Part X, Line 2

The Foundation is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code ("IRC") and California franchise and/or income taxes under Section 23701(d) of the Revenue and Taxation Code. On April 28, 2011 the IRS determined that the Energy Foundation has terminated its private foundation status and has become a tax-exempt public charity.

The Foundation follows the guidance on accounting for uncertainty in income taxes issued by Financial Accounting Standards Board ("FASB") ASC Topic 740. As of December 31, 2015, management evaluated the Foundation's tax positions and concluded that the Foundation had maintained its tax-exempt status and had taken no uncertain tax positions that required adjustment to the financial statements.

Also complete this part to provide any additional information (see instructions).

Though the IRS has recognized the Energy Foundation as a Public Charity, the Foundation continues to monitor all non-public charity grants via the private foundation mechanism of Expenditure Responsibility as a best practice. For every non-public charity grantee, and over the duration of the grant, the project is monitored via an interim report and final report of activity and expenditures which are required, EF program staff reviewed, and must be approved before releasing accompanying payments.

Program staff who have reviewed and approved as reasonable proposed budget expenditures must also approve reported expenditures as reasonable before payments are released by grants and finance staff. In the case of final payments, a grantee must show the grant award expended in total, program staff must approve as reasonable, and the final payment is released as reimbursement. The final payments are usually 8 % to 10 % of the total award. This assures final accounting of all grant dollars. The number of payments are determined by responsiveness and prior history between the Foundation and the grantee.

Part IV Supplemental Information. Provide the information required in Part I, line 2, Part III, column (b), and any other additional information.

Though the IRS has recognized the Energy Foundation as a Public Charity, the Foundation continues to monitor all non-public charity grants via the private foundation mechanism of Expenditure Responsibility as a best practice. For every non-public charity grantee, and over the duration of the grant, the project is monitored via an interim report and final report of activity and expenditures which are required, EF program staff reviewed, and must be approved before releasing accompanying payments. Program staff, who have reviewed and approved as reasonable proposed budget expenditures must also approve reported expenditures as reasonable before payments are released by grants and finance staff. In the case of final payments, a grantee must show the grant award expended in total, program staff must approve as reasonable, and the final payment is released as reimbursement. The final payments are usually 8 % to 10 % of the total award. This assures final accounting of all grant dollars. The number of payments are determined by responsiveness and prior history between the Foundation and the grantee.

Part III Question 4 d

Other program expenses are mainly direct charitable activities that the Foundation refers to as "foundation-initiated projects". The Foundation may pursue foundation-initiated projects when it is more efficacious than grant making. In these situations, the Foundation may convene meetings, conduct research, contract with consultants or take other direct efforts in achieving its mission. Also included are a part of salaries and other expenses for the Foundation's program personnel.

Part VI Section B. Question 11 b

The draft of Form 990 is reviewed by the Foundation's outside counsel. Furthermore, a draft version of Form 990 is provided to Audit Committee and Board of Directors prior to filing.

Part VI Section B. Question 12 c

The Energy Foundation staff aids the Board's adherence to the conflict of interest policy by ensuring "that the policy is annually distributed to all Directors, officers, and members of committees with Board-delegated powers"; and that "each such person signs an annual statement that the person:

a. Received a copy of the Policy

b. Has read and understood the Policy

c. Agrees to comply with the Policy; and

d. Understands that the Policy applies to all committees and subcommittees having Board-delegated powers."

(see attached copy of the EF conflict of interest policy and questionnaire)

In the event that the information provided by the Board member changes over the course of the following year, EF programs and grants administration staff thoroughly review prospective grantee board of directors list for further potential conflicts of interest with the Energy Foundation board members. If one is found, grants administration staff confirms with the board member directly and updates the conflict of interest disclosure form.

Part VI Section B. Question 15

Please see attached the Energy Foundation's Compensation Philosophy & Pay Practices.

Part VI Section C. Question 19

The original governing documents are filed and available at the State of California. The conflict of interest is attached to the

Foundation's tax return. The Foundation makes its Annual Report and tax return available on its website.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Schedule O (Form 990 or 990-EZ), such as legislation enacted after the schedule and its instructions were published, go to www.irs.gov/form990.

Purpose of Schedule

An organization should use Schedule O (Form 990 or 990-EZ), rather than separate attachments, to provide the IRS with narrative information required for responses to specific questions on Form 990 or 990-EZ, and to explain the organization's operations or responses to various questions. It allows organizations to supplement information reported on Form 990 or 990-EZ.

