

Framed Entrance Doorset

The industry's best at a competitive price

The Connect a.d. Framed Entrance Doorset is a manual doorset ideal for low to medium volume pedestrian access in shopfronts and commercial entrances such as retail outlets, shopping centres, offices, hotels and residential buildings.

Our Framed Entrance Doorset has been designed and manufactured in-house for over 30 years to the latest best practice and fabrication techniques, using the industry's best components at a competitive price.

Better design and better made

This versatile doorset comprises an aluminium doorleaf & frame and can be supplied as a single, double or leaf-and-a-half, configured to swing inwards, outwards or in both directions.

We can install as a doorleaf only to replace old or damaged leaves, or as a complete entrance doorset or shopfront with fixed sidescreens and transom panels.

We fabricate using internal bracing to form a doorset with in-built strength.

Fire Exit

Electric Locking

Finger Trap Protection

Security Upgrades

Hugh range of options

All components, such as closers, pivots, locks, handles and glass are designed for ease of installation, maintenance and repair.

Colour options include satin anodised aluminium, polyester powder coating and stainless steel.

Numerous glass, handle, manual & electric lock options increase aesthetics and provide customisation.

Our Fire Rated option is designed and manufactured by leading trade suppliers and is ideal for shopping centres, offices and commercial buildings, where a fire rating is required for protection and provide containment.

Technical Sales & Support

Every enquiry is handled by our dedicated technical sales team who are focussed on providing the best and most cost effective solutions quickly and efficiently.

For every order we appoint a job manager who arranges all material, engineer and Health & Safety resources and scheduling required to carry out the work on time and on budget. Our in house team handle all calls and emails to ensure the smooth running of every job from first contact to completion.

A site meeting with the appointed job manager is held to review the work, confirm site details, to determine site restrictions and hazards, and plan dates for the work.

Our family of long serving and motivated site engineers provide a reliable service delivery of confidence and attention to detail.

Our in-house fabrication facility is also capable of handling all Commercial Entrance Doorset & Shopfront repairs and upgrades from any manufacturer.
