

AVH

Adapted Vehicle Hire

A guide to your next adapted vehicle hire.

About Us

AVH are dedicated to the provision of vehicle hire services to the disabled, their families and carers, accident management and insurance companies, accident repair centres, solicitors, care homes, charities, major daily rental companies and support organisations.

We are proud to be part of the disabled community and our primary focus is on the provision of service that meets with our customers' individual requirements.

Whether you are hiring for a day or long term we can provide the vehicle you require from our extensive range of adapted cars and wheelchair accessible vehicles.

We provide:

- ✔ Nationwide delivery & collection
- ✔ Competitive prices
- ✔ Flexible rental from 1 day up to 3 years
- ✔ Knowledgeable staff who are happy to provide help and advice on vehicle selection
- ✔ Extensive range of adaptations, fitted in AVH's own workshop by fully trained engineers
- ✔ Loyalty programme, REWARD HIRE

Vehicle Adaptations

Single lever push pull hand controls

For people who are unable to use the standard pedals, single lever push pull hand controls allow the vehicle to be driven using hand controls.

Pedal Extensions

Pedal extensions bolt onto the existing pedals bringing them closer to the driver's seat. Our pedal extensions are tailor made to the individual client and the vehicle.

Indicator Crossover Bar & Indicator Toggle

An adaptation that allows the driver to indicate with the right hand instead of the left.

Left Foot Accelerator

We use a "flip style" accelerator on the left hand side of the brake pedal that flips down when required.

Easy Hand Brake Release

This simple but effective mechanism attaches to the parking brake to bring the operating handle nearer to the driver allowing the driver to operate with one easy action.

Infrared Auxiliary controls

An invaluable tool for people with limited upper body mobility. This device controls all the auxiliary functions in a vehicle.

Boot Hoist

The electric boot hoist assists you in lifting your wheelchair or scooter into the rear of the vehicle using the remote.

Wheelchair Accessible Vehicle

Conversions allow wheelchair users to travel in the rear of the vehicle without being transferred from their wheelchair. We operate a variety of vehicles from VW Caddy through to VW Transporters and Renault Masters all converted by Motability accredited converters.

Wheelchair Accessible Minibuses

These larger vehicles have up to four wheelchair positions and a variety of other seating combinations. Access is via a rear tail lift and they come fitted with handrails and access steps throughout.

If you have a specific requirement, please let us know.

Mini-Lease: Flexible Long Term Mobility

AVH are pleased to offer flexible long term rental

How it works:

- Rather than buy or lease vehicles, use long term flexible rental
- Specify the vehicles you need and we will provide a quotation
- No or minimal guaranteed rental period required
- If you no longer need the vehicle, simply return it to our rental fleet

Benefits:

- Flexible or no advanced payment
- Increased flexibility, no long term commitments
- Replacement vehicles provided
- Full service maintenance and repair
- Generous monthly mileage allowance
- Change vehicles quickly and easily to suit individual needs

Adaptation Installation Service

Adaptation Installation, Service & Repair

AVH are partnered with Motability for the fitment of adaptations to vehicles. We have our own large workshop premises based in West Drayton, Greater London. We work on behalf of Motability, so if you are ordering a new vehicle through a local dealer on the Motability scheme and you require adaptations to be fitted, the dealer can arrange with us to have the work completed in a timely manner.

If you already have an adaptation fitted and you require it to be serviced or repaired, you can contact AVH and we will book your vehicle in for the work to be carried out.

If you need an adapted replacement vehicle whilst yours is being repaired, this can be arranged through us too.

Mobility, scooter & aids also available

Just call for information and a competitive quote.