Do not use Schedule O to supplement responses to questions in other schedules of the Form 990 or 990-EZ. Each of the other schedules includes a separate part for supplemental information.

Who Must File

All organizations that file Form 990 and certain organizations that file Form 990-EZ must file Schedule O (Form 990 or 990-EZ). At a minimum, the schedule must be used to answer Form 990, Part VI, lines 11b and 19. If an organization is not required to file Form 990 or 990-EZ but chooses to do so, it must file a complete return and provide all of the information requested, including the required schedules.

Specific Instructions

Use as many continuation sheets of Schedule O (Form 990 or 990-EZ) as needed.

Complete the required information on the appropriate line of Form 990 or 990-EZ prior to using Schedule O (Form 990 or 990-EZ).

Identify clearly the specific part and line(s) of Form 990 or 990-EZ to which each response relates. Follow the part and line sequence of Form 990 or 990-EZ.

Late return. If the return is not filed by the due date (including any extension granted), attach a separate statement giving the reasons for not filing on time. **Do not use** this schedule to provide the late-filing statement.

Amended return. If the organization checked the *Amended return* box on Form 990, *Heading*, item B, or Form 990-EZ, *Heading*, item B, use Schedule O (Form 990 or 990-EZ) to list each part or schedule and line item of the Form 990 or 990-EZ that was amended.

Group return. If the organization answered "Yes" to Form 990, line H(a), but "No" to line H(b), use a separate

attachment to list the name, address, and EIN of each affiliated organization included in the group return. **Do not use this schedule.** See the instructions for Form 990, *I. Group Return*.

THE ENERGY FOUNDATION

CONFLICT-OF-INTEREST POLICY

Purpose. The purpose of this policy is to address actual and potential conflicts of interest in a manner that avoids even the perception that a director, officer, or employee of The Energy Foundation (the “**Corporation**”) may have used his or her position to derive inappropriate personal benefit. Directors and officers should interpret and apply this Policy to achieve that purpose.

Annual Distribution and Disclosure. To encourage continuing compliance, this Conflict of Interest Policy will be distributed annually to all directors, officers, and employees at the staff-director level of the Corporation. Further, every director and officer must file an annual statement with the Secretary acknowledging that he or she has read and agrees to comply with the Policy and listing affiliations—including (1) employers, (2) board memberships, and (3) financial and personal interests—that involve or could reasonably be expected to involve a conflict of interest.

1. Definitions.

- **Conflict of interest.** A director, officer, or employee of the Corporation has a conflict of interest with respect to a proposed Corporation transaction if the director or officer of the Corporation:
 - (1) is in a position to make or influence the Corporation’s decisions about whether and how to proceed with the proposed transaction, **and**
 - (2) has, or may reasonably be expected to have, a material financial interest or a personal interest in the transaction or may reasonably be perceived as having an interest competing with the best interests of the Corporation.
- **Interested person.** An interested person with respect to any transaction is a Corporation director, officer, or employee with a conflict of interest with respect to that transaction.
- **Material financial interest.** A person has a material financial interest in a proposed transaction or arrangement if that person has:
 - (1) a 5% ownership or investment interest in any entity in the proposed transaction or arrangement;
 - (2) a compensation arrangement (including as an employee, independent contractor, professional advisor or any other such arrangement) with any entity or individual likely to be involved in the proposed transaction; or

(3) any other economic relationship (e.g., a licensing agreement) that may provide material economic benefit from the proposed transaction.

- **Personal interest.** A person has a personal interest in a proposed transaction or arrangement if that person, or a family member, has an affiliation as a director, officer, or agent of an entity likely to be involved in the proposed transaction. Thus, for example, a director or officer of the Corporation has a personal interest in a proposed contract or other arrangement by the Corporation with an entity of which he or she is a director, officer, employee, or agent.
- **Material personal interest.** A personal interest is material only if the interested person's affiliation with a party likely to be involved in the proposed transaction is of such a nature that a skeptical outsider could reasonably conclude that the Corporation's decision should be made subject to safeguards similar to those applicable to transactions in which an interested person has a material financial interest. The fact that a director or officer of the Corporation is a director, member, or officer of an entity likely to be involved in a proposed transaction generally will not, in itself, give rise to a material personal interest. But in unusual cases other factors—for example, an unusually large contract or other arrangement involving an entity with which a director or officer has an unusually high personal identification—may cause the director's, officer's, or employee's personal interest to be material.
- **Family member.** "Family member" means a person's spouse, parents, siblings and siblings' spouses, children, and children's spouses, or any other person (whether related or unrelated) living in the same household with that person.
- **Compensation.** Compensation includes direct and indirect remuneration, including cash payments as well as noncash benefits.

