

SIGNS OF THE TIMES ESTATE SIGNS

Estate signs need not be simply directional, they can be an attractive addition to the landscaping. Interest can be added by featuring a motif in relief. Adding your company logo can give immediate identification to the visitor.

Building signs, street signs and directional signs can follow a theme adding interest and giving sense of community.

Materials

Signs are predominantly cast polyurethane although we also supply signs in many other materials. Aluminium panels with applied graphics and composite signs, all designed to suit your requirements.

Shapes & Sizes

Cast signs are supplied in almost any size and shape. We stock dozens of pattern boards and if we do not have one to suit our 'in house' pattern maker can make one up to your specification.

Finish & Appearance

Castings with letters, borders, logos, motifs and complicated coats of arms are all realised in relief and hand painted by our talented artists.

Design & Artwork

Clients are encouraged to send us any artwork, size and shape details at an early stage so that we can assist in the design. Our experienced designers can often work from thumbnail sketches, drawings and photographs to achieve your design.

Fixings

Signs can be single or double sided (two cast panels), or curved to fit convex and concave walls. They can be drilled for wall fixing or we can supply aluminium posts etched and painted to match the signs complete with fixings.
