Welcome

We would like to welcome you to our new trade catalogue for 2019 and we hope you find the format easy to use and follow. In the last year we have pushed on to increase our offering and improve our product presentation. As a result of this we have launched new partnerships with Vermeister and Sherwin Williams and strengthened our existing partnerships with Junckers and Lagler, which will help us offer our customers solutions for all their flooring requirements. We would like to thank you for your support and custom over the last year and we look forward to working with you again in the year ahead.

Orders & Deliveries

Deliveries normally take 1-2 working days from date of order.
If you need an urgent delivery, contact our office and we will try our best to accomodate you within reason.
Collections must be made at least 30 minutes prior to closing.

Via Roadfreight
1m pallet
Delivery premises must be attended at all times with facilities to unload pallets. Penalties will apply for additional unloading time.

Fastway Courier Charges
Per Carton / Box
Delivery premises must be attended at all times.
Signature required on delivery.

BASEPRIME

Single component solvent primer

Baseprime is an oil-based very fast curing primer for wooden floors where waterbased primers cannot be use due to poor adhesion, for example exotic and oily timbers. Baseprime gives the floor more depth of colour when used on oaks and walnut. The product should only be used directly on to bare wood and requires subsequent protective coats of water or solvent based finish to achieve final result.

- Extremely fast drying, ready to overcoat within the hour
- Ideal for use on exotic and oily timbers
- Achieves nice depth of colour when used on Oak or Walnut
- Overcoat with water or solvent based finish

PRELAK
Single component water-based primer

Junckers Prelak is a fast drying, water-based primer for use on untreated or machine sanded wooden floors in commercial, residential or sports areas. Using prelak minimises the risk of side-bonding between the individual floor boards. Protective coats with one of Junckers water-based floor lacquers have to be applied after priming. PreLak has received the Danish Indoor Climate Labelling. These tests ensure that there are no chemical substances in the product which adversely affect the air quality in the room.

- Fast drying Primer, easy to sand
- Suitable for commercial and sports floor use
- Minimises side bonding between boards
- Can be used with 1 and 2 component Junckers water-based finishes

STRONG

Single component water-based finish

Junckers STRONG is a single component waster-based, 100% polyurethane, hard-wearing lacquer for wooden floors. It is mild during application and leaves a low odour. Offers the ease of use of a one-component product with excellent levelling and flow characteristics. It can be used on both previously sealed as well as untreated floors. STRONG is also suitable for lacquering all kinds of indoor woodwork.

- Excellent level and flow characteristics
- Low odour
- Can be applied on new or sanded old floors
- Suitable for use on all kinds of indoor woodwork
- Apply max. 2 coats per day

STRONG PREMIUM

Single component water-based finish

Strong Premium is a single component water-based, 100% polyurethane lacquer for high traffic wooden floors in both commercial and domestic areas. It is non yellowing, low odour and the toughest single component floor lacquer on the market. Suitable for previously sealed as well as on new or fully sanded floors.

- Suitable for high traffic commercial and domestic areas
- Non yellowing, low odour
- Excellent clarity on all types of wood
- Apply max. 2 coats per day

HP SPORT

Two component water-based finish

HP Sport is a premium quality two-component water-based 100% polyurethane lacquer for very high traffic sports floors. HP Sport is non-yellowing, extremely durable and scuff resistant, and very fast curing, so the floor is ready for use the next day. HP Sport complies with the friction requirements of EN 14904 for multi-purpose sports floors. Junckers HP Sport lacquer must be mixed with Junckers HP Sport Hardener before use.

- Suitable for high traffic sports floors
- Extremely durable
- Scuff resistant
- Very fast curing
- Apply max. 2 coats per day

JUNCKERS

HP COMMERCIAL
Two component water-based finish

Junckers HP Commerical is a very hard wearing, low odour, water-based, 100% pure polyurethane lacquer for pre-finished or untreated, newly installed or machine sanded wooden floors in commercial areas. HP Commercial is the fastest curing seal on the market. The quality is excellent and is suitable for all kinds of floors with a high degree of wear.