2. Disclosure.

An interested person must disclose as soon as practicable to the Secretary (or, in the case of the Secretary, to the CEO) the existence of a material financial interest or personal interest related to a proposed Corporation transaction and all material facts related to the interest. A director's, officer's, or employee's disclosure of an affiliation during a Board meeting or in written statements or completed questionnaires submitted to the Corporation that makes the individual's interest in the proposed transaction readily apparent will be deemed the equivalent of disclosure. If a director, officer, or employee is uncertain about whether a conflict exists, the director, officer, or employee should report the possible conflict in all cases in which a critical external observer might reasonably perceive a conflict to exist.

3. Determination.

After an interested person discloses a material financial interest or personal interest in a proposed Corporation transaction, and after the person receiving the disclosure has established all material facts related to the interest, the disinterested members of the Board or Board committee with decision authority for the proposed transaction, (or, in the case of an interested party who is not a director or officer, the CEO) will determine if a conflict of interest exists and, in the case of a conflict involving a personal interest, whether that interest is material.

4. Decision-Making Process.

A. Transactions Involving Material Financial or Personal Interests.

1. Recusal. No interested person may take part in any Corporation decision regarding a transaction in which that person has a material financial interest or personal interest. An interested person may make a presentation at a Board or committee meeting considering the transaction and may respond to questions regarding the transaction. But the interested person may not vote on the matter and, if appropriate, may be recused during deliberations and decision-making. In the case of an interested person who is not a director or officer, that person's supervisor, or another person designated by the supervisor, must make the decision regarding the transaction.

2. Additional Procedures. The Board may not approve any transaction to which the Corporation would be a party and in which a director or officer has a material financial or personal interest, unless and until the Board, after reasonable investigation (including a review of the terms upon which other comparable organizations enter transactions or arrangements similar to the one under consideration), has specifically and in good faith determined that:

- the Board is aware of all material facts concerning the transaction and the director's or officer's interest in the transaction;
- the Corporation is entering into the transaction for its own benefit;
- the transaction is fair and reasonable as to the Corporation (e.g., a compensation arrangement is comparable to what similar organizations would pay for similar services under similar circumstances); and
- in the case of a financial interest, the Corporation could not have obtained a more advantageous arrangement with reasonable effort under the circumstances.

In the case of transactions in which an employee other than a director or officer has a material personal or financial interest, the person or persons with authority to approve the transaction may not approve it unless and until they have specifically and in good faith,

and with sufficient understanding of all relevant facts, reached each of the foregoing determinations with respect to the transaction.

B. Transactions Involving Only Nonmaterial Personal Interests.

An interested person with a nonmaterial personal interest in a transaction may not participate in the Board vote on the transaction or, in the case of non-Board decisions, otherwise participate in making the decision on whether and on what terms the Corporation should participate in the proposed transaction. But the interested person is not required to leave the meeting or otherwise physically absent him or herself during the discussion, voting, or decision-making on the transaction, except in the case of a Board decision when another director requests it.

5. Violations.

If the Board, Board committee, or interested person's supervisor has reasonable cause to believe that a person has failed to disclose a material financial interest or a personal interest, the Board, committee, or supervisor must inform the person of the basis for that belief and afford the person an opportunity to explain the alleged failure to disclose. If, after hearing the response of the person and making such further investigation as may be warranted in the circumstances, the Board, committee, or supervisor determines that the person has in fact failed to disclose an actual or potential conflict of interest, appropriate disciplinary action must be taken.

6. Documentation.

A. Transactions Involving Material Financial or Personal Interests.

With respect to any Board or committee discussion, decision, or action involving transactions in which a director or officer has a material financial or personal interest, the minutes of the Board or committee meeting at which that discussion, decision, or action takes place must reflect the Board deliberations and the voting process, specifically indicating: (a) the terms of the transaction, (b) the members of the Board or committee who were present during the discussion of the transaction and those who voted on it, (c) whether the director or officer whose situation was considered was present in the room during the deliberation and vote, and (d) whether and on what basis the Board or committee reached an affirmative determination on each of the issues required to be addressed under section 4.A.2 of this Policy. The minutes must be prepared and approved within 60 days of the meeting (or by the next meeting of the Board or committee, if later).

