

# Audio Visual

## HIGH DEFINITION - HIGH QUALITY

When it comes to Audio Visual Systems you don't have to accept anything less than the best.

### PROJECTION AND PRESENTATION SYSTEMS

Providing UHD/HD front & rear projection projectors, Interactive Panels or Large Format Displays, our AV team has the knowledge and experience to deliver state-of-the-art solutions.

### AUDIO AND CONFERENCE SYSTEMS

Wireless conference and microphone, audio amplifier and speaker solutions for school and village halls, community centres, hotels and large conference facilities.

### DIGITAL SIGNAGE

A range of Digital Signage solutions for education, hospitality, retail, health and corporate advertising and information broadcasting.

### HOME ENTERTAINMENT SYSTEMS

High quality surround sound and multi-room wired and wireless home entertainment systems to give you that true "in cinema" experience.

## Welcome to NETbuilder Audio Visual

The design and installation of state-of-the-art Audio Visual systems is at the very heart of what NETbuilder Education is all about. We have installed single UHD projector systems, complex audio conferencing, multi-screen systems, Virtual Reality training systems, interactive panels, stage lighting and much more into schools, boardrooms, offices, hotels and private homes.

Every system, no matter how small or large, is installed with care and attention ensuring the customer is more than satisfied. We also offer Service Level Agreements that can be tailored to your budget or requirements and also flexible payment terms.
