- Storage and distribution
- Demonstration of display systems
- Installation and breakdown of display and exhibition stands
- 3D design and visualisation service
- In-house design team - no out-sourcing design to external companies
- Fast turnaround available
- Production of posters, hanging graphic panels and PVC banners.
- Canvas Prints

Warranty

Our range of display stands are all supplied with warranties against product failure or manufacturing defects. The length of warranty differs between products, with premium products supplied with a lifetime guarantee on hardware and lower cost stands with a five year guarantee on hardware. Our sales consultants will recommend the best display system which meets your usage requirements.

Storage

We have extensive storage facilities, and are able to store our customers' display stands for short or long term periods. We can organise UK and worldwide deliveries to take the hassle of logistics and transportation out of our clients hands. After return to our storage facility, all display stands are checked and any repairs carried out, to ensure that your display stands last for years and are in good condition.

Installations

We have a installation team who can install large bespoke exhibition stands down to pop up stands or banner stands. We can install your display stands anywhere in the UK, and our experience will ensure a hassle free service. We pre-build stands at our production building to ensure that all stands can be set up on-site quickly and ensure that everything looks and works perfectly prior to install. We can also dismantle your stands, and return to our warehouse for use at your next event.

Artwork, design & production

To ensure that our displays achieve the maximum possible impact and look their best we offer a dedicated design service. We handle all production at our specialist in-house facility.

Our long experience in the display market means that you can be confident of gaining a high quality promotional tool. This can be updated as your brand and marketing messages change over the years to come.

Our large open plan modern studio allows our creative team the chance to achieve their maximum ability and to produce outstanding quality graphics, which you, our customer will be happy with.

Nothing looks worse than an exhibition stand which thinks its a brochure. Our specialist design service can advise you on how best to achieve a memorable and effective display. We aim to ensure that your portable exhibition solution becomes a valuable marketing tool.

Following your initial enquiry we will forward you an outline of a brief listing the relevant information which we require from you.

We will then follow this brief and submit our initial proposals, usually as high quality Acrobat PDF files which you can view on your computer.

We can also supply colour proofs if required.

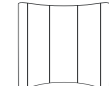

Impact Xpress pop up

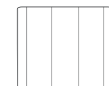

Straight or Curved

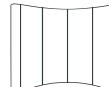

3x3 Curved

3x3 Straight

4x3 Curved

4x3 Straight

Halogen lamp kit

- 2 x 150w lamps
- Power leads
- UK plug fitting

Zeus case

- Storage for 3x3 or 4x3 system

Impact™ Original is the best selling display stand within our Display range of pop up display stands. This is the most popular of our Impact™ range, and is used by many of the UK's leading brands. Precision engineered magnetic fittings ensure the panels locate to the correct position on the frame. When you need to set up your exhibition display stands quickly and easily, without a fuss, Impact™ Original is the perfect solution. Available with a curved or straight frame, with the option for rear graphic panels. Impact™ Original is also available with a fitting for an LCD screen.

- Magnetic self locking device makes frame assembly quick and easy
- New magnetic fittings on bars make for simple set up
- Magnetic graphic fittings eliminate unsightly panel hooks
- Designed for seamless display
- Reinforced frame for a busy events calendar
- Lifetime manufacturer's warranty on hardware
- High Impact graphic panels supplied in individual sleeves
- Option to fit LCD screens
- Setup within 10 minutes

Impact Plus pop up

Straight or Curved

The ultimate in pop up exhibition display stands. Every component in the sleek Impact™ Plus pop up stand has been designed with a focus on durability and ease of use. An award winning product design sets Impact™ Plus apart from other pop up displays. This top of the range display stand makes no compromise on quality and will ensure years of trouble free intensive use. Available as a curved or flat frame. Red Dot Design award winner.

- Magnetic self locking device makes frame assembly quick and easy
- Next generation of pop up stands
- New magnetic fittings on bars make for simple display stand set up
- Magnetic graphic fittings eliminate un-sightly panel hooks
- Designed for seamless display
- Reinforced frame for a busy events calendar

- Lifetime manufacturer's warranty on hardware
- High Impact graphic panels supplied in individual sleeves
- Red Dot Design Award winner
- Foldable magnetic bars reduces components for easier and quicker display stand setup
- Setup within 10 minutes

Roller Banners & roller banner stands

We have a wide range of roller banner stands to cover different budgets and usage requirements.

Our range of roller banners are split into different price brackets from low cost budget roller banner stands to premium displays designed for intensive use with unique features.

Whether you're looking for a budget roller banner for occasional usage or are looking for something a little different in the form of our double sided roller banner stands, we're confident we are able to offer a solution to your requirements.

Our budget roller banners offer the ideal low-cost solution for those needing a simple means of displaying company information and offers in a range of situations.

Whilst our range of mid-range roller banner stands have been designed for more regular usage.

In addition to these, our premium roller banners all use telescopic poles, meaning you are able to adjust the height yourself as well as making for an easier setup. Our premium range is designed for companies who are looking for a banner stand which will last for years. We have many customers who order replacement graphic panels for their existing premium banner stands, ten years after the initial purchase..

Whatever your needs and requirements, our roller banner stands have been designed to cover all bases, offering competitively priced display solutions alongside the highest level of production.

We print all graphics ourself in house and have a dedicated team who are committed to ensuring you receive the finest product, whichever of our roller banner stands you choose to purchase.

Quality comes as standard

Many of our products come with lifetime or long guarantees. Visit our website or talk to our sales team to discover our after-sales difference. Individual information on each product is available, but we will always endeavour to help you maximise the life of your display system when possible.

- Interchangeable graphic panels
- Adjustable feet for uneven floors
- Telescopic pole for height adjustable panels
- Premium padded carry bag
- Available 85cm or 120cm wide

Mediascreen XL roller banner

MediaScreen XL is an extra wide, extra tall retractable display that is exceptionally suitable when your message needs to be seen from a distance. You can also easily create an even larger image by linking two or more displays, thanks to a magnetic connector at the top. Three 100 cm displays, for example, can fit in a 10 foot wide space and can reach upto 3m high.

Graphic panels for the Mediascreen XL are printed on our full colour premium matt laminated graphic that gives excellent image quality and also a scuff resistant finish to protect the graphic panel for years. If you ever need to replace the graphics send the units back to us and we can print and refit new graphics.

Super sized

- High quality linkable roller is available in two widths, 100cm and 120cm. The real selling point of this banner is that it is available in four different heights; 200cm, 218cm, 250cm and the stratospheric 300cm high version!

Magnetic ends

- Magnetic end profiles so it is possible to link two or more together to create an impressive backdrop.

Quality assured

- Premium roller mechanism that will last for years.
- Supplied in a quality padded carry bag with shoulder straps.
- Spotlight option available if you want to illuminate your display.

Compact roll up

Compact Roll Up is a compact and simple to use roll up banner stand. The rounded corners and sides makes it simple and easy to handle. The base unit has protective edges to ensure this banner stand will be able to stand up to intensive use over many years. The adjustable telescopic pole allows for easy set up and a height adjustable graphic panel.

- 85cm or 100cm wide x up to 223cm high
- Lifetime guarantee
- Designed for intensive use
- Quick and simple set up
- Telescopic pole for easy set up

Bamboo roller banner

Think
Green

The Natural Choice

Suitable for variety of ethological and oriental themed messages

This popular environmentally friendly (made with 90% renewable bamboo) banner stand adds a touch of style to your brand and a touch of green.

- 850mm wide.
- Fixed height three piece wooden pole.
- Wooden twist out feet for stability.
- Padded carry bag included

Quickscreen roller banner

Halogen lamp kit

- Universal 50w low voltage spotlight

Durable and robust base unit

- Supplied with lifetime guarantee

Our Quickscreen banner stands are our best selling mid-range roller display stand. We have been selling the Quickscreen banner stand for over ten years, and it has proven to be a favourite with many of our clients. Quickscreen roller banners are a tried and tested, cost effective display stand. The reliable roller mechanism will ensure that they last for many years. The Quickscreen base unit comes with a lifetime guarantee against product failure.

- Available 85cm, 100cm or 120cm wide
- 200cm or 218cm high
- Tried and tested design
- Lifetime guarantee
- From 5.2kg
- Best selling mid range banner stand

Verve roller banner

Stylish finish

- Compact, sloping angled base finished with chrome effect end caps, to create a modern feel to this display stand
- The chrome end caps also protect the ends of the base unit, preventing problems with jamming the roller mechanism if dropped
- Base available silver or matt black
- Available 85cm, 100cm, 120cm or 150cm wide

The verve banner is a cost effective, mid ranged roller banner display stand. This is our narrowest footprint banner stand, that does not require a protruding foot to stabilise the stand. This is ideal for busy venues where they may be a concern about passers by tripping on a visible support foot.

Verve comes with a height adjustable telescopic support pole. As a result the Verve banner is more simple to set up than fixed pole height banner stands, as there is no requirement to be able to reach the top of the panel during set up. The telescopic pole to this banner stand also means that the panel can be adjusted from any height between 160cm and 220cm.

Evo roller banner

Simple setup

- Telescopic pole can be secured at a comfortable height for the user, and then extended to its full height.
- The full height of the graphic panel is 220cm high. Telescopic pole allows for the panel height to be reduced to any height from 160cm up to 220cm, therefore allowing for any low ceiling heights.

The Evo roller banner stand is a progression on the design of more functional banner stands. With the addition of chrome end plates and an attractive chrome finished support foot. This mid range display stand is ideal for companies looking the next step up from a standard roller banner stand. Evo has a good quality roller mechanism inside the base, which is suitable for regular use.

