classic design of a SANIDUSCH and is 25 cm deep with the side overflow positioned at the corner. Available in either rectangular or square shape.

SENSUAL PLEASURE HAS MANY SOURCES

VIVO TURBO AND VIVO TURBO PLUS

In today's fast-moving world, a relaxing whirlpool bath is a moment of inner harmony. You can forget your worries and experience the pure pleasure of water with all your senses. The whirl intensity in the VIVO TURBO ranges from a gentle stimulation of the sensory hairs to a powerful, large-surface massage of the skin, subcutaneous tissue and muscles. The special feature of the VIVO TURBO is the addition of air, which could be integrated into the system while maintaining its outstanding hygienic standards. Individually adjustable whirl programs round out this complete whirlpool experience.

VIVO VITA

One of the best counterbalances to the stress of everyday life is weightless floating in your whirl bath. In the VIVO VITA whirl system, a pleasant sparkling air stream flows through the water. Pre-warmed air rises from the base in tiny air bubbles. At the same time, numerous bubbles stimulate the nerve endings in the skin, which feels like a pleasant full-body massage. This soft massage has a relaxing and soothing effect on your mind. In addition, the cleaning effect of the tiny air bubbles is significantly higher than that of a conventional bathtub. Whirl intensity can be smoothly adjusted using the bath keyboard, from the soft stroke effect to a lasting effect of stimulating vibration and shaking massage.

Side jet in VIVO TURBO and VIVO TURBO PLUS

Side jet with air mixture in VIVO AQUA ECO, VIVO AQUA and VIVO VARIO ECO

Rotating side jet with air mixture in VIVO VARIO PLUS

VIVO AQUA ECO AND VIVO AQUA

The VIVO AQUA ECO is a perfect introduction into the Kaldewei whirl world. In this whirl system, water massage jets are targeted directly at your body through four or six nozzles (depending on bath design). Air can be optionally added to massage jet after the Venturi principle for a pleasant, massaging pressure on your skin and base layer. The intensity of the addition of air can be smoothly adjusted by the turn knob. In the Vivo Aqua whirl system, water massage jets are targeted directly at your body through six or eight nozzles (depending on bath design). Air can be optionally added to massage jet after the Venturi principle for a pleasant, massaging pressure on your skin and base layer. Massage effect can be smoothly increased by the turn knob for a soft vibratory massage with relaxing depth effect.

VIVO VARIO ECO AND VIVO VARIO PLUS

A whirl bath with the VIVO VARIO ECO whirl system ideally combining the effects of water and air provides the best conditions for relaxation after stress and sports activities. A pleasant sparkling flow of air rises upward in tiny bubbles from the base jets. At the same time, numerous bubbles stimulate your skin, which feels like a pleasant full-body massage. These soft strokes have a relaxing and soothing effect on your mind. At the same time, the water massage jet from pairs of jets in the sides is targeted directly at your skin to relax your muscles and to stimulate the circulation. The VIVO VARIO PLUS whirl system ideally combines the positive actions of air and water. All functions are controlled through a comfortable touch display. The desired effect is reached thanks to 22 to 24 jets, depending on bath design. While the base jets create a sparkling bubbling effect known as the Kaldewei champagne effect, the rotating side jets provide a pleasant massage for the skin and muscles. Eight rotating side jets intensify massage effect even more reaching every part of the body. Additional jets, integrated in the foot reflex and lumbar zones, provide a relaxing full-body massage.

EXTRA SENSORY COLOURS

COLOUR VARIETY AND DESIGN FREEDOM

With a wide range of colours available for baths, shower trays and whirl baths, Kaldewei offers a huge variety of possibilities for designing a very personal bathroom. Not only is the broad selection impressive, there are also multiple combination options. For example, the Coordinated Colours available for floor-level shower trays were especially chosen to match the latest styles in tile colours

ELLIPSO DUO OVAL white with free standing moulded panel. (Model No. 232-7)

ELLIPSO DUO OVAL black with free standing moulded panel. (Model No. 232-7)

SENSUAL COLOURS – COORDINATED COLOURS COLLECTION

This collection of matt colours highlights the particular features of our shower trays in an extraordinarily aesthetic way and sets new standards in sensuousness and quality. The colours of the floor-level shower trays in our Coordinated Colours Collection follow the latest trends in tiling and perfectly match the colours of tiles available in the shops.

