“ Who wouldn't want a little TLC at work?! People Against Dirty absolutely love having OTC in the office! We get either a massage or our nails done in the office every quarter. Their nail varnish is fab - all natural and organic, super good for the environment so very on brand for us. We've definitely found that having OTC in the office makes everyone even happier to be working here! People talk for days afterwards about how they enjoyed their massage and how long their nails have lasted. Thank you, OTC
