The Dolphin range of high quality, induction compatible, polished stainless steel chafing dishes bring elegance and durability to any buffet counter. These dishes, being induction compatible, are designed to get the best performance out of any induction equipment. The elegance of the five glass lidded models in the range, with their hydraulic operating lids, ensure their soft closing keeping the food contents hot and fresh.

The Dolphin chafing dish range can be easily disassembled and re-assembled for cleaning and come with either metal or porcelain inserts.

These high quality chafing dishes can be used on other hot surfaces, such as heated tiles, etc.
