 @StairPartsOnUK

Jackson Woodturners has been established as expert Woodturners for more than 100 years.

We are a family run business and are now in our 4th generation, which provides our customers with a wealth of knowledge, experience and expertise.

Both Jacksons and Stair Parts Online offer the widest range of stair part designs in various timbers and metals in the UK. We are especially proud of the quality of our work, products, and the service that we provide to every one of our customers.

We offer a free planning service, so if it's a simple DIY project or a large scale professional job, we would love to help you choose the best stair parts for your project and within your budget.

Call us today on **0114 2721228** or visit our websites at **www.jacksonwoodturners.co.uk** or **www.stairpartsonline.co.uk**

Spindles

Both our websites have the largest and diverse stair part ranges in the UK.

Here is just the smallest glimpse at some of our own best selling timber stair parts.
The majority of these are available in White Oak, as well as Hemlock, Pine, White Primed, Dark Hardwood, Ash and Walnut.

For our most up to date stock please visit our websites at

Oak

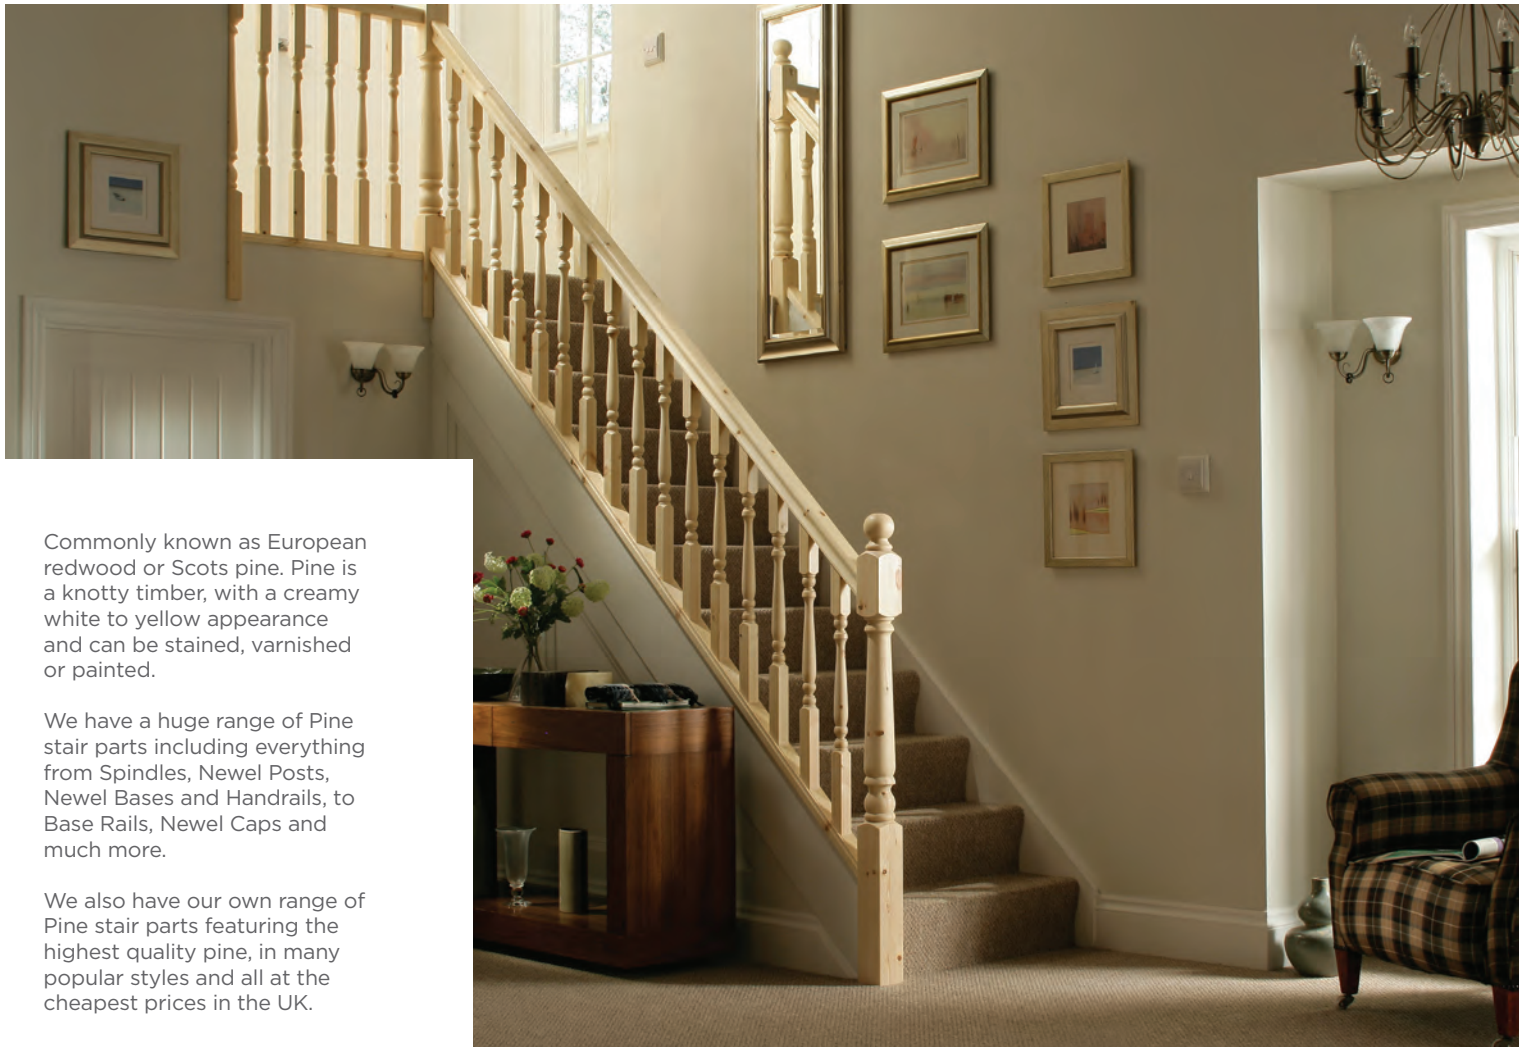

Stair Parts Online are the oak stair part specialists. With our huge range of styles and designs, all at excellent value for money, you can get the look you have always wanted for your home.

Whichever look you are after, from traditional to contemporary, then we have something to suit every taste.

Pine

Commonly known as European redwood or Scots pine. Pine is a knotty timber, with a creamy white to yellow appearance and can be stained, varnished or painted.

