

SITUATION MONITORING & RESOURCE TRACKING

OMI Environmental Solutions (OMIES) now offers Situation Monitoring and Resource Tracking (SM&RT). Through SM&RT, OMIES provides incident management services including notifications and final reports. OMIES establishes a plan and command post, provides oversight, provides a bridge to regulatory agencies and provides documentation for each operational period, while also working with the customer from beginning to end.

The initial stage of any incident can easily turn into total

chaos. Requesting OMIES to provide SM&RT services allows customers to bypass the chaos stage and begin accurate documentation from the start of an incident. Communication failure costs everyone during an incident, these costs include time, resources and most of all money. SM&RT minimizes communication failures by providing real time documentation, clear personnel assignments, organizing stakeholders and allowing for regulatory inclusion.

SM&RT Saves your Bottom Line!

SITUATION MONITORING

OMIES can provide a wide range of Incident Management Services from notifications to final reports:

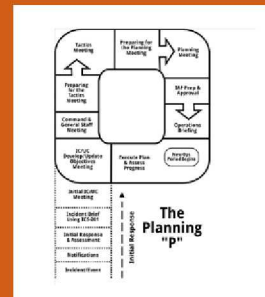

- Incident Command System personnel staffing (Section Chiefs / Branch Directors, etc.)
- Incident Action Plan writing to provide written IAPs for incidents small and large.
- Establish and man a Command Post, provide oversight, liaison with regulatory agencies and provide documentation for each operation period.
- Work with customer from spill notification through decon / demob to manage spill costs.

RESOURCE TRACKING

OMIES can track response resources in near real time with:

- Bar code personnel and equipment for daily scanning.
- Provide equipment location information to Command Post daily.
- Provide logistic solutions for managers and increased personnel accountability.

SMART

The Planning "P"

OMI Environmental Solutions (OMIES), a leader in oil spill response for over 40 years, has a well-respected, experienced team of professionals with the expertise to resolve all of your environmental and industrial service needs. Our integrated oil spill, hazmat, industrial, standby rescue, waste management, disposal, transportation, environmental consulting, and training services, along with our extensive line of environmental & safety products, provide you with a safe, timely, turnkey solution every time.

A reputation in oil spill response... A future in environmental solutions.