The colours shown here match the colours of sanitary ware available on the market. The colours shown here serve only as an indication as the actual colours may be different on account of processes that take place during the printing process.

COLOURS FOR BATHS AND SHOWER TRAYS

The colours shown here correspond to those of the bathroom fittings currently available on the market. Actual product colours may differ slightly from those illustrated due to the printing process.

DECORATION

CREATIVE INSPIRATION

Design enthusiasts looking for individual creative results, will value the decorative lily, developed by the Phoenix Design Studio, Stuttgart/Tokyo. Whether it's combined with a wooden or stone floor, with natural stone or simple tile walls, this elegant, understated decoration brings a whisper of exoticism to the bathroom. An unforgettable design element for all CONOFLAT, LADOPLAN, SUPERPLAN and SUPERPLAN XXL shower trays and now for various Kaldewei bath models. The decoration is available both on white and black enamel. And to experience the sheen of pure gold in the bath, the super-flat CONOFLAT (100 x 100 cm) can be supplied on request decorated in 24-carat gold. Making CONOFLAT an entirely individual design object.

The discreet lily pattern brings a hint of the exotic to every bathroom.

With the exclusive decoration in 24-carat gold, CONOFLAT becomes an individual design object.

Add a little something extra to your private spa area with the "lily" decoration.

30-YEAR GUARANTEE

With the optional easy-clean finish from Kaldewei, water simply runs off the bathtub or shower tray, taking almost all dirt and lime particles with it. Even dried-on watermarks and lime residue can be removed easily. And because stringent cleaners are not needed – just a soft, damp cloth, the easy-clean finish has a positive effect on the environment, too. The easy-clean finish is a surface finish that is permanently burnt onto the Kaldewei steel enamel 3.5 mm. It ensures unparalleled durability and long life. Even when the surface is wiped 1-2 times a day, the anti-stick properties remain unchanged 30 years later. The easy-clean finish is available for all Kaldewei baths and shower trays and comes as standard with whirlpool baths.

EASY-CLEAN FINISH

THE MULTIFUNCTIONAL CUSHION

What could be nicer after an exhausting day than to lie back, switch off and simply let all your cares drift away? With Kaldewei's multifunctional cushion, this relaxing pleasure becomes reality. The cushions can be used in three ways. Positioned as a footrest or under the thighs, they prevent the body from sliding downwards in larger baths. Positioned as a neck rest they provide a comfortable support for your head and neck. Placed on the sides they act as an armrest.

BATH CUSHION

The Kaldewei bath cushion brings another level of comfort to the bathtub. Its flexibility and soft materials adapt perfectly to any shape of neck and bathtub. Its volume can be regulated with an air valve – similar to an air mattress. The skin-friendly fabric cover feels delightfully soft and is machine washable. Generously sized at 50 x 30 cm, this cushion also supports the shoulder area and allows a variety of head positions.

THE MULTIFUNCTIONAL CUSHION

BATH CUSHION

RELAX LOUNGER

The Kaldewei Relax Lounger instantly turns a designer bath into a small wellness oasis. Relaxing on the fine fabric, you'll feel as if you're lying on the deck of an elegant yacht. In addition to its design qualities, the Relax Lounger offers a high level of flexibility. It consists of six elements, two of which are permanently connected to each other making it possible to use the Relax Lounger as three separate boards with varying applications: as a shelf while lying in the bath, or as a mattress to recline on. If the three separate boards rest on the bathtub together, they can be connected to create a large stable slip-resistant surface that sits firmly on the bath. Another connection between the Relax Lounger and bathtub can be made by attaching fastening buttons. In this way, bathtubs already installed can be retrofitted with the Relax Lounger. The bearing capacity of the Relax Lounger is 130 kg and is supplied with a special cushion.

Cushion size: 40 x 23 x 9 cm. Relax Lounger, sizes: 180 x 80 cm, 190 x 90 cm, 200 x 100 cm.