We have a huge range of Pine stair parts including everything from Spindles, Newel Posts, Newel Bases and Handrails, to Base Rails, Newel Caps and much more.

We also have our own range of Pine stair parts featuring the highest quality pine, in many popular styles and all at the cheapest prices in the UK.

White Primed

White Primed range is the ideal time saving range. Each component comes pre-primed, ready to be installed and can be easily finished with any solvent based topcoat.

We have many popular styles in stock including contemporary and traditional styles, all ready to deliver to your door or straight to your project site.

Hemlock

A non-resinous North African softwood, Hemlock is a predominantly knot free timber with a straight grain. Due to its uniform density it will take a stain easily with the minimum of colour distortion. Hemlock does not split or break when being worked and being less brittle makes it stronger than many hardwoods. Hemlock is an ideal timber if you wish to use paint.

Discover our massive range of Hemlock stair parts including Spindles, Newel Posts, Newel Bases, Handrails, Base Rails, Caps and much more.

Walnut

Walnut is highly prized for its dark coloured, true heartwood. It is heavy and strong, yet easily split and worked. Walnut wood has historically been used for furniture, flooring and a variety of other wood products.

Discover our great range of Walnut stair parts including Handrails, Newel Posts, Newel Caps, Base Rails and much more.

Box Newels

Create a wow factor in your home, with these elegant and traditional box newels. The beautifully crafted oak newels bring a grandeur to any hallway and when teamed with some reeded spindles, creates a statement staircase, in any household.

The box newels are available in oak, as full or pegged newels.