- 5 year guarantee against product failure
- Scuff resistant matt laminate panels
- Telescopic pole for height adjustable panels
- Premium padded carry bag
- Available 85cm, 100cm or 120cm wide

Merlin cassette banner

Our Merlin roller banner stand has a removable graphic panel cassette which is stored inside the base unit. This enables multiple graphic panels, each in its own cassette to be used with this system. Ideal for companies who need to change graphic panels quickly, without the need to have to send the unit back to us, to have new panels fitted.

- 5 year guarantee against product failure
- Quality banner stand
- Stylish Sloping Base
- Premium padded carry bag
- Available 85cm or 100cm
- Height 210cm

Elegant base

- The front sloping profile to the base means that no protruding foot is required to keep the banner stand stable.
- Ideal for companies who prefer to avoid unsightly feet, or where trip hazards are a particular concern.

Interchangeable panels

- Removable graphic panel cassette
- Quality banner stand that lasts for years and changes with your branding

Barracuda roller banner

Stylish base

- The base unit has a sloping front, which means no need for a protruding foot to keep it stable.
- Supplied in brushed aluminium with modern looking black end caps to finish the base unit off.

Easy set up

- The Barracuda has a height adjustable rear pole support that not only makes this roll up display stand easy to set up, the overall height can also be adjusted.
- Available in two widths of 800mm and 1000mm wide.

Accessories available

- The Barracuda has some optional accessories available to make this a unique banner display stand. A screen mount is available to fix an LCD screen to a frame structure behind the stand to allow you to add an audio visual element to your display.
- Also available are literature holders or shelving, that fit to framework on the left or right hand side of the graphic panel.

Popular Modern Roll Up Display Stand with 10 Year's of Progression
This stylish and popular roll up display stand has been on the market for over 10 years and has been constantly improved during that time. The Barracuda roll up banner is tried and tested and one of our most popular mid range banner stands.

Quickstand roller banner

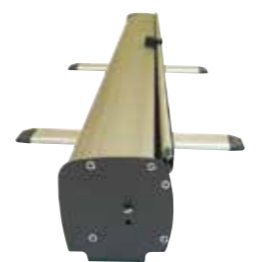

Quickstand is one of our best selling roller banner stands. Although the cheapest banner stand in our range, we have avoided using low quality materials which are often associated with lower cost display stands. Available in a range of widths, Quickstand is a lightweight display which is easy to transport. Supplied with a two footed base unit for extra stability.

- Available 85cm, 100cm, 120cm and 150cm wide.
- Available 200cm high
- Weight from 3kg
- Cost effective banner stand
- Compact base for easy transportation

Extra stability

- Two feet for extra stability

Square profile

- Simple and functional design

Prism roller banner

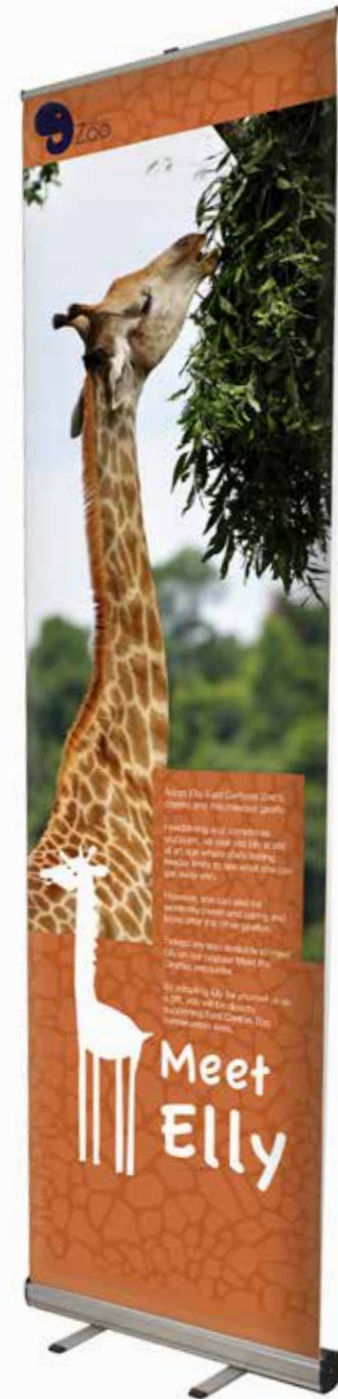

- Our entry level Roll Up has a modern design and sleek roller banner system.
- Designed for medium use, this banner display stand offers reliability and durability combined with reasonable pricing.

- Twin feet complete the look giving you a sturdy finish, supplied with a quality snug fit carry bag
- High-grade aluminium base, combined with good quality roller mechanism.

GIANT MOSQUITO think bigger

Part of our budget range, the Giant Mosquito is one of the largest economy banners you can buy. At 3m high your message will be seen by all. The hybrid pole is quick and easy to use and can be set comfortably at various heights to suit your graphics.

- This giant stand needs strong parts, special constructed telescopic poles are built for the job.

- Twin twist out feet for stability
- Part bungee, part telescopic pole
- Padded bag included
- Available in 1200, 1500 and 2000mm widths

Uno linkable banner stands

Stylish finish

Finished with a powder-coated black foot, this simple display stand supports a printed graphic panel. Ideal for companies looking for a low cost display option.

- Supplied in a carry bag and tube.
- Quick change graphic panels
- Available 80cm or 100cm wide
- Different widths can be linked together
- Overall height is 220cm (custom panels under 220cm available)

Uno is low cost portable banner stand. As standard, we supply Uno banner stands with a textured roll up banner material, graphic panel. However, for companies who are looking for a compact, lightweight option for travel abroad, we can supply Uno with a fabric graphic panel. This can be packed away into a suitcase or hand luggage, along with the pole and foot. Please note that Uno stands with fabric panels can't be linked together seamlessly.

Link your ideas

Our range of linkable banner stands are designed for clients looking for displays that are adaptable in size and can be used as single free-standing displays, to larger backdrops which can be used as high impact exhibition stands.

Lightweight fabric option

For those looking for a compact, lightweight option, we supply Uno with fabric graphic panels, making the Uno an extremely lightweight banner.

Fabrics are printed either the width of a single unit for portable banner use, or use multiple frames to create a unique lightweight seamless fabric backdrop.

Twist banner

Linkable banners

- Use as individual displays or link together
- Flexi Link panel to create any shape

ISOframe Ripple

Banner or Modular Why not both!

A truly flexible banner stand system you can use as individual banner stands which you can then link together to create a bendable display of any width. ISOframe Ripple is the perfect flexible choice for any exhibition or event.

ISOframe Ripple

You can re-use and reconfigure the size and shape of the display for future events, and with media screen attachments, spotlights and a table available as accessories its flexible enough for all your future display needs.

- Simple, tool-less assembly
- Bend and flex to suit the venue
- Compact, lightweight and very easy to transport
- Adjust the display width to suit your requirements
- All graphic panels are 800mm wide with the same fixings
- All graphic panels can be used on a frame or as a flexi-link.

Link2 seamless joined banners

durable bag for easy transport

optional halogen lights

quick-change roller graphic system

The Link² allows for unlimited banners to be seamlessly joined together to create professional, promotional and exhibition backdrops. Each Link² banner stand also has interchangeable graphic capabilities giving customers the ability to change their own graphics with no fuss - meaning that the LINK² hardware can be used indefinitely. Other advantages include a patented tension system that aids graphic alignment on uneven floors, integrated LED lighting and a flexible panel option making it ideal for shell schemes.

Elegant joins

- Link2 is the perfect system when you need a stand that can be changed to fit various events, marketing campaigns or Point of Sale adverts.
- Multiple Link² display stands can be linked together to create a straight wide backdrop.
- Or add a 23.5cm flexi link panel to create curves and wave shapes.

Interchangeable panels

- Link² has a patented and unique graphic exchange system included in the base unit. It takes less than a minute to exchange a graphic panel, and requires no expertise.
- We can send new panels to you, and these can be fitted on-site quickly and without hassle.

- Lifetime guarantee against product failure
- Premium banner stand
- Stylish base & support feet
- Premium padded carry bag
- Each system 85cm wide
- Flexi-link panel 32cm wide
- Height 2.2m

Plus roller banner

- Optional magnetic joining cap with link profile

Pole with discreet moulded top

Magnetic joining cap

Link profile (rear view)

- Unique, magnetically linkable cassette with linkable graphic hanging profile allows you to link 2,3 or more units together
- Discreet colour matched moulded magnetic joining cap
- Discreet silver anodised link profile with lockable connector bar

- Only 26mm gap between linked graphics (less than 2% of image area)
- Straightforward assembly for dramatic visual effect
- Double system graphic width: 1726mm
- Triple system graphic width: 2602mm

Spotlight - low voltage

- Low voltage - 50w
- Full pivot head

The multiple stand is the subject of pending protection under European patent application number 09178238.3

Aero linked display system

Versatile Display System

An extremely versatile display system that can be used for exhibition spaces and retail displays.

The system is modular so can be added to make larger displays at a later date.

We sell this display as a 3 panel kit or as individual retractable roller banners complete with posts with feet.

If you want to replace the graphic panels at a later date we can supply with just the graphic cassettes so you don't have to purchase all the hardware again.

The graphic panels retract into the roller mechanism for easy transportation.

The Aero banners can be joined together to make larger displays and can also be adjusted at 90 degrees to create a booth space or fit any rectangular shape.

