Overview

As more and more people move online in the future, online commerce is expected to explode as never before! You know your customers shop online. Your competitors have online stores. Now, you can also get your share of this exciting virtual marketplace by establishing your own online storefront or revamping your existing e-commerce site to make it really work!

Our **iStore E-Commerce Solution** helps you to seamlessly set up a digital storefront with an impeccable shopping experience enabling you to sell your products directly to end-customers with just a few clicks, leading to better value for money for your clients and hence better profits for you.

iStore is an enterprise grade E-Commerce System built using industry leading Web 2.0 technologies that provides versatile virtual stores for both the pure-play online shops and the rapidly evolving e-commerce needs of click & mortar businesses.

iStore offers a gamut of features that greatly enhances the user experience for both your first time online shop visitors and registered users. In addition, iStore gives powerful tools for the site administrator or owner of the e-commerce storefront to effectively manage your online business.