Heritage

exclusive to

stairpartsonline.co.uk

The Heritage range of Traditional stair parts from Richard Burbidge features the highest quality in White Oak, lovingly crafted to produce a beautiful finish. The range is renowned for its chunkier style in stair parts, that can look great in most properties.

Choose from beautifully designed white oak spindles, newel posts, handrails and baserails in this great range.

Classic

exclusive to

stairpartsonline.co.uk

The Richard Burbidge classic collection of stair parts, is a traditionally styled range, that also shows a little modern refinement.

The range is made from high quality oak timber and is unfinished, allowing you to either stain, paint or varnish to blend in with your own interior decor.

The classic range is ideally suited for both traditional and modern styled buildings.

Hallmark

exclusive to

stairpartsonline.co.uk

The Hallmark range of stair parts by Richard Burbidge is a collection comprised of high quality pine timber.

Whilst not quite been a budget range, Hallmark is very affordable and an ideal choice for traditional and period interiors, that offers value for money.

There is a great choice of traditional turned spindles in the Hallmark range, allowing you to create a traditionally styled staircase, that will suit your period properties character. The sturdy and unique post-to-post handrail design will ensure that your staircase will provide many years of service.

Trademark

exclusive to

stairpartsonline.co.uk

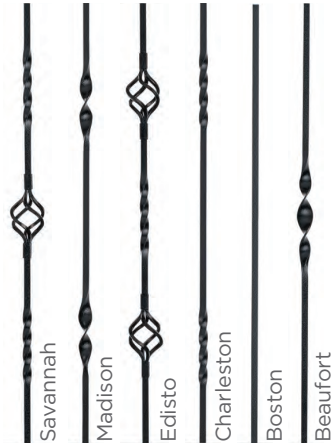

The Trademark range by Richard Burbidge is a highly flexible collection of high quality and affordable stair parts.

The Trademark range has a choice of 41mm or 32mm spindles that are perfectly crafted to make your project come alive

As the range is so flexible, Trademark can offer an economical pine system or for a more impressive finish, an oak balustrade with continuous handrail. Whichever finish you choose, the Trademark range will offer an ideal solution for any situation.

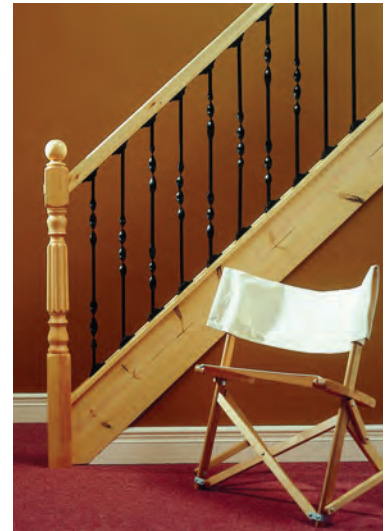

Metal

Metal Balustrades can add texture and charm to any staircase, through a contrast of classic wrought iron spindles teamed up with warm natural timbers.

There is a choice of six spindle styles in a black sand grain finish.

A modern living room with a staircase featuring a contemporary iron railing. The room includes a light-colored armchair, a round side table, a fireplace with a rustic wooden mantel, and a large wooden door. The floor is made of light wood, and the walls are a neutral color. The lighting is warm and ambient, with recessed ceiling lights and natural light from windows.

Contemporary Iron

The Contemporary Iron range, takes the traditional approach with the use of iron, then updates it, with a modern twist.

Classy and stylish, this contemporary range, can be teamed with both traditional or contemporary styled timber, letting the Iron take centre stage.

Elements

The Elements range consists of pre-cut metal balusters in a wide range of shapes and styles, which simply slot into pre-drilled handrails and base rails, saving you time and money on installation.

The decorative balusters come in black and the timber comes in White Oak.

With such a wide range of designs, you can customise your own look, creating a very eye-catching staircase.

Elements with Glass

To create a look that has a modern edge with a hint of tradition, contemporary glass panels are teamed up with sleek brushed nickel fittings, which in turn compliments the clean lines of White Oak Stop Chamfer newel posts.

Elements with Glass is a quick and simple range to install, utilising easy fit brackets. The range even has half width glass panels, that are ideal for short runs on landings.

