## Site Cleaning Services

Cleaning is the simplest and least costly method of improving the image of your site and an important health and safety investment.

Cleaning programmes can be tailor made to client specification or chosen from our recommended packages.

## Gutter Protection Solutions

Are leaking, rusting gutters a problem?  
CSC's Solution - Gutter Lining Systems

CSC recommend gutter lining is installed to all gutters regardless of age and condition. Our seamfree lining will protect gutters from corrosion, preventing water damage to top-sheeting, under-sheeting, lights, electrics and pumps and also putting an end to customer complaints of drips!

## Gutter Mesh System

Installing CSC's Gutter Mesh system will prevent leaves and debris clogging the gutters and drainage system. In conjunction with the Gutter Lining System it also eliminates the need for regular cleaning and maintenance of the gutters and risk of injury and associated liabilities.

'We decided to try CSC's Gutter Lining System at one of our sites where we had major problems with holes in the gutters that leaked water affecting pumps and customers. As we have future plans to redevelop this site, we needed a less costly but effective alternative to fully replacing the gutters. The Gutter Lining works were completed quickly with minimum disruption to our trading.

John Ryeland, Managing Director - Retail,  
George Hammond Group.

'CSC's Gutter Lining System was an easy and complete solution to the long standing problem of leaking gutters. In my opinion, it is reasonably priced and it was installed within a day without any disruption to the forecourt.

Colin Fullerton, Director - Roadside Group
