McAfee Global Threat Intelligence gives you the most comprehensive, real-time protection against cyberthreats and lets you rely on McAfee's security expertise, so you can stay focused on your business.

## **POWERFUL PROTECTION IN A SIMPLE SOLUTION**

### **Protect your endpoints from every angle**

Safeguard your Windows and Mac endpoints against system, data, web, and network threats.

### **Deploy quickly and easily**

Get up and running fast, and deploy endpoint security the way you want, either in the cloud or on premises—without any IT expertise.

### **Deploy quickly and easily**

Get up and running fast, and deploy endpoint security the way you want, either in the cloud or on premises—without any IT expertise.

### **Integrated security in a single solution**

McAfee Endpoint Protection for SMB is an all-in-one solution for antivirus, data protection, and web security.

# **VODACOM INTERNET**

**vodacom**

GetCut the cord - why use cable when you can connect wirelessly?

The next generation of wireless technology that lets you enjoy fast Internet browsing.

Get connected in a matter of days. We deliver you install, simple uncapped or capped, super-fast and reliable connectivity. What is Business Internet LTE?

LTE offers a faster and more efficient data network for small- and medium-sized businesses, and with speeds up to three times faster than 3G, it provides reduced network delay for business activities such as video conferencing.

At an average speed of 20 Mbps, Vodacom Business Internet LTE lets you connect multiple devices for instant downloads, easy file sharing and seamless collaboration across the office.

Get Business Internet Wireless Lite for your Small Office today.

NOW get even MORE data when you subscribe to Business Internet LTE.

Be up and running in no time with an Internet service at LTE speeds for your small office, and add voice services that do not eat into your data. Get all the benefits that this service offers now at a reduced price including a static IP address, router and LTE SIM, so your office can get connected affordably!

No wires, no waiting for lines.

The service is wireless. There's no waiting for line installations. Your business can literally cut the cord from the frustration of having to wait. Just switch it on and be ready to connect. It's one of the fastest ways to get your office the connectivity it needs.

<b>24 month LTE</b>	<b>Ex VAT</b>
40GB	346.96
75GB	520.87
150GB	781.74
225GB	973.04
300GB	1477.39

### **Vodacom BCC Internet Wireless**

Faster Internet connection speed

Reliable and fast Business Internet speeds ranging from 10Mbps to 80Mbps and uncapped service plans at fixed Broadband Internet rates. Also choose from capped service plans ranging from 20GB to 50GB. If fibre is not available on your area, this is the best alternative solution to having fibre like connectivity.

## **BCC PREMIUM WIRELESS**

Bandwidth is symmetrical meaning the download and upload speeds are equal