Axxys Evolution

The Axxys system allows you the flexibility to blend components from across its ranges to create a sleek and stylish look for your home.

Create a modern look with Axxys' clean lines and metallic detailing.

Forge

The Forge range fuses traditional timber with a solid modern set of metal fittings. Forge allows you to mix and match styles to create the look perfect for your home.

The Forge spindles are available in oak and white primed, with either brushed nickel or chrome tube. The handrail fittings can be used with any of our HR profile handrails, both grooved and un-grooved and are available in either brushed nickel or chrome.

Solution

Solution is a contemporary stair parts range combining both metal and wood. The Solution system is easy to fit and could even be completed by a competent DIY enthusiast.

Solution is available in two metal finishes, Chrome and Brushed Nickel, as well as timber option such as Pine, Hemlock and White Oak.

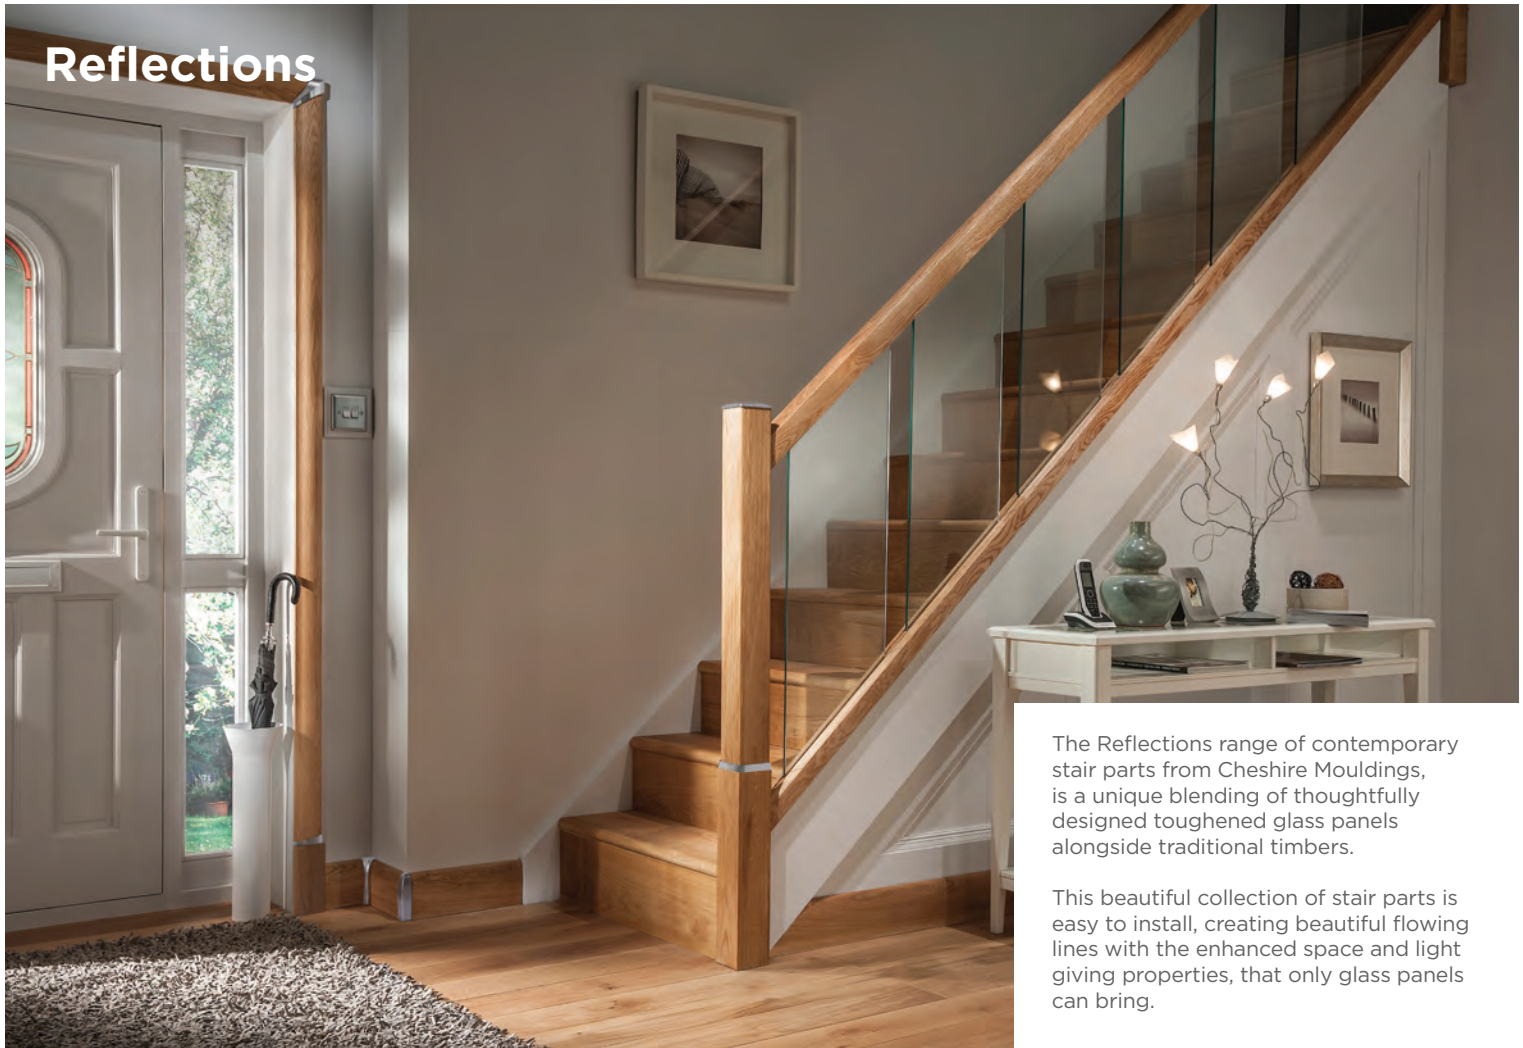

Clarity

exclusive to

EST. 1910
**Jackson
Woodturners**