· Suitable for high traffic commercial areas
· Extremely durable
· Ease of application
· Very fast curing
· Apply max. 2 coats per day

HP FRICTION+

Two component water-based finish

Junckers HP Friction+ is a slip resistant two component non yellowing water-based 100% polyurethane lacquer, based upon the HP Commercial range. It's fast curing and ideal for use in high traffic areas where slip resistance is important, eg restaurants and bars. It must be used as the final coat only. Tested to BS5796-2 and has a low potential for slip under wet conditions. The product is not recommended for sport purposes with player contact, without use of mats.

- Slip resistant
- Suitable for high traffic commercial areas
- Extremely durable
- Tested to BS7976-2:2002
- Very fast curing

HP SPORTSLINE

Water-based 2 component line marking paint

Water-based 2 component paint for marking of court lines and colouring of other areas on wooden floors in gymnasiums and sports halls. Recommended on floors previously sealed with Junckers HP Sport and Junckers pre-finished lacquered floors. Junckers HP Sportsline has received the Danish Indoor Climate labelling. This ensures that there are no chemical substances in the product which adversely affect the air quality in the room.

- Complies with EN14904 for mulit-purpose sports halls
- Fully cured in 3 days
- Colours are suitable for mixing

JUNCKERS

PROFESSIONAL 625

Two component solvent-based finish

Junckers Professional 625 is a solvent-based, quick drying, very high chemical resistant, two component, hard wearing lacquer. For professional use on wooden floors in high traffic commercial and residential areas. Compared with similar products, Professional 625 contains solvents with milder odour and solvency power.

· Suitable for high traffic commercial and domestic areas
· Provides deep coloured lacquered finish
· Fast drying, fast curing
· Can be applied on new or sanded old floors
· No primer required

JUNCKERS

BASEFILL
Solvent based filler

Junckers Basefill is a quick-drying fillerbase, which, in combination with Junckers solvent-based or water-based lacquers, is suitable for sanded and untreated wooden floors. Junckers Basefill is to be mixed with sanding dust from the floor sanding process and should be used only as a filler-base.

- Fast drying filler
- Can be used on floors including exotic woods
- Can fill gaps up to 2mm
- Used in combination with Junckers solvent or water-based lacquers

AQUA TENAX

Two component water-based primer

Two component water-based sealer featuring a high level insulating capacity, excellent build, good sandability and ease of application. The most important feature of this primer is that it minimizes problems of overlapping. AQUA TENAX has been formulated to give a pleasant shade to the wood without causing unwanted changes to the colour. Thanks to its high level of dry residue, AQUA TENAX can be used in combination with two component water-based finishes in the Vermeister range to carry out a two-coat finishing cycle.

- Excellent Build, Good Sandability
- Minimises overlapping issues
- Ease of application
- 2 Coat finishing cycle when used with 2 component finish

ONE

Single component water-based primer

ONE is the latest generation of single component sandable water-based primer. One guarantees appreciable high build power on any type of wood comparable with that of a two-component sealer. The high "open time" and the fast hardening time mean that, whatever the environmental conditions, ONE has a minimum tendency to leave lap marks and/or roller marks.

- Fast and perfect sandability in 1 hour
- No Lap marks or roller marks
- Exceptional high build
- Odour free and low emission level
- Suitable for 2 coat cycles

AQUA PLAY 1
Single component water-based finish

Single component water-based finish featuring considerable ease of application and an excellent flow resulting in floors with an impeccable appearance. Thanks to the S-XL technology, **AQUAPLAY 1** has a good resistance to abrasion, scratching, scuff marks as well as a chemical resistance equal to two component systems. If it is also used as a sealer, it confers a particularly warm tone to the wood.

- Ease of Application
- Good Mechanical & Chemical Resistance
- Toning Effect if Applied on Wood

EZY

Two component water-based finish

Polyurethane water-based finish. EZY can cross-link both as a single component product and, after the addition of its hardener, as a two-component product. Ezy is outstanding for its speed of drying as a single component product (ideal for extremely fast cycles). It features high resistance to abrasion, rubber marks and chemical products. EZY is also outstanding for the ease with which the 2 components are mixed simply by adding component B to the container of component A and stirring without any particular mixing procedures.

- For use as single or two component
- Ideal for fast cycles (single component)
- High resistance to abrasion
- Ease of mixing

UP-GRADE

Shader for water-based finishes

Vermeister Up-Grade is a special pre-dosed shader that can be added to water-based products, sealer or top coat, single or two component, to lighten or darken the original colour of the wood. Each coat increases the toning effect and it is advisable to carry out a preliminary test to verify the final look.

