

TP3 Global Opens New UK Manufacturing Facility

June 2015

A successful West Midlands based manufacturer experiencing on-going growth has further invested in the development of their business with the recent purchase of two warehouses at Heming Road, Redditch.

TP3 Global's new facility allows for greater capacity and an even more robust supply chain of SilverSkin range of insulated pallet covers for pharmaceutical, healthcare, airline and logistics customers. SilverSkin™ thermal covers are designed for protection of cold chain and controlled room temperature shipments, an essential component of logistics and supply chain management solutions. Their unique offering is the subject of increasing demand around the world and although TP3 Global now have a presence in a number of countries, their European HQ will continue to be stationed in the West Midlands, split between Solihull and Redditch.

TP3's Chairman & CEO, Clive Wheeldon, describes the move as an important step in the development of the company. "Since inception, we have seen continuous expansion. The new facility will accelerate the company's development in relation to continual growth, improvement and R&D".

TP3 Global have refurbished their new accommodation to a high standard, a move which reflects their commitment to excellence and the provision of a first class environment for their workforce.

Chris Keye of Darby Keye Property acted on behalf of TP3 Global providing advice throughout the acquisition. He added “TP3’s new production and distribution facility at Heming Road is well located for visitors and their highly qualified team, a team which is continuing to expand. The level of refurbishment which they have undertaken is very impressive, their new accommodation provides a high end working environment for staff and truly reflects their premium brand”.