Clarity is the latest range of contemporary stair parts from Cheshire Mouldings. Clarity combines warm high quality timbers with sleek glass panels, bringing light and airiness to your staircase. The light glass is complimented nicely with the glass panel brackets, which are finished in super contemporary chrome, or brushed nickel, creating a great modern finish.

Reflections

The Reflections range of contemporary stair parts from Cheshire Mouldings, is a unique blending of thoughtfully designed toughened glass panels alongside traditional timbers.

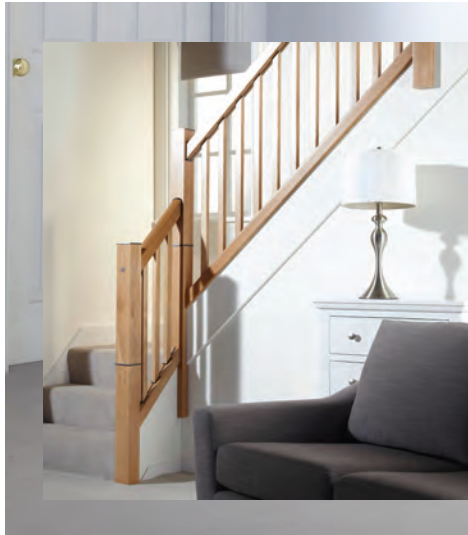

This beautiful collection of stair parts is easy to install, creating beautiful flowing lines with the enhanced space and light giving properties, that only glass panels can bring.

Immix

The Immix range is a mix of high quality timber framework, working seamlessly alongside glass infill panels or timber and metal spindles. The Immix range is finished off with high quality, not to mention stylish gunmetal accessories.

The range is available in white oak and comes with a clear pre-finished lacquer, letting the natural timber take centre stage.

The Immix glass panels are 8mm thick and housed within a simple easy to install channel.

Fusion

Fusion is an easy to install system of stair parts, offering an alternative, stylish and contemporary look to your home.

