Selected Impact/ Dissemination Work

- Recent work documented in blog for [SKAPE](#) and this post on my [ongoing work with the European Commission](#)
- Lead author and Steering Group member, European Commission [Enlightenment 2.0 project](#)
- A key part of the ESRC Centre on Constitutional Change project focused on how the Scottish Government and Scottish Parliament can identify and encourage 'best practice' in prevention policy. This involved two presentations to the Scottish Government (2014 and 2015) and an academic-practitioner workshop bringing together the Scottish Parliament's finance committee with civil servants and practitioners in local government, public bodies, and the third sector, to discuss evidence based policymaking.
- I chaired a *Political Quarterly* workshop in October 2014, which brought together academics - presenting draft papers to the special issue *The Scottish Independence Referendum: What are the Implications of a No Vote?* (volume 86, 2, 2015) - with UK and Scotland civil servants and representatives of local government and the third sector.
- Paul Cairney (2015) 'The Smith Commission: will greater powers come with greater democratic accountability?' in Charlie Jeffery and Nicola McEwen [Beyond Smith](#): Contributions to the continuing process of Scottish devolution (Edinburgh: Future of the UK and Scotland, Centre on Constitutional Change)
- Member of Political Studies Association working group on engagement outside the Academy
- I provide regular lectures to Political Studies Association workshops for prospective University students