- 5 Year Guarantee
- Height Adjustable and Available in 3 Different Widths (1m, 1.5m & 2m)
- Light & portable
- Comes with a Nylon padded carry bag for easy transport
- Fittings on top to accommodate Powerspot Halogen lights to floodlight your display.
- Choice of Graphic Panel Materials, PVC, standard roll up graphic panel material or Polyester fabric.
- Redesigned feet add stability and are more compact in transit

Vortex

- The Vortex is a very lightweight portable display system. It's lightweight design allows the user to quickly assemble the framework. The PVC graphic is easily attached for an instant professional eye catching display.
- The graphic panels are printed on tough front lit PVC which attach to the framework using brass eyelets. The PVC panels can be interchanged by the user should you wish to promote different products or services. The PVC panels are printed with colour-fast solvent inks at high resolution.
- Vortex comes complete with padded carry bag for the hardware. There is also an option of protective graphics tubes to protect the PVC panels in transit. Vortex also comes with a one year hardware guarantee.

Wedge

- The Wedge display unit is a steel base which holds rigid printed graphic panels in place. The sleek, grey powder-coated base can clamp any size printed board up to 40mm thick.
- The Wedge base is a cost effective solution to displaying floor standing foamex and MDF printed graphic panels. Ideal for venues where graphic panels can't be fixed to a wall.
- Wedge bases are available in 4 different widths; 300mm, 600mm, 800mm and 1000mm. Although the graphic panel can be wider than the base, if you require a specific width display. We recommend a maximum height of 1500mm.

Linear wave / arch

Linear Pro System

The Linear Pro System provides the looks, style and sophistication of a custom exhibit with the ease, convenience and value that you're looking for.

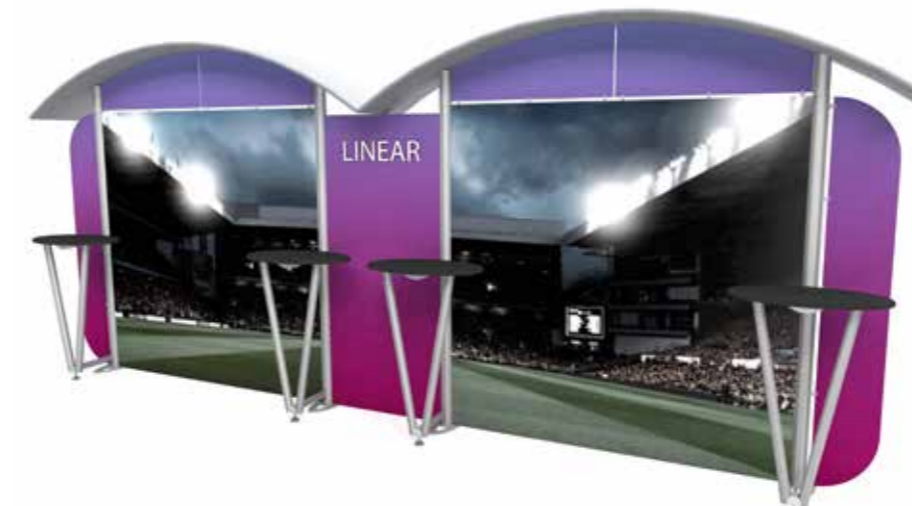

The Linear range of portable exhibit systems are designed to ship with minimal lead-time and are a terrific off the shelf solution for trade-shows and semi permanent displays, ideal for shopping centres and exhibition venues.

All kits accommodate optional lighting, choice of LCD screen mounts, brochure holders, product display shelves and molded carry cases.

Framing is constructed of extruded aluminium with sturdy oval steel bases. Key-Locking arms makes Linear strong, lightweight and easy to assemble.

Linear Pro 22/25/26/27

Linear Pro 26

Overall assembled size (mm): 2455(h) x 6000(w) x 765mm(d)

Linear Pro 27

Overall assembled size (mm): 2455(h) x 6000(w) x 765mm(d)

- Portable with full set up instructions
- Anodised aluminium construction
- 75mm rounded modular posts
- Accessories include literature holders, LCD mount and shelves
- Additional optional accessories including spotlights, counters and carry case

Pegasus display stand

Pegasus is a low cost portable display stand. It is one of the cheapest display stands that we produce to cover a 2.5 wide area. Ideal for exhibitions and events, where a low cost, high impact display stand is required.

The Pegasus graphic panel is printed onto a one piece lightweight fabric material. The fabric graphic panel fits into a carry bag along with the hardware, to make for easy transportation. Ideal for companies where the transportation weight is an important factor in deciding which display stand to opt for. The Pegasus stand is particularly popular with companies who need to ship display stands abroad, where lower weight display stands can reduce freight costs.

Flexible Adaptable

- At its maximum size the Pegasus display stand has an overall dimension of 2540mm wide x 2515mm high. However, the framework is adjustable in size, and can be used from any size from 1429mm wide x 1000mm high.
- Please contact us for a quotation for various size options, or let us know if you have a specific size requirement, and will advise of a cost for this.

Quick Easy Set Up

- The Pegasus fabric panel display stand is very simple to set up. Simply fit the vertical poles to the base, then slide the horizontal poles through the top and bottom sleeve in the fabric graphic panel.
- Then fit the horizontal poles, and your high impact display stand is ready to use.

Cost effective fabric backdrop display

- Pegasus tension banners are available in different widths and heights to fit any size display area.
- Pegasus is very lightweight and breaks down into a small carry bag for easy transport.
- Silver powder-coated frame with telescopic adjustable poles.
- Available with fabric size 1429mm-2540mm wide and 1000mm-2515mm high.

Centro showcase

Showcase your latest ideas and products behind an attractive, secure and protected display stand. The multifunctional display can be used in tandem with the Centro range to produce stylish displays & complete modular exhibition systems. (See 'Modular' section)

- Generous individual display spaces
- Header and base panels for promotional graphic display
- Printed, white or clear shelf infill panels
- Curved 8mm thick 'green edge' acrylic shelves
- Chrome adjustable shelf brackets accept 12kg of evenly distributed products
- Featuring easy assembly connections
- Compatible with entire range
- Optional wheeled cases available

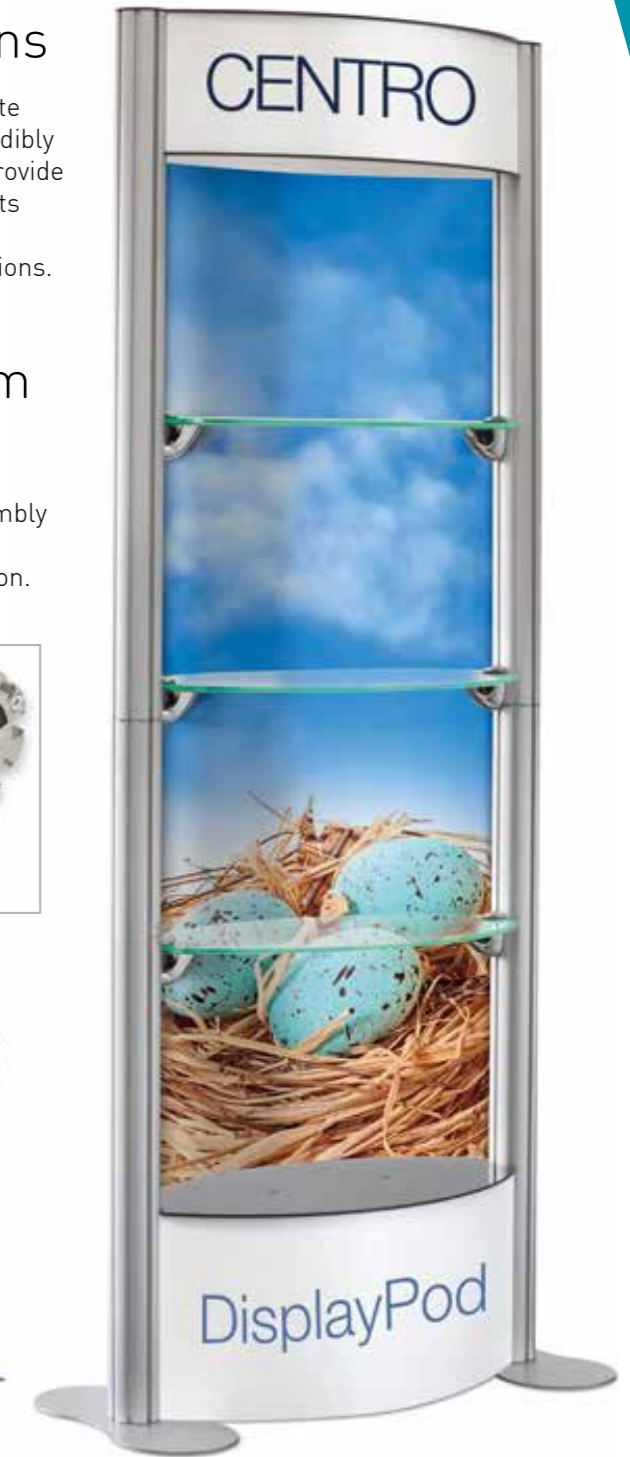

Centro display solutions

With 10 years of development the complete range of Centro frame products are incredibly strong, stylish and have come of age to provide you with a complete set of display products that can be used in conjunction with each other to produce complete Modular solutions.

Rotrlink linking system

All Centro static display products use the patented Centro Rotrlink, maintaining strength and dramatically reducing assembly time. The Centro Rotrlink twist and lock technology allows fast and easy installation.