In the case of transactions in which an employee other than a director or officer has a material financial personal interest or personal interest, if the person with the requisite authority approve the transaction, that person must promptly document the decision-making process including the manner in which the employee was excluded from the

decision process and the basis on which the decision-makers reached affirmative determinations with respect to each of the issues required to be addressed under section 4.A.2 of this Policy.

B. Transactions Involving Nonmaterial Personal Interests.

In the case of any decision involving a transaction in which a director or officer has a nonmaterial personal interest, the minutes of the meeting must document that the director did not vote on the proposed transaction.

In the case of a decision involving a proposed transaction in which an employee has a nonmaterial personal interest, the individual's supervisor must appropriately document that the employee did not participate in making the decision on whether and on what terms the Corporation should enter into the proposed transaction.

Compensation Principles and Practices

Revised: December 18, 2015

Compensation Philosophy

Energy Foundation's compensation practices are in service to EF's operating philosophy. Quite simply, "we invest in great people with a passion for our mission." EF's total compensation program supports the balance of work and life outside of work by providing a good competitive wage, paid vacation and comprehensive health and welfare benefits.

Our compensation philosophy is intended to attract and retain top quality candidates. Our approach intentionally de-couples pay from individual performance (as opposed to merit pay or pay for performance compensation systems). We assume each employee contributes to EF's success, and that no one person is successful without the support of the team and the organizational systems created to produce the organization's outcomes.

Pay Ranges and Starting Salaries

Pay ranges are based on market data for comparable positions that have similar responsibilities. Starting salaries are set in the first 1/3 of the salary range. The skills and experience one brings into the job will be a factor in deciding starting salaries. Years of relevant experience beyond what is identified in the recruiting qualifications will be reflected in the starting salary, and can accelerate the time to range midpoint.

Organizational Adjustments

Success is a shared endeavor and we expect to collectively "learn from successes and setbacks." Pay increases are not individually determined or negotiated, but are applied organizationally to reflect the integrated nature of our work. Based on organizational success and financial health, the management team will propose an across-the-board base pay percentage increase. Organizational adjustments will be implemented on January 1.

Individual Adjustments

Individual adjustments will be made to reflect the individual's learning and increasing proficiency in their role, particularly for entry-level positions in the first third of the salary range. After one year of service, new hires proficiently performing their duties are eligible for accelerated adjustments to bring them to midpoint. The accelerated adjustments are in the form of market adjustments with the goal of bringing employees to the midpoint.

The decision to initiate the move to midpoint and the pace of increase is based on the judgment of the supervisor, management team, and HR. In the case on internal promotion, the practice of waiting a year can be waived. Once individuals are above

midpoint no further adjustments beyond across-the-board increases are expected as long as the job duties remain the same.

Overall, EF compensation system emphasizes years of service, and is intended to acknowledge learning; each year at EF presumes another year smarter. These market adjustments and/or learning adjustments are identified in the budget process and implemented on January 1.

Internal Promotions

Promotions are accompanied by a pay increase. The increase will consider the current pay relative to the range and the employee's proficiency in the new role. Typically, the new pay rate will be in the lower first third of the new pay range, but not to exceed the job value (or midpoint) of the new pay range. EF will periodically adjust its salary ranges based on market data.

Employees above range

When an employee's base salary is above the maximum salary range for her/his position, the employee will receive the pay percentage increase described above as supplemental income payment, not as an increase in base salary. Supplemental income payments will be issued in quarterly installments: January 15, April 15, July 15, and October 15.

Comparable Market

EF's market data is derived from published compensation surveys of other foundations, the energy field, and non-profit organizations. The market data is based on San Francisco Bay Area compensation rates. To prevent the need for significant market adjustments, ranges are increased at half the rate of the Organizational Adjustment. We "validate" against the market every 3 to 5 years.

Decision-making and the approval process

Prevailing economic conditions, the financial health of the foundation and budget projections will inform the management team's decision about including salary increases in any budget cycle. Our philosophy and practice is not a promise or guarantee of any salary increases. The Board of Directors will approve the overall salary plan as part of the budget approval process. Individual salary adjustments will be approved by a member of the management team and documented in individual personnel files.

Transparency

Salary ranges and salary administration guidelines are posted in the EF shared drive and included in the Employee Handbook.