- Enhance the naturalness of the wood
- Neutralize yellowing and eliminate undesired changes of colour
- Regulate the intensity according to the number of coats applied
- Versatile and suitable for all water-based products
- Easy to use
- Low environmental impact

RUSTIC OIL COLOUR
Penetrating urethane oil

Rustic Oil Colour is an indoor priming and finishing oil product for untreated wooden floors and worktops. Rustic oils are easy to work with, produce a beautiful result and make the floor suitable for high-wear. The coloured oil is slightly transparent and enhances the natural grain of the wood. If you like the appearance of the oil, but want the advantages of a lacquered surface too, then you can combine Rustic Oil Colour with one of Junckers water-based lacquers.

· Easy to use, odour free
· Extensive range of colours
· Fully curing
· Suitable for overcoating with water-based finishes

 * Always test prior to use as colour may vary depending on wood species.

- Suitable for under floor heating

PRIMER SF

Primer SF is a single component polyurethane moisture-cure primer for treating subfloors before laying wood floors. It offers a much higher coverage and does not increase screed humidity.

Code	Product
F1210011	Primer SF - 12kg

PRE-TREATMENT & OILS

- 2.5Ltr
- 8 - 10m² / Ltr
- Water-based
- VOC Free
- Overcoat with oil or soap
- Only to be used on oak
- Allow to dry for 24 hours

ANTIQUE OAK LYE

WOCA Antique Oak Lye has been especially developed to create a very unique ammonia smoked appearance to oak wood. Requires subsequent treatment with oil or soap.

Code	Product
F2010083	Antique Oak Lye 2.5 Litre

- 2.5Ltr
- 8 - 10m² / Ltr
- Water-based
- VOC Free
- Overcoat with oil
- Only to be used with oak
- Allow to dry for 24 hours

DRIFTWOOD LYE

WOCA Driftwood Lye is primarily for oak wood. By using the product the wood will get a unique 2-dimensional appearance and weather beaten patina. Must be overcoated with WOCA finishing oils.

Code	Product
F2010084	Driftwood Lye White - 2.5 Litre
F2010085	Driftwood Lye Grey - 2.5 Litre

- 2.5Ltr
- 20 - 25m² / Ltr
- Solvent based
- VOC Max. 85g / Ltr
- Resistant to liquids & scratches
- Water repellent & easy to clean
- Approx. 24 hours drying time

DIAMOND OIL ACTIVE

WOCA Diamond Oil Active is an extremely hardwearing water repellent oil that can be applied and finished in just 1 coat. Apply with buffing machine or short pile roller for exceptional quality surface.

Code	Product
F2010086	Diamond Oil Active Natural - 2.5 Litre
F2010087	Diamond Oil Active Extra White - 2.5 Litre

- 2.5Ltr
- 20m² / Ltr
- Solvent based
- VOC Max. 515g / Ltr
- Resistant to liquids & scratches
- Natural appearance
- 8 - 10 hours drying time

HARDWAX OIL EXTREME

WOCA Hardwax Oil Extreme emphasises the natural glow of the wood leaving a comfortable anti-slip surface that is easy to maintain. For use on unfinished wood floors or as a top coat over colour oil.

Code	Product
F2010092	Hardwax Oil Extreme Natural - 2.5 Litre
F2010093	Hardwax Oil Extreme White - 2.5 Litre

OILED FLOOR MAINTENANCE & CARE

- 1Ltr
- 200 - 300m² / Ltr
- Water-based
- VOC Free
- Aggressive cleaner prepares surfaces for additional treatment

INTENSIVE WOOD CLEANER

WOCA Intensive Wood Cleaner is a specially developed cleaning product for all indoor wood surfaces. Suitable for stubborn stains pre-cleaning and before basic maintenance, not for regular cleaning.

Code	Product
F2010006	Intensive Wood Cleaner 1 Litre

- 1Ltr
- 30 - 40m² / Ltr
- VOC Max. 630g / Ltr
- Maintenance of oiled wood floors
- Apply manually or with machine
- Drying time 4 hours

MAINTENANCE OIL

WOCA Maintenance Oil provides oiled surfaces with additional hardwear properties in the upper pore layer and at the same time giving the ideal finish highlighting the natural wood grain.