RACK to store the Relax Lounger and cushion.

The Relax Lounger is available in the following colours:

Anthracite

Beige

Carmine

Chocolate

LIGHT

Nothing is more effective for creating an individual atmosphere in the bathroom than light. Used during a relaxing bath, coloured light produces a soothing ambience that enhances our feeling of well being. Light transforms the bathroom into an inviting oasis, with colour impulses stimulating the metabolism and supplying our cells with new energy while body and soul unwind. Different lighting constellations can be chosen to create the desired mood.

THE LIGHTING SET FOR BATHS

The Kaldewei lighting set for baths enhances the bathing experience through mood-making light effects. White light and spectral light spots are available. The set comprises an LED spot, a control unit with power supply cable and a button in the bath for operating the spot.

INDIRECT LIGHTING FOR BATHS

With indirect lighting for baths, Kaldewei offers an exclusive lighting concept for those who demand the best in design. Four indirect light sources are sunk in the side of the bath, flush with the surface, creating a subtle lighting mood that is all the more effective for its restraint. Indirect lighting is available for all CENTRO DUO and CONODUO models, but not for baths with whirl system.

THE COMFORT-LEVEL AND THE COMFORT-LEVEL PLUS

Enjoying a relaxing bath depends not only on how comfortably you can recline, but also how deeply you can submerge your body in the water. With the new COMFORT-LEVEL and COMFORT-LEVEL PLUS with integrated filling function, the water depth can be increased by up to 50 mm while bathing to suit personal preferences. All it takes is one turn of the lever for maximum bathing pleasure.

Regulating the water level.

THE WATERFALL BATH INLET WITH AND WITHOUT OVERFLOW FUNCTION

Something for those who love bathing – the new waterfall spout by Kaldewei offers a completely new kind of bathing experience. The spout, which was designed by Phoenix Design, Stuttgart/Tokyo, is integrated harmoniously in the side of the bath. Activating the water fill automatically opens the screen, and an even waterfall pours into the bath. The waterfall spout with additional overflow function creates a quiet, pleasant atmosphere in the bathroom – with no irritating elements at all on the inside of the bath. The contemporary “click-clack” system is a modern waste concept i.e. the water outflow on the bottom of the bath opens and closes at a gentle touch of the valve ball. A wonderfully elegant solution that meets highest design standards and appeals in form and function. The combination waterfall spout and “click-clack” is unique.

HANDLES

SAFELY IN – SAFELY OUT

If you wish to combine aesthetics with a high level of safety, you can have your bathtub fitted with a Kaldewei Handle. With the many different handle combinations available for your Kaldewei bath, you're sure to find just the right one to fit your specific requirements.

The Kaldewei Pool Handle makes getting in and out of the bath more comfortable and safer than ever before. The high design ensures a firm hold without having to bend down to the edge of the bath.

MORE SAFETY WHEN BATHING OR SHOWERING

Kaldewei's anti-slip enamelling is made of a mixture of quartz and sand, and is burned permanently onto the surface of the Kaldewei steel enamel 3.5 mm. Its textured surface provides additional safety when bathing or showering. The anti-slip coating holds up to years of wear. As an alternative, full anti-slip enamelling over a larger surface area is also available for almost all baths and shower trays. TÜV Rheinland has certified anti-slip and full anti-slip from Kaldewei as slip-resistant in accordance with ratings group B for wet barefoot areas (DIN 51097).

Exclusive design and anti-slip in one are offered by the anti-slip decoration for SUPERPLAN shower trays. The delicate pattern of this ornament adds a new luxury to the bathroom as well as providing additional safety with aesthetic appeal. The anti-slip decoration is available for all SUPERPLAN shower trays up to 120 x 120 cm.

The full anti-slip enamelling from Kaldewei perfectly matches the colours of the Coordinated Colours Collection and is barely visible, but still offers more safety when showering. With this combination of colour and function, Kaldewei is setting new standards in matters of aesthetics and style. This new feature is available for the CONOFLAT, SUPERPLAN, SUPERPLAN PLUS and SUPERPLAN XXL shower trays.
