INNOVATIVE SOLUTIONS FOR A BETTER FUTURE

Color/Texture: Mahogany, Orange Peel, Trim: Fluted, Door Style: Traditional 2600

**ARIA
PARTITIONS™**

EXPECT MORE...

When you walk into a room designed with Aria Partitions you will understand what has been missing. The days of large sight lines, boring flat doors and panels and large gaps are gone. Designers no longer need to work with antiquated systems seen in restrooms, dressing and changing rooms.

It's time to expect more. Aria Partitions provide extreme privacy, many design choices and innovative features that will significantly upgrade the look of your room and add a whole new level of privacy.

With millions of design combinations, your design experience will be anything but boring.

Privacy

EXPECT MORE... EXPERIENCE

The many advanced features of Aria Partitions will allow you to enhance the overall experience of its patrons with its striking aesthetics. At the most basic level, bathroom partitions provide privacy. Aria Partitions will provide you with innovative designs like overlapping edges, continuous edge mounted hinges and floor mounted side panels resulting in a high privacy design.

Aria Partitions shoeless system gives you enhanced aesthetics, clean lines and ease of maintenance due to fewer cracks and crevices for dirt to collect.

Because the system is made of HDPE, it is impermeable to moisture, low-maintenance and helps to minimize bacteria growth.

PROVIDES ULTIMATE PRIVACY

EXPECT MORE... FEATURES

Limitless Design Options

Aria Partitions offer innovative features making the system easier to install with fewer structural restrictions. The system is floor supported, meaning it does not need to tie into the ceiling for floor to ceiling configurations. This creates tremendous design flexibility and ease of installation.

Other innovative solutions include a shoeless pilaster design which creates a cleaner aesthetic while eliminating a spot notorious for dirt collection. A side mounted hinge design eliminates the hinge sitting on the outside of outswing doors, which is typical in the commercial bathroom stall industry. Lastly, an engraved door and modular side panel configuration allows you to create a one of a kind bathroom.

WHY PERFORMANCE PLASTIC

Commercial bathroom partitions are placed in harsh, high traffic environments that tend to be damp, making the materials susceptible to mold, mildew and rust. It is also common to encounter graffiti and vandalism in these public spaces.

It is important to invest in a worry-free product that will save you time and money.

Solid plastic partitions are built to last, down to every detail. Graffiti can be easily wiped clean with a common non-abrasive cleaner, and since Scranton Products performance plastic is formulated with a solid color throughout, scratches are difficult to see. Compared to other traditional material types, performance plastic has a greater resistance to impacts and dents providing you with a low maintenance restroom that will look great for years.

IMPACT & DENT RESISTANCE TEST RESULTS

Depth of Impact

An impact test conducted following ASTM standards showed that Scranton Products performance plastic has 59 times greater resistance to impact when compared to metal.

Patent Pending

No Painting

Scranton Products partitions are solid color throughout and will never require painting.

Easy Graffiti Removal

Graffiti can be easily wiped clean with a common, non-abrasive cleaner.

Cleaner, Healthier Restrooms

Impermeable to moisture, solid plastic's non-porous surface does not support the growth of mold and mildew and will never rust.

Naturally Germ Resistant

Scranton Products performance plastic partitions are naturally resistant to common bacteria including MRSA. Testing has shown that after 24 hours, 98.4% of MRSA died off the surface of solid plastic without the use of cleaning solutions or antimicrobial additives. What's more, Scranton Products partitions are fully power washable and steam cleanable.

SUPPORTING A **HEALTHIER** ENVIRONMENT

EASY ON THE ENVIRONMENT

As an industry leader in responsible recycling, Scranton Products is committed to reducing industrial waste. Scranton Products reclaims all of its scrap and recycles it into production to create new products and it is also offered in a 100% post consumer product. Incorporating our solid HDPE plastic products can contribute points toward LEED certification.

- MADE FROM RECYCLED MATERIALS
- IMPROVED AIR QUALITY
- NO PAINTING MEANS NO VOC EMISSIONS
- CONTAINS 25-100% POST INDUSTRIAL RECYCLED HDPE
- GREENGUARD GOLD CERTIFIED
- AVAILABLE WITH POST CONSUMER CONTENT
- 100% RECYCLABLE
- RESISTS MOLD, MILDEW & FUNGUS
- FACTORY RESPONSIBLE RECYCLING