Code	Product
F2010009	Maintenance Oil Natural - 1 Litre
F2010012	Maintenance Oil White - 1 Litre

- 2.5Ltr
- 320 - 400m² / Ltr
- Water-based
- VOC Free
- Nourishing effect
- For regular cleaning of oiled floors

NATURAL SOAP

For cleaning and maintenance of oiled, waxed and soaped surfaces. WOCA Natural Soap removes dirt and provides the wood with a protective layer at the same time.

Code	Product
F2010018	Natural Soap Natural - 2.5 Litre
F2010022	Natural Soap White - 2.5 Litre

- 0.2Ltr
- 20 - 30m² / Ltr
- Solvent based
- VOC Max. 135g / Ltr
- Quick-drying
- Apply manually or with machine

MAINTENANCE GEL

WOCA Maintenance Gel is a quick-drying refreshing and maintenance product for oiled wood floors especially suitable for UV oiled floors.

Code	Product
F2010081	Maintenance Gel Natural - 0.2 Litre
F2010082	Maintenance Gel White - 0.2 Litre

JUNCKERS SPORTS FLOOR MAINTENANCE & CARE

- 1 / 5 Ltr
- 50 - 200ml / 10 Ltr
- 5 minute drying time at 20°C & 60% RH
- Well wrung cloth / mop application

SYLVACLEANER

Junckers SylvaCleaner is a universal cleaning agent for daily or periodic cleaning of lacquered and oiled wood floors. It dissolves grime, dries quickly and does not leave a film on the surface.

Code	Product
F2011025	**SylvaCleaner - 1 Litre**
F2011027	**SylvaCleaner - 5 Litre**

- 1 Ltr
- 200ml / 10 Ltr
- 5 minute drying time at 20°C & 60% RH
- Well wrung cloth / mop application

SYLVANEUTRALIZER

Junckers SylvaNeutralizer neutralizes any residues left by SylvaCleaner before re-sealing a floor with oil or lacquer. It dries quickly and also removes grease from wooden sports floors.

Code	Product
F2011028	**SylvaNeutralizer - 1 Litre**

- 5 Ltr
- 20 - 25m² / Ltr
- 1 - 2 hour drying time
- Flat floor mop application
- Fully cured 3 days

SYLVAREFRESHER

A specially formulated maintenance product for use with Junckers lacquers. This product allows floors to be overcoated with Junckers lacquers while ensuring maximum protection in heavy commercial areas.

Code	Product
F2011069	**SylvaRefresher - 5 Litre**

- 5 Ltr
- 80 - 100ml / 10 Ltr
- Sponge / mop application
- Water-based

SYLVADISSOLVER H$_2$0

Junckers SylvaDissolver is a concentrated, water-based degreaser for cleaning resin / stubborn marks from sports floors. It must be used in a floor washing machine. When the resin is removed, wash with SylvaCleaner.

Code	Product
F2011029	**SylvaDissolver - 5 Litre**

MAINTENANCE OF LACQUERED & LAMINATE FLOORS

- 1 / 5 Ltr
- 80 - 100m² / Ltr
- 20 - 30 minute drying time
- Well wrung cloth / mop application

SYLVAPOLISH

Junckers SylvaPolish is formulated for protection of Junckers water-based lacquers. It is quick drying and easy to apply, it protects and enhances the lacquer finish.

Code	Product
F2011037	SylvaPolish - 1 Litre
F2011062	SylvaPolish - 5 Litre

INTENSIVE CLEANER

Clean and Green Active is suitable for regular cleaning of laminate, plastic, PVC and vinyl floors. It's environmentally friendly and leaves no unsightly streaks or smears.

Code	Product
F2012018	Intensive Cleaner - 0.5 Litre

PARQUET CLEANER NATURAL

Clean and Green Natural is a versatile floor cleaner ideally suited for regular cleaning of varnished wood, cork and linoleum floor surfaces. This product adds a protective film to your floor.

Code	Product
F2012017	Parquet Cleaner - 0.5 Litre

AQUA SHIELD

Clean & Green Aqua Shield is designed for refreshing varnished and laminate floors. It will give the floor a new lease of life, be more durable and better protected against moisture penetrating from above.