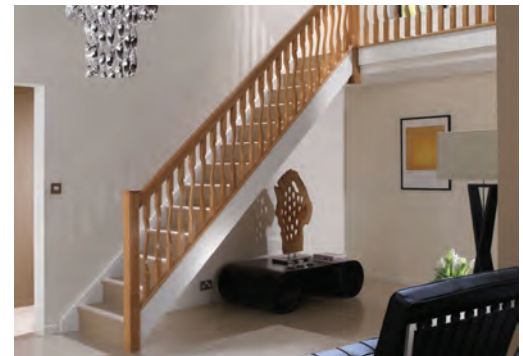

Fusion is available in a choice of two metal finishes, chrome and brushed nickel. It is also available in the following timbers Pine, Dark Hardwood and Oak.

id - Modern Stairparts

exclusive to

id - Modern Stair Parts are an impressively creative and ultra contemporary range of stair parts. You can transform any staircase into a modern work of art with the striking range from Clive Durose.

There are 2 distinct styles to choose from the organically shaped id vu, to the more angular id ez. Styles are available in either Oak or White Primed.

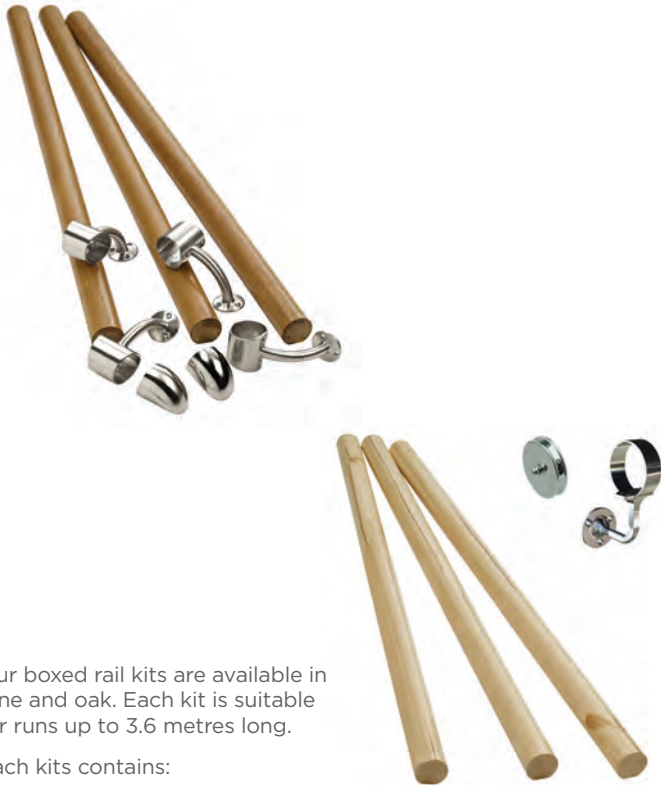

Wall Mounted Handrails

Quick and easy to install, wall mounted handrails are an affordable way to update a tired looking staircase.

You can customise your look to suit any type of decor, with a range of brackets and end caps in a variety of designs, materials and styles.

Boxed Handrail Kits

Our boxed rail kits are available in pine and oak. Each kit is suitable for runs up to 3.6 metres long.

Each kits contains:

3 x 1.2mtr handrail lengths

4 x wall mounted handrail connectors

2 x handrail end caps

Porch Canopies

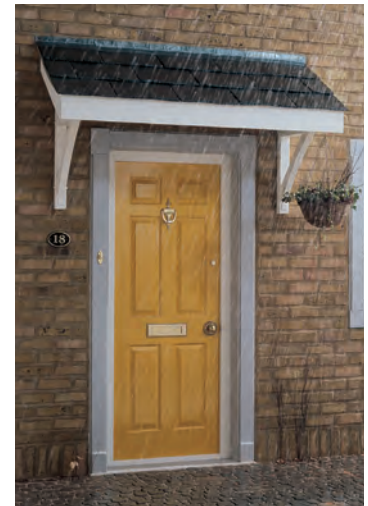

exclusive to

stairpartsonline.co.uk

Ideal for replacing or upgrading your current porch, we have a great range of timber porch canopies, porch sides and finials by Richard Burbidge.

Our porches are easy to install and when combined with matching tiles and paint, will blend into your house seamlessly, whilst actually helping to shield people at your door.