Launchpad tablet display

Elegant & portable, the Launchpad tablet stand is an ideal floor standing display that can house both iPad and Samsung tablets. Its rotating head allows for portrait or landscape viewing and is a great option in retail, showroom, office, event or restaurant environments.

Launchpad is continually powered through a discrete internal cable management system and supplied 2m USB cable

£

Budget iPad display stand

£

Budget is our low cost floorstanding unit. This sleek and portable iPad display unit can be used with all iPad tablets excluding iPad 1. The iPad housing can be positioned portrait or landscape, and is made of steel.

Secure housing comes with security screws, and an Allen key, for extra security the base can be bolted to the floor. This iPad display stand is a theft resistant unit, ideal for events, exhibitions and reception areas.

Budget iPad Display stand is available in black, silver or white.

Techno Space customised ipad stands

£

Techno Space and Techno Space Plus Deluxe - stylish, light and cost effective iPad stand. Can be used as a low cost freestanding iPad display with the option to add a rollable graphic panel or a custom shape ridged graphic on the Deluxe model.

The steel cradle has a secure lock and offers 360 degree rotation, plus tilt and swivel features and is designed to hold you iPad and a portable power pack.

Techno Space Deluxe has optional graphic fixing kit to mount custom shaped rigid graphics to the vertical post, with quick and easy thumbscrew style assembly in only a few seconds allowing you to change to any other shape in the future.

With portability as well as security the Techno Space offers the perfect solution for interactive presentations on the go.

iPad displays

Podium iPad display stand

£

- Single post, base and acrylic podium table with versatile iPad holder
- Continuous iPad power supply when connected to UK mains
- Table height 1014mm
- USB charging cable concealed within enclosure behind iPad before exiting through centre hole
- USB cable passes through holder support head, then down column tube
- USB cable connects to adaptor which in turn connects to figure 8 power lead
- 3m figure 8 power lead and UK 3 pin plug exit stand for connection to appropriate power supply

iPad Kiosk & iPad Kiosk Plus

£

iPad Kiosk - Floor standing iPad display units with a choice of a curved or straight upright frame. This is a stunning iPad display solution that can have either a black or white acrylic infill in the upright section, or a graphic panel infill which offers an ideal opportunity for branding to ensure maximum impact.

The bezel surround comes in a choice of black or white acrylic and shapes, or we can produce a printed adhesive panel fitted to the bezel.

iPad Kiosk Plus - iPad Kiosk Plus is intended for high traffic public use and has an incredibly secure enclosure, perfect for busy environments including point of sale kiosks and digital concierge, can be Bolted to the Floor for Greater Security.

- Home button recess allowing Guided Access on iOS 6 and above

iPad displays

Counter iPad display stand

Counter Movement

Our Counter Mount iPad display unit, can be fitted to most standard surface that can be drilled to fit the screw fixings. This mount can be used in conjunction with many of our portable counters. If purchased with one of our counters, we will pre-drill the holes for you, to make for simple set up.

Power cables can be run through the support arm of this stand.

Slimline iPad wall mount

The Slimline range of iPad tablet enclosures provide a sleek wall mounted display, which has an intuitive design allowing it to fit flush to any wall surface. This enables any cables or power leads to sit within a recess within the wall, creating a seamless and streamlined appearance. The unit also includes an optional conduit for customers who wish to conceal any cables on the wall exterior.

Four available models cover a large range of tablet size and compatibility options. Cover plates that hide or reveal home buttons and cameras give you more control and allow you to have the exact interface you need for your display.

Product Features:

- Rugged Secure security
- Secure and lockable
- Hidden cables
- Continuous power charging
- Made from ABS, acrylic, aluminium and durable steel
- VESA compatible interface plates available
- Landscape or Portrait orientation

- Available with a white or black bezel in five shapes - square, rectangular, circular, cloud or speech bubble.

Wall Mount iPad display stand

Our wall mounted tablet enclosures can be secured to any wall surface using a standard VESA mount. A cost effective and versatile tablet display solution for any showroom, reception, or public space. Available with black or white acrylic surround, with five different bezel shapes.

Our Wall Mounted iPad Display stands come with two fixing options:

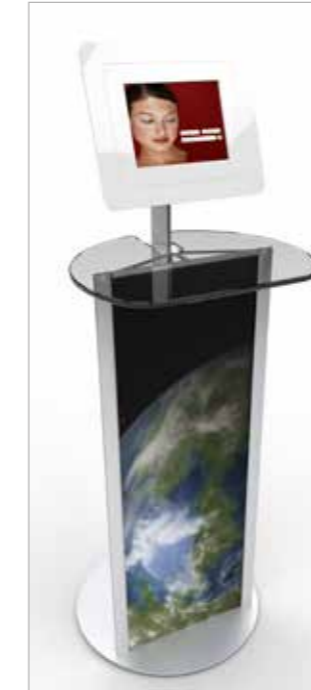

- Fixed - fits flat to the wall.
- Tilt - tilts, and rotates 180 degrees.

Product Features:

- Supports iPad 2, 3 and 4 as standard
- Secure and lockable
- Rotates 180° (view tablet in landscape or portrait)
- Hidden cables
- Continuous power charging
- Concealed or revealed 'Home' button
- Black or white acrylic bezel

iPad displays

Poseur 1 iPad display stand

This unit has the option to be supplied with a branded graphic panel that we produce in-house.

- The quick and simple self assembly constructions makes this iPad display unit suitable for either short term events just as exhibitions, or for more permanent display.
- This unit features a clear 'glass look' acrylic shelf and can be used for displaying brochures, business cards and other marketing materials. Or the ideal place to position other peripheral devices. The iPad tablet is securely mounted in the enclosure.
- Power cables can be run inside, continual power supply.
- The Poseur Table 1 can be ordered with a choice of black or white bezel colour, and with a choice of bezel shapes.

Poseur 2 iPad display stand

This unit comes with three mounts ensuring that it can be used for multiple customer interaction.

- The quick and simple self assembly constructions makes this iPad display unit suitable for either short term events just as exhibitions, or for more permanent display.
- This unit features a clear 'glass look' acrylic shelf and can be used for displaying brochures, business cards and other marketing materials. Or the ideal place to position other peripheral devices.
- The iPad tablets are securely mounted in their enclosure.
- Power cables can be run inside, continual power supply.
- The Poser Table 2 can be ordered with a choice of black or white bezel colour, and with a choice of bezel shapes.

iPad Duo / Quad display stand

Ideal for retail, events, showrooms and offices. Fully transportable and takes up minimal storage space when not in use. Both Duo & Quad are designed to command attention and fit in with all modern retail & reception situations.

- Single post, base and cross shaped support arm with 2x or 4x versatile iPad holders.
- Available in textured black or white finish.
- Continuous iPad power supply when connected to UK mains.
- Heavy duty steel base finished silver with rubber foot pads.
- Optional molded wheeled trolley case.

iPad displays

Design iPad Holder Post

Simple, stylish and sturdy iPad display. The Designer iPad Holder Post incorporates the versatility of the Linear system with a secure iPad holder.

Features and Benefits

- Available in black, white or silver

Attractive from every angle

Ideal partner to our banner stands, podiums, backdrops & fabric display stands

Our portable Towers are designed to deliver your brand with 360° visibility, making it easy to get noticed wherever used. Strong and sturdy stance commands attention.

They looks great from top to bottom, side to side & quickly becomes the focus of attention.

We use the same high impact, premium graphic panels that are used throughout our range.

Can be supplied with the framework in a carry box with graphic panels in a carry drum, or the complete system and panels can be supplied in a heavy duty wheeled case.

Set up in minutes and pack down just as fast. Simply open the frame, lock them into place and magnetise your panels onto the frame.

Linear Column

- Linear Columns are free-standing double sided display stands, which come as a graphic display, or with the option for internal lighting.
- The lighting option can be white or RGB lighting for added back lighting effect.
- Comes in two sizes - slim and standard.
- Slim - 1010 (h) x 380 (w) x 245 (d) mm
- Standard - 1010 (h) x 640 (w) x 325 (d) mm
- Both are available with an option for an iPad display stand to be fitted to the column, and side mounted A4 brochure holders on the side profiles.
- The frame is a satin anodised aluminium frame which is both strong and lightweight and simply clips together. The top and base are made from MDF and are finished in either Birch, Black, White or Silver.
- The display flat-packs and can be assembled within 10minutes.

Towers

Pop Up Quick tower

- 64cm diam x 225cm high
- 10kg weight

- Easy set up

Shell Clad graphic panels

Think outside the box

We can help you transform a shell scheme from a boring exhibition area to a high impact brand promotion area with quality shell clad panels.

The reality of shell schemes are row upon row of sales cubicles, all looking more or less the same.

Stand out from the crowd with the single most important function of your stand - IMPACT.

With Shell-Clad fittings we can produce graphic panels that fit to a shell scheme wall to create large graphic displays.

Shell-Clad is designed to make money rather than save money and it is the right solution for those that are serious about exhibition marketing.

It is a bridge between standard shell scheme booths and purpose designed stands.

More expensive than the common place pop-ups but a fraction of the cost of a bespoke build.

Mounted wall frames

Mounted canvas frames & wall lightboxes have developed leaps and bounds from traditional stretched canvas prints. We now offer a full range of off the shelf options and built to order sizes, frames that have effective and dynamic finishing styles and back lit options.

