

Lock Wall Repair

## Construction & Civil Engineering

Gardiners offer a wide range of services. Working for a large and varied group of clients, in often challenging and potentially hazardous locations, Gardiners is equipped with experience and a skill set that is second to none.

### Construction

Gardiners have relationships with some of our clients going back thirty years, which is a testament to the quality of our work. Our range and flexibility means we can work on everything from minor disabled adaptations right up to foremost CDM projects.

Recent construction examples include:

- Disabled adaptations for Housing Authorities
- School extension
- Toilet, shower and changing rooms
- Footpaths and hard landscaping
- Office and commercial property refurbishments

School Extension

### Civil Engineering

One of our specialist areas is water related contracts - for utility companies and canal related projects including the Environment Agency, Severn Trent Water and Canal and River Trust.

Projects recently undertaken include:

- Construction of sewage pumping stations including M&E works
- New sewer construction and diversions
- Repair & refurbishment of canal banks, locks, tow paths
- Restoration of canal bridges
- Erosion control
- Flood alleviation schemes
