

The UK's Leading Contracting Service

Environmentally friendly solutions for preparing, cleaning & finishing

Cost-effective solutions whatever your project needs

As specialists in surface preparation, removal, re-texturing, polishing and cleaning almost any type of surface, we can provide a cost-effective solution for your project.

We have the largest, most innovative range of equipment in the UK. Our fleet of over 150 Grinders, Shotblasters, Planers & Multi-strippers is at your disposal no matter the size of your project, from a single day's work all the way up to 50,000m².

Our professional teams are NVQ qualified & asbestos category B trained and offer a wealth of industry expertise, giving you a team you can rely on.

Providing expert guidance

Working with PPC couldn't be easier. It all starts with a no obligation site survey, which enables us to provide costings accompanied by technical and health & safety documentation to support the recommended process.

Working safely and efficiently, we project manage and supervise works on site at all times, giving you peace of mind.

Millions of square metres, professionally prepared

We are extremely proud of our history of preparing, removing and finishing millions of square metres of surfaces across a wide range of sectors including; industrial, commercial, construction, highways, retail, leisure, healthcare, pharmaceutical, offshore & MOD.

Our machines and expertise can be applied to almost any surface, such as:

- Floors
- Roads
- Steel platforms
- Car parks
- Ship decks
- Runways
- Storage tanks