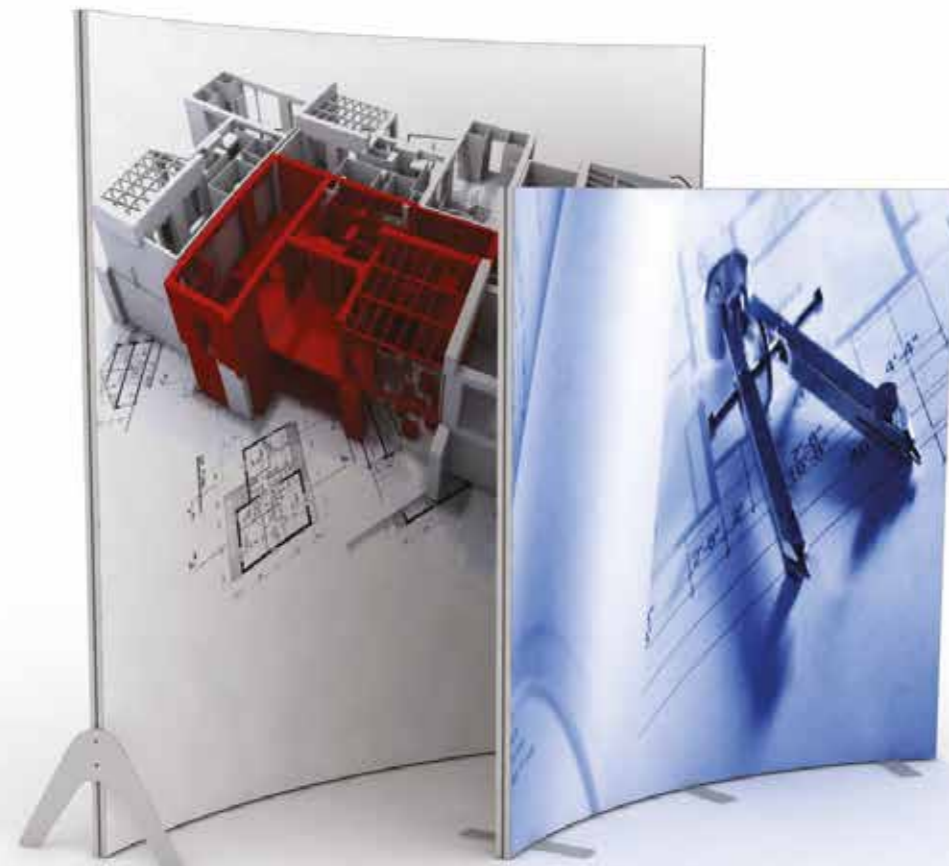

Easy to change graphics with the minimum of fuss, your own staff can fit or change graphics quickly and easily, even during opening hours, with no training or tools required. The system extends into illuminated and non-illuminated, single and double-sided, wall-mounted and freestanding along with columns, cubes and full lightwalls.

Flexible ink technology allows us to produce beautifully detailed graphics - right down to the smallest text, finest hairs and subtlest of skin tones - not possible using other print processes.

Stretch Freestanding fabric display

Straight/Curved End Foot

Stretch Wave Foot

Protective case

Stretch freestanding display stands are designed for companies looking for professional exhibition and events backdrops. All Stretch products are available with easy to fit fabric graphic panels which are supplied with silicone edge strips which slide into the framework. - Adjustable frame - Create bespoke shapes and heights
- Easy tool free setup
- Straight or curved profiles

Impact fabric

Impact Fabric stands are now available in four sizes up-to 4m wide. In less than a minute you can set up a graphic backdrop with a huge display area. Low maintenance and light fabric offers a perfect alternative to paper based stands.

The fabric graphic panel is fixed to the frame with a strong industrial Velcro fitting, even when the display is stored away in the carry bag. The frame locks together with magnetic fixings, which hold the graphic panel tight to the frame.

Impact Fabric pop-up stands come in a durable padded trolley bag on wheels, which makes transportation a breeze. There is no need for separate magnetic bars, (which are essential for standard pop up displays) which keeps weight to a minimum. The perfect high impact display stand for those looking for lightweight, easy to use exhibition stands.

Embrace linkable fabric stands

Embrace 4x3

Purpose made SEG textile graphics hug the frame to create a sharp, effective back wall. Use a stand-alone frame or take advantage of the systems flexibility by joining multiple frames together to create a straight wall or a seamless 90 degree corner.

Embrace offers a quick build, easy care, minimal effort venue solution.

- Available in four versatile size options
- Linkable – createdvenue filling structures
- Easy tool free setup
- Mounted lights available
- Easy fit SEG (Silicon edge graphics)

Embrace 3x3

Embrace 1x3

Embrace 2x3

Formulate system

Aluminium frame with tensioned fabric graphics

Formulate is a new and innovative type of exhibition and display stand, ideal for companies looking for a unique display option.

The aluminium framework clicks together, and then a printed fabric panel fits snugly around the frame.

The fabric graphic panel can be printed either single or double sided.

We produce the Formulate in wide range of shapes. Used as banners, back walls, table-top stands and complete systems that create amazing 3D effect stands.

Create a 3D effect

- Formulate has three optional additions that can be used to create a 3D effect.
- These include an angled, curved ladder and trapezium column which fits to the front of the frame.
- These will enable any exhibitor to have a unique display stand which will help you to stand out from the crowd.

Ultimate in portability

- The aluminium tube framework, and fabric panel makes this display stand compact and lightweight.
- A 2900mm wide display weighs under 9kg, making this one of our lightest weight backdrop options.
- The framework clicks together, and is supplied with a numbering system, to make set up very quick and easy.
- A 2900mm wide display can be set up in 15 minutes.

Formulate fabric banner stands

Monolith Banner

The Monolith narrow banner is the slimmest model in the Formulate straight range, its narrow profile allows it to be used as a fabric banner rather than a back drop wall. Ideal when you want the traditional banner look but need the form and functionality of the Formulate system.

Curl Banner

Beautifully curved, the Formulate Curl is a seductive alternative to traditional banners. The gentle oscillation imitates the curves found on the Formulate Serpentine and Formulate Serpentine Slope, making them ideal counterparts to the Formulate Curl. Lightweight and portable, the Curl is easy to assemble and disassemble and comes complete with its own fabric carry bag.

Slant Banner

The Formulate Slant is our latest fabric banner similar to the popular horizontal curve wall, its slim profile allows it to have the look of a curved banner combined with the benefits and form of a fabric system.

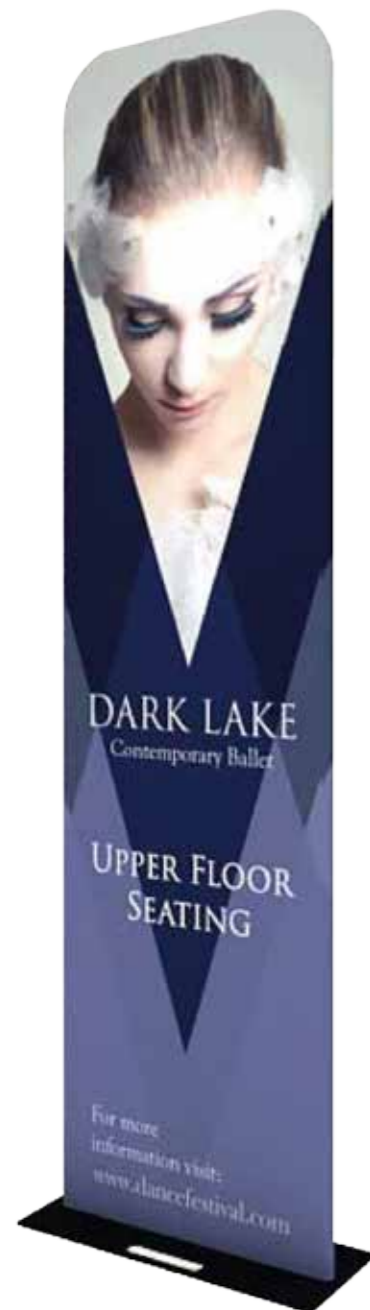

Easy to assemble frame combined with a double-sided fabric graphic that simply slides over the structure to create this visually pleasing shape.

Snake Banner

This modern ultra stylish fabric display is large and commanding. Stretch fabric material fits the tubular frame like a sock. With strong banding and a stylish concept you're bound to draw attention and admirers.

Formulate straight fabric stands

Stand Alone straight walls

Formulate now comprises of a range of individually supplied walls that offer an attractive alternative to traditional banners and pop-up displays. The straight walls are available with sturdy metallic feet or strong metal base option found in the Monolith model. If you need something more dynamic and even more eye-catching, consider the Formulate curved models.

All formulate systems are made from a strong metallic frame that's light and easy to assemble. The graphics are hard wearing and can be easily folded away when transported or stored.

Formulate Straight

Makes an ideal back or dividing wall, ensuring a dynamic and attractive exhibition spaces, an incredibly portable exhibition companion.

Width	Height	Depth	Weight
2.4m	2.3m	0.5m	6kg
3m	2.3m	0.5m	7.5kg
6m	2.3m	0.5m	11kg

Formulate Straight Slope

Tapering gently from left to right (or vice versa depending on your design) adds an angular dimension to a display or stand.

Width	Height	Depth	Weight
3m	1.8m-2.3m	0.5m	7.5kg
6m	1.8m-2.3m	0.5m	10kg

Formulate Monolith

Tall and imposing with a heavy metal base. Great alternative to roller banners.

