UNION AQUAPARKS

COMPANY DNA

To Think Differently....

We have a lot of respect for our O2 brethren that created this category many moons ago. Over the past couple of decades the world of floating devices has spawn into such a fun, thriving category. Complete with so many designs and years of history ahead of us - why would we want to open this competitive new chapter? All sterling enterprises need a good shake up from time to time.

Here is our simple direction...

We have an aerospace engineer who graduated top of his class - can't go wrong with smart people.

We are asking more questions - you don't know what you don't know.

We have strategic gambles - good things don't come to those that wait.

We analyze - and evaluate, and inspect, and rehash, and study, and any other synonym you could throw out there for thinking things through.

We see the big picture - we have a clear vision of where we would like to take this category and have faith in the process to get us there.

We couldn't be more excited to be the fresh face on the buoyant block - we hope you enjoy the beginning.

UNION AQUAPARKS

IMAGINE YOUR EXPERIENCE. HARNESS YOUR LOCATION.

OUR EXPERIENCE:

We want to make everything to do with the on and off the water experience as easy as possible. This is an unbelievably fun sport and we will make everything to do with the process as easy as possible.

THE LOOK:

Look good - feel good. Feel good - play good. Play good = a perfect experience. Everything about these features were designed to be in the water and the designs all tell such a unique story of what is possible for your customers.

INSTALLATION:

The people selling these features are also the same group with extensive experience installing hundreds of cables and aquaparks and will be handling every phase of the installation for the customer.

INSURANCE:

We have an insurance broker with years of working with aquaparks with competitive rates readily available to make this process as smooth, easy, and as affordable as possible.

BRANDING:

www.UnionAquaParks.com is the hub for this oxygen induced amusement gateway. We will heavily promote your Union featured park on our website. We offer certain features available with your own customized branding at no additional charge.

WARRANTY:

We have partnered with the greatest factory and are offering an extensive 2-year limited warranty on all of our products.

EU CERTIFIED:

All of our products meet the European standards.

THE PEOPLE:

Last but not definitely not least - we couldn't be more excited about the group of people involved with this company. Truly a labor of love, and everybody involved has such a deep-rooted affection for watersports and what this brand stands for.

FEATURE:
THE TEMPLE

Inspired by our favorite pyramid at our local skate park. The Temple opens up the option to rally over the top, or throw your agility boots on and try to side step the outside.

SKILL LEVEL:

FEATURE:
WAVE RIDER 30

Heavy sigh – there isn't actually a wave here. It's a flat connection piece to build up steam for the next big thing. But we really struggled with just having a rectangle object – so we gave the outer profile a wave look to it. What this piece lacks in story telling of its own – it more than makes up for the suspense created in the piece it connects to. A thirty-foot long cliff-hanging masterpiece.

UNION

AQUAPARKS

OUR ROOTS

Since the summer of 1944 our lineage has been making ripples on the waterways in the greater Seattle area of Lake Union. We have always had a menacing desire of change and a spirit that echoes fondly thru all of us. We come from different backgrounds for sure, we have opposing strengths, but one thing is common – the fabric of what we do and who we are revolves around innovation and the experience that it brings.
