EMISSIONS TUNE-UP SPECIAL

\$750⁰⁰

PROACTIVE SOLUTIONS RESULT IN GREATER UPTIME

Many of the faults and breakdowns we see are completely avoidable. Have one of our certified technicians evaluate your emission system to avoid unplanned events later.

- ✓ We will check your truck's history
- ✓ Check for any pending recalls or product improvements
- ✓ Perform complete code read and evaluate any pending faults
- ✓ Check to ensure you have the latest version of software
- ✓ Replace DEF pump filters
- ✓ Service or Replace the Aftertreatment Fuel Injection nozzle
- ✓ *Drain all air tanks and replace drier cartridge
(Air system maintenance is a crucial part of later emission system maintenance!)
- ✓ Replace air filter
- ✓ Pressure test the intake and exhaust system for leaks
- ✓ Remove DPF temp sensor and inspect the DPF using a bore scope
- ✓ Check DEF Doser swirl chamber for cracks and inspect for crystal build up inside piping if cracks are found
- ✓ Perform a monitored system Regen, recording Delta readings and soot levels

Disclaimer: Special includes inspection, parts & labor. Does not include additional repairs uncovered during inspections, miscellaneous or taxes.

**Twin cartridge air dryer systems incur additional charges.*