Code	Product
F2012022	Aqua Shield - 1 Litre

Lägler® PERFECT SANDING

LÄGLER offers the most comprehensive and highest quality range of machines for the professional sanding of wooden floors and the preparation of subfloors.

For more than 50 years, Lagler floor sanding machines represent functional and ergonomic perfection. They are easy to operate and easy to maintain.

At the same time, they meet the environmental and safety related requirements. The wood dust exposure of the machines was minimized as a result of focused research activities, while still providing the user unlimitied mobility for sanding in confined areas. The LÄGLER standard offers integrated dust collection systems that remain significantly below the regulated wood dust exposure.

All over the world, wood floor contractors rely on LÄGLER floor sanders and they take advantage of innovative concepts, unmatched solutions, first-class product quality, highest efficiency and perfect work results.

For the benefit of its customers, LÄGLER continuously makes significant investments in basic research, training and consulting services as well as in future oriented manufacturing processes to protect and expand the technology advances of its machines.

LÄGLER - the singles source for floor sanding machines, abrasives and application engineering.

HUMMEL
Belt Sander

Legendary Technology, Ultra Reliable, 98% Dust Free.

The HUMMEL® belt sanding machine is the best-known floor sanding machine in the world, with thousands of models in use across the globe. Mature, long-life technology for perfect sanding quality and enormous machine power have made it the undisputed number one system for parquet floor finishing for decades. The combination of an aggressive sanding drum, three-stage drum pressure regulation and belt tensioning device with integrated automatically regulated belt guidance guarantees quick work and optimum sanding quality.

Convincing HUMMEL facts: extremely economical, belt can be changed in seconds, impressive working quality, low-fatigue work, fail-safe and sturdy design and optimised dust extraction.

Ideal use:
Perfect and economical sanding of both small and large areas even in critical areas such as mosaic inlays with soft wood.

TECHNICAL DATA

Single-phase AC motor with no-voltage release and thermal overload protection	230 V / 50 CPS / 2.2 kW
Fuse protection min.	16 Amperes
Sanding drum width	200 mm
Sanding drum speed	2400 rpm
Sanding belt dimensions	200 x 750 mm
Machine weight	79 kg

*Prices subject to change without notice.

Code	Product
F2210001	**Hummel - Belt Sanding Machine**

*See pages 44 - 59 for full range of accessories & spare parts. Servicing of machine available on request.

FLIP
Edge and Corner Sander

Super Aggressive, Quality Performance, 99% Dust Free.

FLIP means maximum efficiency for perfect, comfortable sanding of edges and corners without shoulders. The heart of the FLIP is the powerful motor with its enormous suction power and corresponding reserves. The unexpectedly handy weight of the FLIP is due to the abrasion-proof, glass-fibre reinforced plastic used in the motor casing, handle and attachment.

Like all Lägler machines, the FLIP has been designed down to the last detail with ergonomics, simple handling and maintenance in mind.

The FLIP has the "wood dust test" quality mark, making it the only edge and corner sanding machine in the world to work almost dust-free. There are 2 attachment lengths and 1 corner attachment available.

Ideal use:
Predestined for perfect and comfortable sanding without shoulders of difficult edge and corner areas.

TECHNICAL DATA

Universal motor with no-voltage release and thermal overload protection	230 V / 50 CPS / 1.35 kW
Fuse protection min.	10 Amperes
Sanding disc diameter	150 mm
Sanding disc speed under load	3100 rpm
Sanding disc speed corner attachment under load	7750 rpm
Machine weight	9.8 kg

*Prices subject to change without notice.

TRIO
Three Disc Sander

Perfect Finish, Powerful & Versatile, 99% Dust Free.

The TRIO is the versatile and powerful floor sanding machine in floor finishing.

From thorough sub-floor treatment via renovation work on pre-finished parquet floors to perfect fine and intermediate sanding, the three disc sanding machine covers a comprehensive spectrum.

The powerful motor has been optimally designed for both the heavy-duty and/or sensitive requirements of these areas of application. The integrated, sensor-monitored dust extractor and well though-out filter system guarantee almost dust-free work. Disposal of the dust bag is also dust-free. Basic equipment ex factory: Universal sanding disc and additional 8 kg weight.

