

EDGE® StorePoint

Empower Omnichannel Fulfillment

EDGE® StorePoint Overview

EDGE StorePoint is a **web-based** solution that enables omnichannel fulfillment by managing **pickup in-store** and **ship-from-store** orders from an easy-to-use online user interface. It compliments traditional Point of Sale (POS) systems and helps **retailers** undergo an **omnichannel** transformation that creates a customer-centric experience across **multiple sales channels**.

With StorePoint, retailers can **expand product availability** to shoppers, by presenting all available inventory from every store location. Orders are then **fulfilled from a store location** – either the customer’s preferred pick-up location or if shipped, a store location that will deliver the product quickest, at the lowest cost.

How it Works?

StorePoint is an **extension of the EDGE eCommerce Order Management platform**. Based on inventory availability, orders are routed to a specific store location selected by the customer for store pick up or sourced to the optimal location for store fulfillment based on configurable business rules.

Store associates can then **login to view** available inventory and manage those orders allocated to their store. Product images and details are conveniently displayed to help store associates quickly pick product for in-store pickup or pick, pack and ship items for customer delivery. With StorePoint it’s simple to **generate invoices, create shipping labels, packing slips**, and sending **electronic shipping confirmations**. EDGE StorePoint also functions as endless isle, where **store associates** can view, route and **collaborate** online order fulfillment.

EDGE StorePoint Home Page

Fulfillment dashboard overview

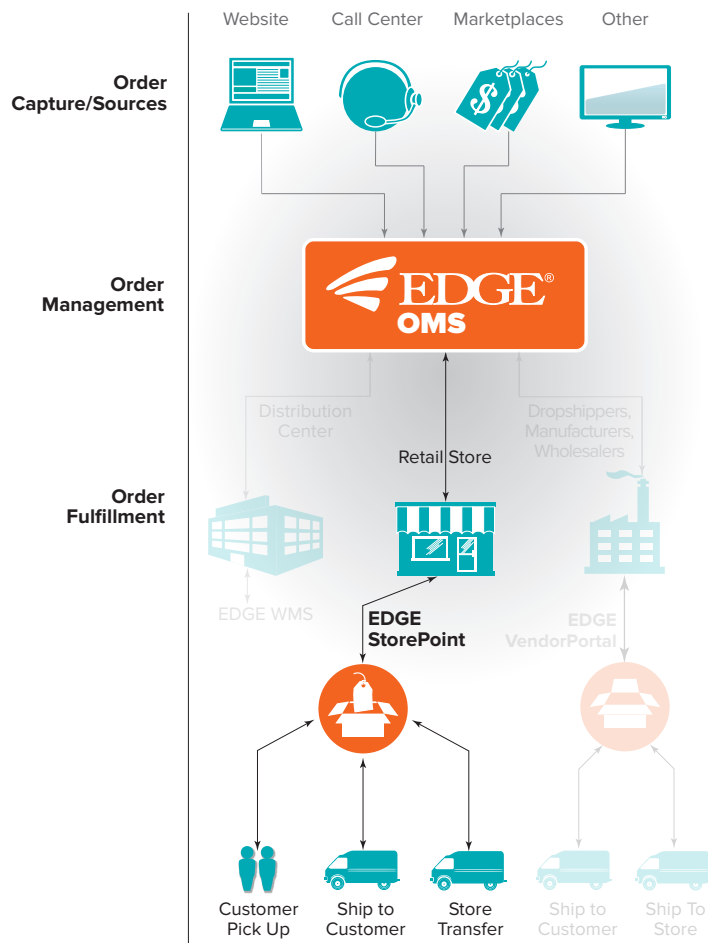

The screenshot shows the 'HOME' dashboard with a navigation sidebar on the left containing: HOME, SHIPMENTS, PRODUCTS, CUSTOMERS, INVENTORY, REPORTS, and HELP. The main content area is titled 'HOME' and features two primary sections: 'SHIP' and 'PICK UP'. The 'SHIP' section includes a donut chart and a list of counts: 171 READY, 10 PICKING, 0 PICKED, and 43 SHIPPING. The 'PICK UP' section includes a donut chart and a list of counts: 0 READY, 0 PICKING, and 2 PICKED. Below these are two tables: 'STATUS' and 'SHIPMENTS (SHIP, SHIPPING)'. The 'STATUS' table has columns for status and count: READY (171), PICKING (10), PICKED (0), and SHIPPING (43). The 'SHIPMENTS' table has columns: SHIPMENT, ORDER, ORDER, DATE, ASSIGNEE, and ACTIONS. A footer note reads: ©1996 - 2015 Jagged Peak®, Inc. All Rights Reserved.

EDGE StorePoint Shipments

Manage customer shipments

The screenshot shows the 'SHIPMENTS' management page. It features a sidebar with navigation options: HOME, SHIPMENTS, PRODUCTS, CUSTOMERS, INVENTORY, REPORTS, and HELP. The main content area is titled 'SHIPMENTS' and contains a form with fields for: STATUS (dropdown), PROJECT (dropdown), ORDER #, EXTERNAL ORDER RES., FULFILLMENT TYPE (dropdown), FROM (date field), TO (date field), and CUSTOMER. Below the form are buttons for 'PRINT PACKAGE', 'CANCEL SHIPMENTS', 'CLEAR', and 'SEARCH'. At the bottom, there is a table header for 'SHIPMENTS' with columns: PRODUCT, EXTERNAL, SHIPMENT, DATE, STATUS, CUSTOMER, READY, SHIPPED, FULFILLMENT, and ACTIONS. A footer note reads: No records to view.

Retail eCommerce EcoSystem

Features & Benefits

- Easily integrates to legacy Point of Sale (POS) Systems
- Fulfills online orders with in-store inventory
- Expands inventory and product assortment available to shoppers
- Automatically imports sales orders from order management system (OMS)
- Displays product information and images for quick pick and packing
- Provides visibility with real-time dashboards and reporting
- Provides ability to search on-hand store inventory and adjust on-hand inventory
- Easily generates shipping labels, invoices and packing slips
- Sends auto-notifications to customers when items are ready for pick up or have shipped
- Sends electronic shipments manifests to UPS, FedEx carrier of your choice and transmits order tracking information back to the OMS
- Quick implementations in 60 days or less
