CabCube

VERSIONS

CabCube 1.0

CabCube 2.0
(with closed pallet deck)

A STRONG INJECTION MOULDED THREE-PIECE PALLET BOX. IDEAL FOR SAFE TRANSPORTATION OF BULK AND LARGE VOLUME PRODUCTS.

Dimensions

External dimensions	1210 x 1010 x 990 mm
Internal dimensions	1140 x 940 x 816 mm
Box volume	875 L
Collapsed pack height	222 mm
Base configuration	9 feet

Load capacity*

	6 high	3 high
Max. filling weight	250 kg	500 kg
Max. stacking load	1450 kg	1200 kg
Max. stacking factor	1 + 5	1 + 2

Thanks to the injection moulding manufacturing process the CabCube provides robustness, precision and longevity. This distinguishes it from other products currently on the market that are normally manufactured by means of a deep-drawing process. It is quick and easy to assemble with a deep recess to house the sleeve. The folded sleeve is simply stored between the pallet base and lid when not in use, keeping all three parts together in one pack, for safe and efficient storage and return journeys. With the CabCube folded down you can fit a remarkable 364 units per standard trailer saving an impressive 80% of the space.

	 CabCube 1.0 Pallet	 Sleeve	 Lid
Weight (kg)	19,5	11,0	8,5
Material	PE	PP	PE
Dimensions L x W x H (mm)	1210 x 1010 x 190/200	1160 x 962 x 850	1185 x 989 x 72
Forklift ground clearance (mm)	100	—	—
Wall thickness of sleeve (mm)	—	10,4	—
Flap opening (optional) (mm)	—	600 x 300	—

*Guideline values are based on experience and tests with evenly distributed loads at room temperature.

- Injection Moulded Base and Lid offering a more consistent and stronger unit.
- The deep recess offers quick sleeve installation with very secure loading.
- Ergonomic handles on the lid enable easy lifting.
- Rain water drainage features so the box can be left in the rain and the inner contents stays dry.
- Curved feet blocks to reduce damage from fork lift trucks.
- CabCube 2.0 has a solid deck to eliminate the use of layer cards.
- Customised sleeve heights and door configuration available.
- 20 kg lighter than a thick sided folding pallet box.
- A far superior pallet compared to a twin sheet design.
- Increased trailer fill when empty.
- More cost effective than a traditional thick sided folding pallet box.
- Millions of units sold already into the German automotive sector.

The foldable sleeve is simply stored between pallet and lid when returning empties. The three-piece CabCube remains together as a closed packaging unit.

The precisely engineered moulded base and lid, have been designed to provide not only precise location for the sleeve, but also positive positioning when stacking box upon box, up to six boxes high.

Truck Loads

CabCubes per Truck	
Storage space	26
Set up containers	78 (3 per stack)
Empty Containers (flat)	364 (14 per stack)
Return rate	1 : 4,7