Ideal use:
Excellent for floor finishing and renovating solid wood, engineered, cork and stained floors. For cleaning and polishing as well as for the dry treatment of screed and sub-floors. Only suitable for dry processing. Suitable for sanding of Pandomo® floors.

TECHNICAL DATA

Single-phase AC motor with no-voltage release and thermal overload protection	230 V / 50 CPS / 1.8 kW
Fuse protection min.	16 Amperes
Number of sanding discs/brushes	3
Sanding disc/brush diameter	200 mm
Sanding disc/brush speed	600 rpm
Machine weight	78 kg

*Prices subject to change without notice.

HUMMEL - SPARE PARTS

ATTENTION!

In order to receive the correct spare parts from us, please specify in inquiries and spare parts orders the serial numbers of your machine.

The motor type plate of HUMMEL is located on the switch box of motor (Fig. 5). The following technical data are specified on the motor type plate (Fig. 6):

1. Manufacturer
2. **Serial number of machine (Mach. - No.)**
3. Year of manufacture (Year)
4. Motor size (Type)
5. Required mains voltage in volt (V)
6. Current consumption in ampere (A)
7. Motor frequency in CPS (Hz)
8. Motor power in kilowatt (KW)
9. Motor speed in 1/min (Rpm)
10. Post factor in cosine phi (cos)
11. Insultation class (Insul. Cl.)
12. Protection class (Prot. Cl.)
13. Type of current
14. Country of manufacture

FLIP - SPARE PARTS

ATTENTION!

In order to receive the correct spare parts from us, please specify in inquiries and spare parts orders the serial numbers of your machine.

Fig. 1   Type plate on motor housing.

The type plate of FLIP is located on the motor housing (fig. 1). The following technical data are specified on the type plate (fig. 2):

1. Manufacturer
2. **Serial number of machine (Mach. - No.)**
3. Year of manufacture (Year)
4. Machine name (Type)
5. Required mains voltage in volt (V)
6. Current consumption in ampere (A)
7. Motor frequency in CPS (Hz)
8. Motor power in kilowatt (KW)
9. Motor speed in 1/min (Rpm)
10. Weight of machine in kilogram (Weight)
11. Insultation class (Insul. Cl.)
12. Protection class (Prot. Cl.)
13. Type of current
14. Country of manufacture

Fig. 2   Data on type plate.

Lägler **TRIO** - SPARE PARTS

ATTENTION!

In order to receive the correct spare parts from us, please specify in inquiries and spare parts orders the serial numbers of your machine.

The motor type plate of HUMMEL is located on the switch box of motor (Fig. 5). The following technical data are specified on the motor type plate (Fig. 6):

1. Manufacturer
2. **Serial number of machine (Mach. - No.)**
3. Year of manufacture (Year)
4. Motor size (Type)
5. Required mains voltage in volt (V)
6. Current consumption in ampere (A)
7. Motor frequency in CPS (Hz)
8. Motor power in kilowatt (KW)
9. Motor speed in 1/min (Rpm)
10. Post factor in cosine phi (cos)
11. Insultation class (Insul. Cl.)
12. Protection class (Prot. Cl.)
13. Type of current
14. Country of manufacture

