

CRISTIANO GIAVEDONI
Director of BLUMANO

Cristiano has three decades of experience as senior product and business development manager for structures, stage machinery and control system manufacturers.

He's a well-known risk analysis expert and fundamental contributor of the current industry-wide stage machinery assessment methods. Over the years, Cristiano has provided training to the some of largest stage machinery manufacturers and system integrators in the market.

He's member of the British Standard Institute, BSI, he has been part of CEN CWA 25 and he's currently member of BSI TC MHE/3/13 and CEN/TC 433.
