**Chinese New Year's effects felt around the world**

The Associated Press

"...the holiday, which has enormous cultural significance in the Chinese-speaking world, has become more prominent. This is how it ripples around the world:

**[Shipping and] Factory freeze**

Chinese factories shut down for the holiday... with hundreds of millions of migrant workers heading to their hometowns... Workers start setting off as much as two weeks before the holiday on packed trains and buses. After the holiday they may take the same amount of time to return..."

"...Shipping companies warn customers that China's transport and logistics networks are at capacity and their shipments must be at ports two weeks ahead of the holiday to stand a chance of getting on a boat before the country shuts down."