Fig. 1   Type plate on switch box of motor

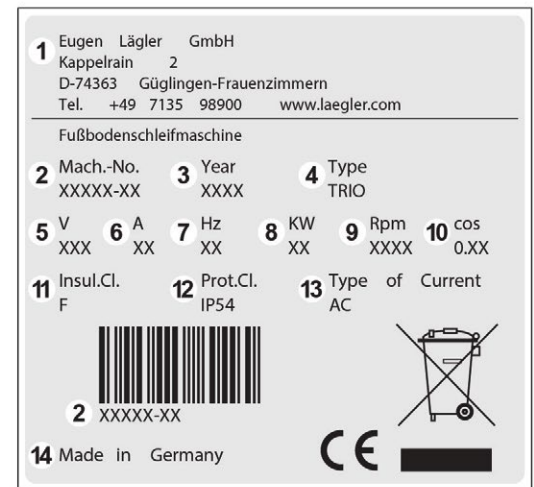

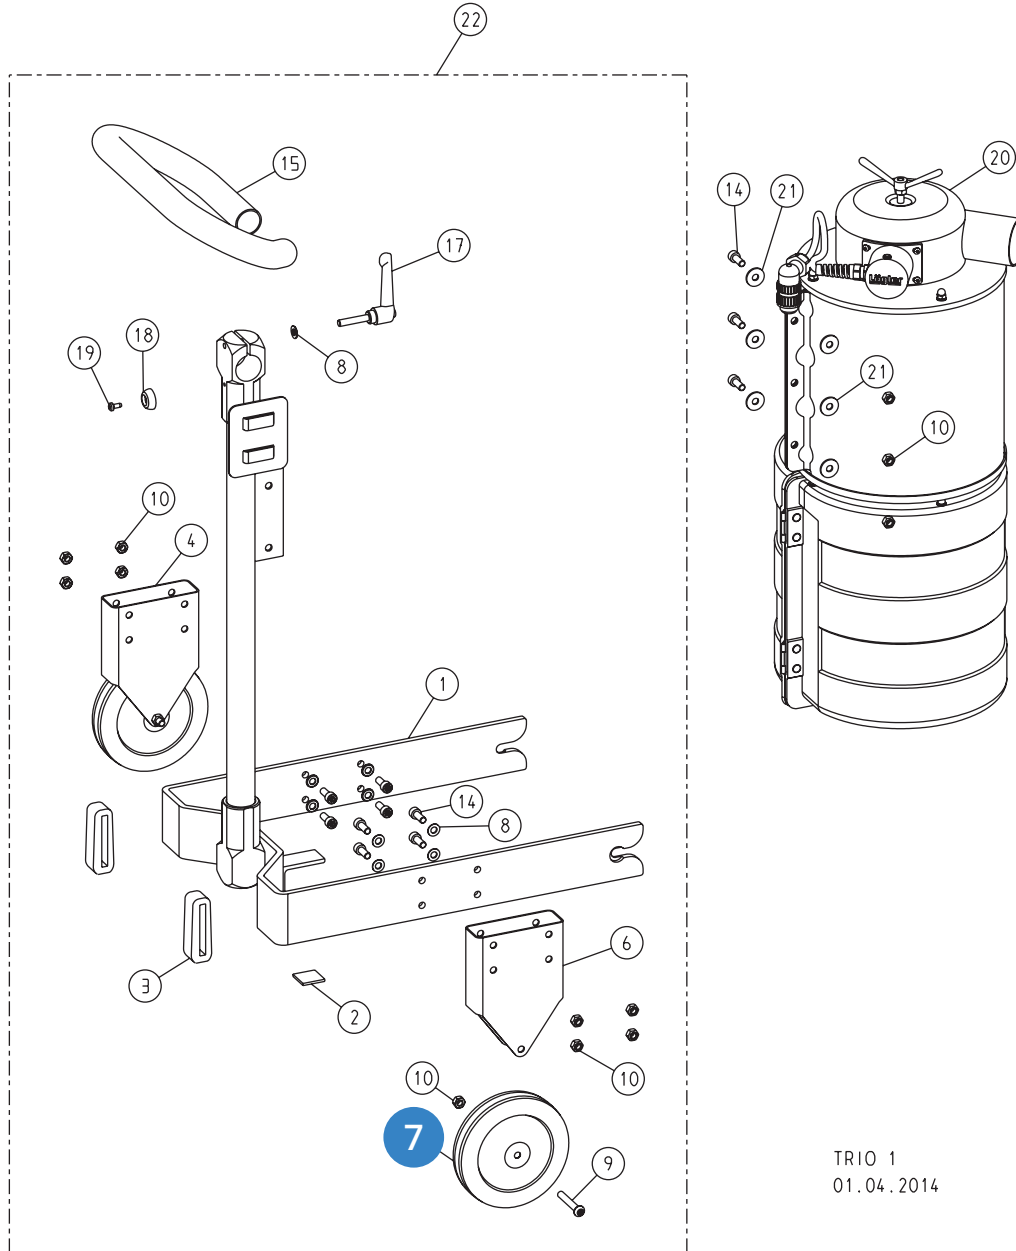

Fig. 2   Data on type plate.