Width	Height	Depth	Weight
0.65m	2.3m	0.25m	12kg
0.95m	2.3m	0.25m	15kg
1.2m	2.3m	0.25m	20kg
1.5m	2.3 mm	0.25m	24kg

Formulate Serpentine

With a wave like shape it creates a subtle backdrop that's easy on the eye. Strong frame and Formulate reliability.

Width	Height	Depth	Weight
2.4m	2.3m	0.4m	5kg
3m	2.3m	0.4m	6kg
6m	2.3m	0.6m	8kg

Formulate Curved Slope

Tapers down gently from one side to the other with a mildly sweeping curve. Creates the ideal dividing wall with a unique organic form.

Width	Height	Depth	Weight
3m	1.8m-2.3m	0.5m	5kg
6m	1.8m-2.3m	0.7m	10kg

Formulate Serpentine Slope

Undulating fabric curves Serpentine slope creates a stunning back wall or dividing wall, gentle slope to display fabric graphics.

Width	Height	Depth	Weight
3m	1.8m-2.3m	0.4m	6kg
6m	1.8m-2.3m	0.8m	10kg

Formulate Curved

With its playful shape and ease of use, it offers an inspiring alternative to a straight fabric display.

Width	Height	Depth	Weight
2.4m	2.3m	0.4m	4.75kg
3m	2.3m	0.5m	5.25kg
6m	2.3m	0.7m	7.5kg

Formulate curved fabric stands

- Quick and simple to assemble
- Manufactured from strong 32mm aluminium tube
- Components labelled with matching symbols for easy assembly
- Packs away into a fabric carry bag
- Easy care washable graphic
- Tool free assembly
- Easy fit graphic with zip fastening

Formulate Vertical Curve

Concave and resting back on two aluminium legs, this display stand offers stability and strong brand delivery with its shield like form.

Width	Height	Depth	Weight
3m	2.3m	0.6m	9kg
6m	2.3m	0.6m	16kg

Formulate Arches

Make your entrance with the Formulate range of fabric arches, three amazing configurations to really make your mark at any even or retail space.

Made with the same 32mm aluminium tube frame found through the Formulate range, which is incredibly light and easy to construct. Simply build the frame and slip over the extra durable, stretchy graphics to create the stand.

Formulate Arch 2.7m

The smallest in the family but by no means the least impressive.

Sturdy wide base and fabric valance, the 2.7m Arch has ample space for innovative artwork.

Width	Height	Depth	Weight
2.7m	2.3m	1m	12kg

Formulate Arch 6m

The 6m Arch is the ideal structure to use in large retail spaces and exhibition events.

With a total height of around 4m and a huge 6m surface to print on you'll make a impressive mark on any space.

Width	Height	Depth	Weight
6m	4m	1m	25kg

Formulate Arch 6m - Triple

Comprising of three 6m wide arches joined in a unique rib configuration, this is an exhibition stand which is aesthetically pleasing, quick to build and never forgotten in a hurry!

Width	Height	Depth	Weight
6m	4m	5m	82kg

Formulate hanging banners

With seven very different shapes for any situation you will always dominate air space from afar.

Formulate Hanging Banners are now available in a multiple range of sizes and shapes, you won't fail to command attention or add even more impact to your brand.

- Tool free assembly
- Shapes available in a variety of different sizes
- Easy fit double sided graphic socks with zip fastening
- Supplied with hanging loops to suspend from ceiling

- Different weights and finishes for multiple uses
- Make a comfortable branded seats with hard filling option

Formulate fabric counters

Light, seamless podiums

Building on the successful Formulate range of strong, light fabric display systems, we now supply fabric counters that can compliment the range to complete the look.

With seamless graphics that are both light and washable, combined with a five-year guarantee, your counter will create outstanding first impressions for years to come.

Oval formulate counter

With shelving (6mm frosted acrylic):

Width	Height	Depth	Weight
0.6m	2m	0.4m	14kg

(Maximum load: 50kg evenly distributed)

Without shelving:

Width	Height	Depth	Weight
0.6m	1m	0.4m	9kg

Shapes and options to suit

Three shapes for a distinctive look, Oval Counters are ideal for reception points at events or product promotional stands, supporting an optional top external shelf system that's strong and stylish.

Alternatively the more traditional Rectangle Counter, available in two widths, provides commanding reception point, all models accommodate optional internal acrylic shelving.

Rectangle formulate counter

Width	Height	Depth	Weight
0.8m	1m	0.5m	16kg

(Maximum load: 50kg evenly distributed)

Large Rectangle formulate counter

Width	Height	Depth	Weight
1.9m	1m	0.5m	30kg

(Maximum load: 50kg evenly distributed)

Solus promo counter

A presentation point or graphic tower, joining components are molded from clear materials so as not to interfere with the graphic effect.

Units	Width	Height	Depth	Weight
1	0.8m	0.9m	0.4m	8kg
2	0.8m	0.9m	0.4m	8kg
3	0.8m	0.9m	0.4m	8kg

Optional Swift iPad counter top

Swift 360 promo counter

Graphics look great from all angles. Choice of two heights, strong enough to take large weight loads, you can showcase a variety of products in all shapes and sizes.

Model	Height	Depth	Weight
Standard:	0.9m	0.5m	4.5kg
Small:	0.5m	0.5m	4kg

Promotional counters

Outdoor shelter

Zoom Tent

There's plenty of room to shelter from the elements underneath the Zoom Tent, available in four sizes. The polyester canopy offers extra protection from the weather with the sturdy Zoom Tent frame.

Save time and money with our budget canopy, options to customise, make it your own. Now available in the four sizes.

- Print your message and brand across the top valance
- Plain walls offer protection and save money
- Wind, UV and water resistant
- Made from durable polyester
- Quick and easy to assemble
- Canopy & walls available in four colours; Blue, black, white and red

Gazebo

Our gazebos are dual purpose outdoor displays perfect for shelter from the elements at outdoor events, and also fully branded to promote your brand and products.

Printed on UV protected, weather proof material, our gazebo displays are a great tool to grab attention throughout the year.

- Gazebo is designed to be set up by two people. We offer standard and premium gazebos, with the main difference being the thickness of the aluminium frame. Both options are available 3x3m, 4.5x3m and 6x3m. Available with single or double sided printed panels, with options for side, front and rear panels and front doors. Optional leg weights for windy conditions or hard ground.

Inflatable Tent

The Inflatable Tent is a sturdy and attractive option for outdoor displays - being a fantastic eye catching canvas providing visual advertisements that can be seen from afar.

Optional canopy and wall accessories provide more printed message opportunities and added shelter from the elements.

- Optional column & canopy colours
- Withstands wind speeds of up to 15mph/24kmh when pegged into soft ground
- Made from strong polyester with double layer PE fabric outer shell.
- Standard Carry Bag included
- Securing Straps included

Ex-Star shelter in style

The Ex-Star provides both eye-catching branding and stylish shelter from the elements. These are ideal for promotions, festivals, sports events and golf days as well as being a great alternative to a standard Gazebo or Zoom Tent.

The Ex-Star is made from quality polyester which is supported by a central pole and secured by ground pegs.

- Unusual eye-catching shape, provides branding and shelter
- Folds into a 325mm x 1470mm bag, fits comfortably into any car
- Quick to set up using 2 people
- The fabric canopy can be replaced and updated
- Quality digital print for brilliant colours and graphics
- Weatherproof, exclusive treated fabric
- Pole, pegs and bag included

Parasol branded umbrellas

Parasols & umbrellas are ideal for both indoor and outdoor retail spaces. Printing available on the entire surface using dye-sublimation technology so there is no limitation on design or colour. The Parasol makes a bright and vibrant eye-catching display whatever the weather.

Square 3.5m
• Four printed panels

- Inflatable cans from 5.5kg; 8 times lighter than PVC inflatable cans
- Advanced fabric printed technology for eye-catching lifelike branding
- Coated fabric for durability (minimal air loss and waterproof)
- Portable, light and easy to transport, one person can carry and install
- Small wind blower required due to the strong but light fabric (uses less electricity)
- Fire retardant certified

3 Popular Bottles

Options to suit any event

As well as a huge range of sizes and shapes our arches come in two materials to suit your event. Choose between standard PVC coated Nylon or extra thick PVC material for a stronger heavier finish.

Standard PVC

- Lightweight
- Compact
- Durable
- Easy to clean

18 colours to choose from

Premium PVC - 0.66mm

- Stronger, heavier material (similar to bouncy castles)
- Choice of constant air supply or sealed for days
- Direct print for a seamless finish
- Easy to clean

19 Colours to choose from

Our branded Inflatable start and finish arches are a great way to mark the start and finish lines at your race events. Simply plug into a power mains or generator at your event, and your branding will be the focal point at any race / running event. A simple yet high impact means of promoting your sponsorship or marketing messages, our Race Arches highlight the Start and End points, with vibrant colours that will stay colourfast when used outdoors.

Your branding can be print, sewn or fitted via velcro. Velcro branded panels allow the sponsorship details to be changed between events.

Twist Modular

Flexible modular

For years Twist Banner Stands have been bridging the gap between banner stands and Pop Up exhibition display stands.

A popular stand for self builders, you can start with a small display solution and adapt and build to create fully flexible modular solutions.

Twist stands can be seamlessly linked together with the 55cm wide patented Flexi-Link graphic panel. Flexible fittings enable Twist stands to be linked together at almost any angle.

