

SDFHS Pedigree Index

The Somerset & Dorset Family History Society holds more than 3,000 Pedigrees which have been donated by members, past and present. These are in various formats, ranging from one sheet of paper to scrolls and books, and the information within them varies greatly. New pedigrees are being added constantly by our volunteers and we will update this online Index regularly to take account of this.

The Index has the following headings:

- **Pedigree number** - this is the number allocated to a Pedigree in our database. Please always quote this number when contacting us to ask for details or to order a copy.
- **Surname** - this is the main name on the Pedigree.
- **2nd Surname** - this is usually the name of the spouse of the 'main surname' but it may also be a commonly-occurring name in the Pedigree. Recording of pedigree data has been done over many years by many different volunteers and this field has not always been completed. Almost all pedigrees will, by definition, contain many more surnames. We are always happy to check for you if other surnames occur in a pedigree.
- **No of pages** - the number of pages in the Pedigree.
- **County** - this is usually Somerset or Dorset or both counties but some Pedigrees also have people in other UK counties, or abroad, and where this has been noted by our volunteers, details are included.

We strongly recommend that before ordering a copy of any Pedigree, especially if it is a large one, you ask our Pedigree Team (contact details below) to check that the pedigree might relate to the family you are researching.
