V-Curve Interchangeable Sign System

Priory Medical Group were looking for an economical, attractive, and easily updatable sign system to replace existing signs that would compliment the building's design.

There were a number of challenges.

There was an existing colour scheme to work with and the replacements needed to be compatible. The signs had to be installed in a matter of weeks from the initial meeting.

The replacement signs needed to be easily changeable, unlike the signs that were already in place. The V-Curve Sign System sample kit allowed us to show the customer what we could offer.

They loved it, especially how easy it is to change the sign inserts as needed and at minimal cost.

The V-curve System offered the customer the perfect choice.

It is cost effective, well designed, and it was delivered on time.

We received praise from our satisfied customer:

"Updating the signage at our surgery was looking to be a difficult and expensive task.

When Complete Signs recommended the V-Curve System, it satisfied all of our needs at a reasonable price.

The new signs look stylish and modern and give us the flexibility we need to make more changes at a later date." David Smithwrite – Priory Medical Group