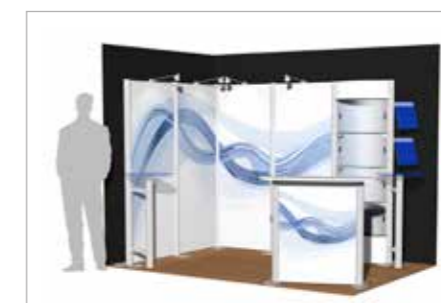

Create sweeping curves at any angle you require with the Flexi-Link panel. Flexi-Link curves give the ultimate in flexible display stands, ensuring that your stand copes with unexpected obstacles.

The Easi-Link kit is used to link Twist Display Stands to create a flat wall or backdrop. Create the ultimate bespoke exhibition stands by utilising both Flexi-Link panels and Easi-Link kits.

We can help you to visualise a bespoke Twist configuration with our free In House design service. Simply give us the stand spaces you want to use your Twist stands in, and we will put together clear 3D drawings showing you the best possible configurations.

Centro Modular static system evolved

Centro frame goes modular

Centro System frames have been a favourite over the years bridging the 'portable vs. quality' gap, enabling graphics to be used over longer periods as static displays.

The simple yet secure click and lock alloy frame looks smart, offers a quality sturdy feel and can be easily self installed. The Centro family now has premium options that cover a range of display solutions. Shelving, AV and literature holding brackets, lights, poster displays and complete large static graphic walls that can use straight or curved profiles.

These multiple display options can now be combined to produce a complete modular solution, the benefits with Centro Modular is continuity, simple fixings turn individual Centro components into a stylish exhibition display enabling you to easily move into the modular exhibition market in style.

With 10 years of development and continued supply is the perfect choice for customers who wish to build on existing kit and expand into modular or new exhibitors to enter the market with confidence, knowing they can grow into modular options well into the future.

- Strong & stylish 'quick lock' build
- Quality assured - 5 year guarantee
- Shaped silver bases ensure stability
- Adaptable with the Centro range
- Wall, shelving and poster displays function individually
- Substrate options, traditional banner, flexible PVC or ridged Foamex
- Grow your system over time
- Self build and easy transport
- 3d rendered drawings available

Impact modular system

Make the move to modular

This is a popular option for our customers that want to take the first step into large adaptable modular systems but don't have the budget, flexibility or can't afford to lose the portability of the smaller back drops they have used in the past.

- Cost effective - make the modular step on a pop-up budget
- Modular - parts altered to make a fully modular display with different widths and heights
- Curved or flat ends, curved or flat walls, variable heights can be achieved
- Optional fittings - TV holders, shelving, lighting
- 3D drawing service available - plan before you buy
- Portable - the Impact Modular can break down and be transported in a few wheeled cases

Customise shapes

Internal shelving, variable heights and shapes, lights even curtained storage areas can be incorporated.

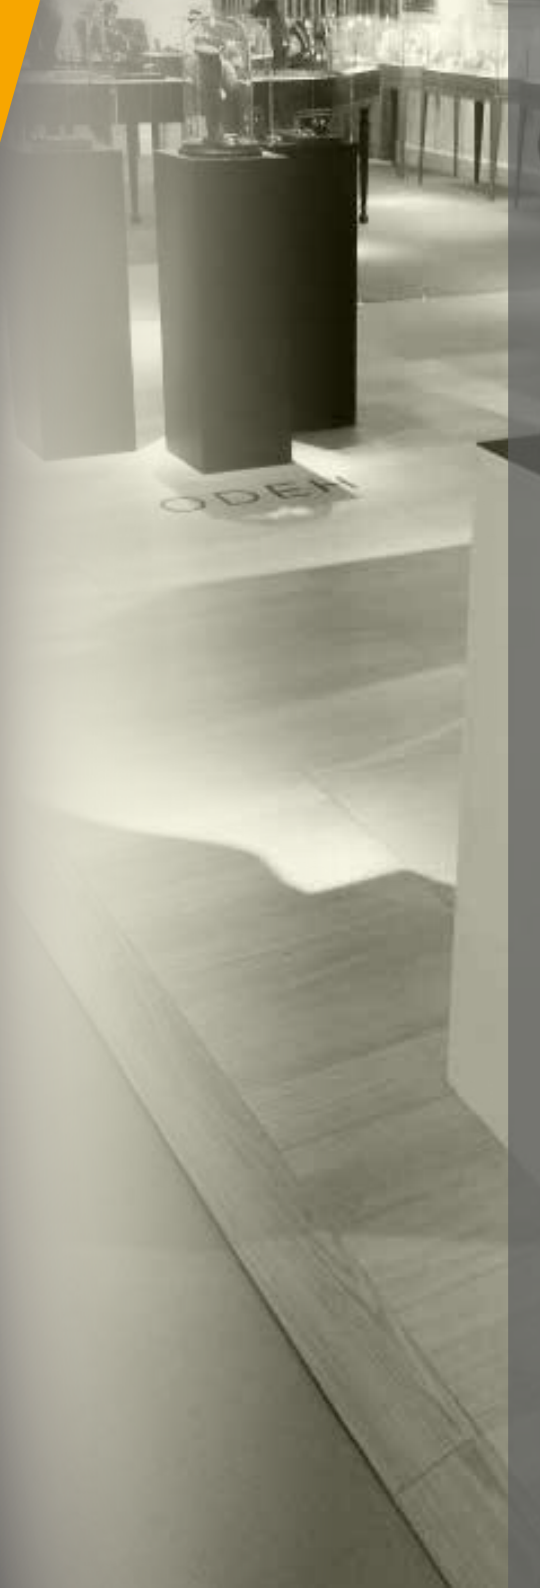

Accessories to grow with you

The Impact Modular is an advanced portable system which takes small back-drop system technology and pushes what you can do with the concept to new heights, available with many simple features usually only seen in high end modular systems.

Monitor holders, end panel lighting, internal and external showcase shelving, variable heights, private storage areas, frame modifications and fully adaptable graphics that make the display adaptable to future events for years to come.

Floortable perfect finish

Modular Systems begin at the base

A fully modular and adaptable floor system, popular with exhibitors that have repeated exhibitions and can save time and money purchasing their own hard wearing, professional looking floor that lasts for many years.

The raised floor allows cables to be hidden seamlessly and ramped edging gives the whole look a permanent floor look & feel, complimenting any exhibition space.

- Flooring comes in panels that interlock
- Once fitted no movement in any plane or direction
- Can be fitted quickly by one person without tools
- Space under the floor to run cables
- Available in four of our most popular colours
- Other colours and printed options available to order

Finished to suit any event

Available in our most popular textured colours, black, lugano, light maple and metalika. Solid flooring that looks like its always been there, other colours and printed floors available on request.

Aluminium frame with tensioned fabric graphics

- 5m x 2.5m and 3m high walls are popular choice for straight walls
- Add a popular 2-3m stretch ceiling mounted display
- Design your display for a quality yet quick-build, portable option
- Quality construction for long term use
- An alternative solution to traditional portable display stands
- Create curved or straight walls for a bespoke set up

Stretch fabric modular system

Freestanding benefits

Part of our stand-alone Stretch Freestanding system, the Stretch Modular is a great option when you need to create a high impact, yet cost effective display for an L or U shape space.

Make a statement at your next event.

How it works

Stretch Modular framework has two channels for the insertion of branded fabric panels with a silicone strip sewn onto the edge of the graphic

This silicone strip fits securely into the framework channel, gripping the fabric and stretching it across the display surface, removing any creases.

Fabric graphic panels can be produced for both the front and rear of the frame, to create a double sided bespoke shaped display stand.

Clever Frame

Smart investment

Clever Frame, the impressive multi-function exhibition system that's exciting exhibitors the world over with its clean design and almost endless, versatile configuration options.

Give your display the competitive edge with a stylish system you can easily design, build and grow your Clever Frame system years ahead of the competition.

Look great, adapt at your convenience and self-build with ease. Clever Frame, Clever Form, Clever Design.

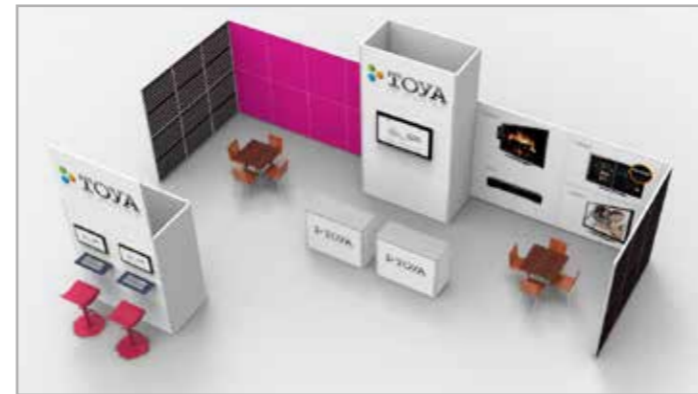

Drawings that impress

Clever Frame can be supplied with beautifully rendered 3d visuals and plans to help present and promote your ideas.

Don't forget our complete Advanced-build installation and storage options, no time to worry about the logistics of event installs?

With Advance build we can take care of it all.

What is Clever Frame?

Building blocks for marketers. A system of reusable aluminium frames, able to connect with each other in any configuration. Exchangeable panels and a huge range of accessories, the system is adjustable for all event situations.

Award winning design, the next generation of self-build systems. Inter-connecting aluminium frames can be configured into almost any form or structure. The system is so robust and simple to build (no tools required) you can be confident your initial outlay will last you years on the exhibition circuit.

Unlimited opportunities

One system can give you an array of possible shapes and configurations.

These four systems have been built with 12 Clever Frame 'blocks' and interchangeable graphics.

Easily manipulate frames to different sizes and structures for different events, and update sections of graphics without having all panels replaced. The graphic panels, are secured by magnet to the face of the frames to give near seamless single or double-sided graphic coverage.

Build exhibition stands and private booths, enhance your brand awareness with event scenery, backdrops and sponsor walls. Improve your work space by creating visually impressive reception areas and office dividers.

The configuration options really are endless...

- Intuitive tool-less assembly
- Stylish visuals - Includes 3d visuals & plans
- Huge range of quality stand accessories
- One frame - Dozens of configurations
- Long term cost effective investment
- Portable and easy to transport
- Change layouts to suit venues
- Update or rearrange graphics with ease

Gantry modular system

Modular Low Cost Exhibition Stands

Gantry is ideal for creating very bold and striking exhibition stands, at a fraction of the cost of traditional bespoke options.

With exposed lightweight aluminium beams that are extremely strong allowing a load bearing span of up to 60m. Supplied in framework sections, Gantry can be used to create any shape and size exhibition or display stand.

The modular nature of the framework allows for the size and shape to be reconfigured between events. Therefore, one gantry exhibition stand can be designed to fit a range of exhibition requirements throughout the year.

Ideal for companies wanting to have one exhibition stand that can be used in a space only site, and also in smaller shell scheme spaces.

After discussing your requirements we can put together 3d Cad drawings showing how a Gantry system will fit your exhibition spaces. If you want to use a Gantry modular exhibition stand at different sized events throughout the year, we can put together drawings to show how a Gantry system can be used for all of your events.

T3 shell clad

Shell kits with style

T3 Shell-Kit has been designed with simplicity, adaptability for different venues and maximizing available space. Built around the T3 Shell clamp, which can be fixed to any shell scheme world wide, without any tools, creating seamless fabric display environments

Using the same T3 frames as the modular system and the shell connectors your kit connects effortlessly to any shell system and maintains a 60mm clearance from the existing wall and floor, maximizing your floor space.

Cladding options included ridged foamex panels or seamless ultra compact fabric graphic walls. The system breaks down into manageable lengths for easy transportation, with the average 3x3 fabric shell scheme fitting in a frame shoulder bag.

Fully adaptable in size and shape you can extend or reduce your system to fit different event spaces, giving you not only a unique looking stand but one that's cost effective for future displays.

- Fast, simple and easy to fit
- No tools required
- Can accommodate screens, plinths and storage spaces
- Fits any shell scheme with unique clamp
- Reconfigures into larger freestanding displays
- Designed to free up floor-space

T3 modular system

Revolutionary custom built

A patented cube and connector is used to create truly unique exhibition stands, simple to use, almost limitless in adaptability and form.

Using the T3 system we can design and produce superb individual structures that can be assembled by any end user. Alternatively if you need full build, delivery, construction and storage there is also the added feature of our low cost site setup service.

T3 enables exhibitors looking to compete with elaborate custom built exhibition, normally associated with extreme budgets. These usually need huge build teams that require complex timber structures which are often expensive and difficult to adapt beyond the one event. Unlike many of these custom-built exhibition stands, T3 can be used again and again with no additional costs.

T3 meet complex system demands

- Create unique exhibition stands
- Custom built exhibition stands that won't leave you out of pocket
- Adaptable in size and shape, easy to update graphic panels
- Strong enough to support plasma screens and heavy display items
- Internal product / literature display
- Create secure storage areas
- Choice of roll up, foamex, fabric and acrylic graphic panels
- No tools or skilled labor needed to assemble stand
- Individual frame components lowers maintenance bills on replacement parts

T3 modular system

Ideas to exhibition

Although this is a modular system, each display stand we produce is a bespoke creation.

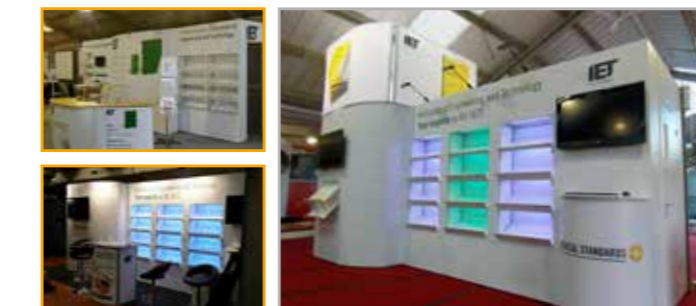

Our in-house design team can create a 3D visualisation of your new exhibition stand.

To start this work we would need to take a brief from you;

- What size floor spaces does the display need?
- Does the floor space have a back or side shell walls?
- Do you require LCD screens?
- Do you need to display products or need storage?
- Are there any height restrictions?
- Are there any other special requirements?
- Are there any other special requirements?
- Are there any other special requirements?

Ideas in motion backlit fabric extension

T3 stand today has a long tradition of adaptability, the IET T3 stand is totally unrecognisable from its first revision many years ago.

Simple storage and built in monitor requirements have evolved with the needs of the exhibition stand.

The system now has a removable fabric height extension that is back lit, allowing it to be seen far and wide at many of the larger events across the country, yet still able to fit neatly into the smaller ones.

The shelving with its rotating coloured lights makes it instantly recognisable and really highlights the IET event product, their industry manuals.

ISOframe Wave

Preium framework

The Wave is our premium fully flexible portable exhibition display system.

Stunning looks, superior build quality, infinite flexibility and extremely user-friendly.

The build quality is reflected in the components. Hard wearing easy to assemble and reusable for year to come.

Were so confident the ISOframe Wave comes with a lifetime guarantee!

- Portable - graphics roll up into tubes, holdall bag holds framework
- Flexible, reduce or expand your exhibition stand to suit the floorspace
- Easy to build, no tools, DIY construction
- Hardwearing for regular use
- Range of accessories, shelves, lighting, literature stands, counters and monitor holders
- Storage areas can be added
- Variable Heights 2090mm, 2290mm, 2490mm

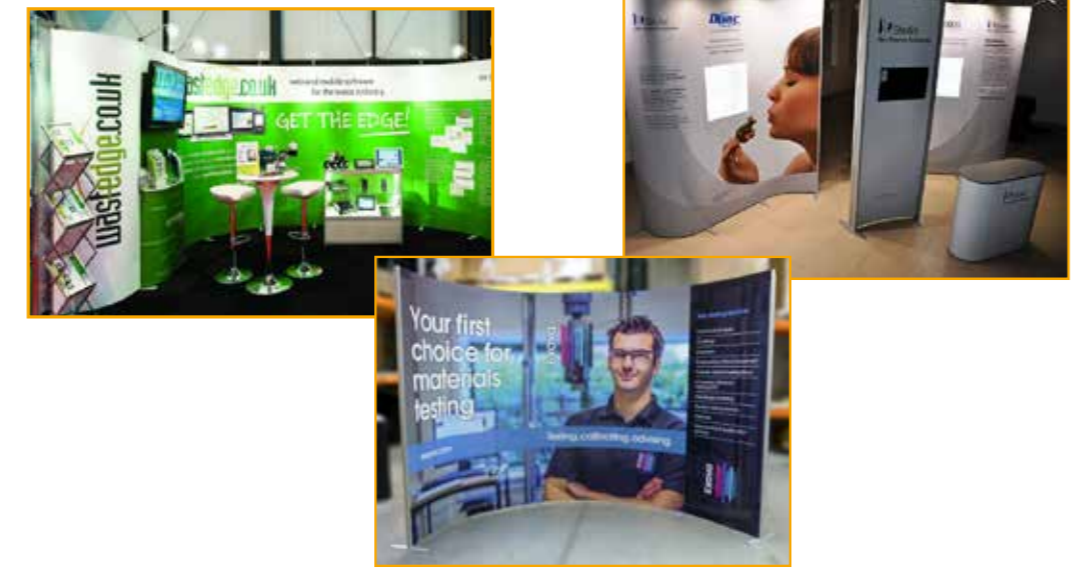

• 3D Drawing Service for planning available

Did we mention flexibility?

ISOframe Wave is the first portable exhibition display system that can be formed into any shape.

With its compact nature the ISOframe Wave is also easily transportable and is assembled without tools.

You can even extend or reduce the display without re-printing graphics. This quality product will grow with your company and exhibition ideas for years. Its so flexible even if it the system needs to be repositioned or reshaped during your event it can be done without taking graphics down, our customers love the fact is totally versatile and can be reused again and again and repositioned with ever changing exhibition floor spaces.

ISOframe Counter

Bespoke pro counters

Part of the ISOframe range, compliment your exhibition with premium quality counters, with looks and build quality that will never let you down.

Ideal for use as either product podiums or work surfaces, due to their build quality and ISOframe construction they can take unusually high loads either on the surface or the optional shelf. Counters are available in a five main shapes and standard height options from 250mm to 1000mm.

- Fast and easy tool-free assembly
- Flat-packs easily into a car
- Use as counters or product display podiums
- 250, 500, 750, 890 and 1000mm height options
- Optional adjustable internal shelving
- Upgradeable to a maximum load of 75Kg

Variety and quality are standard

The ISOframe Counter compliments the professional build quality and standards set in the ISOframe modular range. With five different shapes, all available in different heights for a variety of uses you can't help but show your serious side.

Moves with you

Transport as a flat pack and assemble in seconds. Graphics can then be easily attached magnetically and stored safely. Each counter can be accessorised with a range of components such as shelves and doors for secure storage, or visual elements such as iPad holders.
